

GOVERNOR WILL MAKE NO EFFORT TO END STRIKE

Situation at Bingham Becomes Serious as a Result of the Announcement Made by Spry.

Salt Lake, Sept. 28.—The Bingham strike situation became alarming again tonight following the announcement by Governor Spry that he would not attempt to bring about a meeting between representatives of the striking miners and the operators.

Spry's determination was announced in a communication to A. L. Wilde, business agent of the Steamshovel Men's union who represented the Western Federation of Miners in an effort to bring about such a meeting. In declining to arrange the meeting, Spry said he believed his efforts would be useless.

Wilde said later that it looks like the mine operators want to fight, adding "and if they want that they will have plenty of chance to get it." He indicated that the miners all over this district would probably be called out immediately in the absence of President Moyer of the Western Federation, who is in Nevada. Wilde is practically in control of the situation. He communicated with Moyer tonight.

CALLS ON SPIRITS TO AID IN LAW SUIT

Denver, Sept. 28.—Influence of unnumbered spirits will be brought to bear upon Judge Ben Lindsay of the juvenile court within the next week in an effort to convince him that he should order the return to her mother of Myraabel Williams, nine years of age, who for several months has been in the Denver orphan's home.

The mother, Mrs. George Willson, is suing to regain custody of her daughter, and having faith in spiritualism, has appealed to her friends who hold the same beliefs to aid her. She is confident that all true spiritualists, either in person or through their spirit guides, come to her aid and believes that the influence will be sufficient to overcome the letter of the law, she has advertised for help from spiritualists generally.

"I am fighting not alone for my rights and the possession of my child, but also for the good name of magnetic healers," said Mrs. Willson. "I know that I will win her for every true spiritualist in Denver will send spirit guides to my aid."

MOTHERS' PENSION BILL IN CALIFORNIA

San Francisco, Sept. 28.—Miss Lucy Goode White, president of the California League for the Protection of Motherhood and Socialist nominee for district judge, is discussing the proposed mothers' pension bill today.

"We are going to try to have included in this bill a clause holding that any employed woman about to become a mother, who presents a physician's certificate regarding the same to the juvenile court, must be given a certain number of weeks' rest previous to and subsequent to the birth of the child. The bill has two distinct features whereby mothers or women relatives of dependent children may collect from the state directly and providing for state appropriations to county mothers' pension lists in proportion to the birth rate for the preceding two years. In both instances the money will be handled by the juvenile court."

"The inclusion of the mothers' pension plank in the political platforms of all California parties at the Sacramento convention this week, I believe, makes it a certainty that this much needed reform will become law in California in the near future."

Roosevelt to Be Witness

(Continued from First Page.)

Democratic national committee. Teghoff, the last witness of the day, may produce some papers of the late E. H. Harriman, bearing on the alleged collection of \$250,000 by that financier for the Republican presidential campaign.

Senator Pomerene of Ohio, one of the most skillful lawyers in the senate, will conduct the cross-examination of Colonel Roosevelt, Morgan and other witnesses. He will make an effort to develop admissions that may have a far-reaching effect in the present campaign.

Committee on Hand.

The members of the senate committee are already in the city. They are Senators Clapp, Penrose and Oliver. Senator Foynter of Kentucky, will arrive here Monday. Senator Jones has started from his home in Washington and will be here the middle of the week.

Senator Oliver had a conference today with Senator Clapp. He said he fully approved the arrangements made by Clapp. He did not know when Senator Penrose of Pennsylvania, expected to be an interested spectator, would arrive here for the hearing. Senator Pomerene declined to discuss his plans for the hearings or to say what questions he has prepared to

submit to Roosevelt. Some of the interesting features of the inquiry will be statements of campaign expenses from Senator La Follette, Congressman Oscar Underwood, Speaker Clark and Governor Harmon of Ohio, seekers of presidential honors. Each of these four men may be summoned as witnesses.

PROGRESSIVES OPEN WHIRLWIND CAMPAIGN IN GREATER NEW YORK

New York, Sept. 28.—With six meetings in Brooklyn and five in Manhattan and the Bronx, the Bull Moose party opened a whirlwind campaign in New York. Simultaneously the college men's dinner to Democratic Chairman McCombs was on at the Hotel Astor.

Oscar S. Straus, progressive candidate for governor, spoke at all of the Brooklyn meetings, being whisked from place to place in an automobile.

"I appear before you as the unbossed candidate of the unbossed people," Straus said at his more pretentious meeting in Prospect hall. "I stand on a platform of performances, not of promises. Should I be elected I will see to it that every dollar collected from the people shall be expended for the people."

"I will do my utmost and with your help I shall succeed in driving the bosses and the grafters out of business. It was done by Hiram Johnson in California and by La Follette in Wisconsin and we can do it in New York."

Straus then paid a high tribute to the intention of Governor Hughes, but said he was hampered by the bosses.

He then pointed out that many of the reform planks in the Syracuse platform were what he proposed in 1907 while secretary of commerce and labor and characterized the Democratic platform as a "moving picture" platform.

Personality of Roosevelt

(Continued from First Page.)

not succeed is that the great bulk of our people are not emotional superficially minded, non-thinking or hero-worshiping. They have the virtue of second thought and to see the danger of a movement that must depend for its success on holding forth impossible promises of millennium.

"Fortunately, there is not the slightest chance of the third party, and even in that there is now every probability that it will be disappointing."

"The Republican party should be in the front, affirming our right to represent the people in authority in the government because of what we have done or what we shall continue to do in the future, that we shall preserve forever the constitution and the institutions of this country unimpaired."

He emphasized the importance of maintaining a protective tariff to safeguard industrial interests, prevent reduction of wages and sustain the high standard of living of American workmen.

President Taft motored to Gloucester, Mass., this afternoon and delivered a brief address to the veterans of the Civil war.

FOREST FIRE RAGING AROUND PUGET SOUND

Seattle, Wash., Sept. 28.—A terrific forest fire in the eastern part of King county tonight is threatening the towns of Snoqualmie and Fall City, the south camp of the Pacific Lumber & Timber company of Seattle, and the power lines of the Puget Sound Traction, Light & Power company, which operates street car lines of Seattle and Tacoma and the interurban line connecting the two towns.

Early this evening falling tinders set fire to a private residence in Snoqualmie and the blaze was extinguished only after considerable damage had been done to several houses. The power lines have been burned and it is feared that the fire will not be brought under control until considerable damage has been done to the lines.

At South Camp, near Snoqualmie, a small group of men fought off the flames this afternoon, the fire having practically surrounded the camp. Some of the works are reported destroyed. It is feared South Camp is doomed.

Considerable new timber belonging to the Northwest Lumber company has been burned, although the exact loss is not known. Estimates place it between 500,000 and 2,000,000 feet. The fire is raging in the direction of Snoqualmie and while no immediate danger is felt, the winds are causing the residents of the town considerable uneasiness.

OSBORNE WILL VOTE FOR COL. ROOSEVELT

Lansing, Mich., Sept. 28.—Rumors that Governor Osborne would not support the leading candidates on the third party ticket were set at rest tonight by the governor himself in a letter to C. C. Decamp, secretary of the state central committee of the Progressive party.

Governor Osborne stated in the letter that he will vote for Colonel Roosevelt for president and L. Whitney Watkins, progressive candidate for governor of Michigan. He expressed pleasure that the Republican state convention last week did not endorse his administration.

Con. W. Hesse, Watch Inspector of O. S. L. for 16 years. There's a reason. Dentist, Dr. Carpenter, Idaho Bldg. of

LABOR LEADERS NOW FACE TRIAL AT INDIANAPOLIS

Dynamite Conspiracy Case Will Be Called Next Tuesday in the United States District Court.

Indianapolis, Ind., Sept. 28.—Nearly 60 labor leaders, charged by the government with having conspired to fight their battles by means of dynamite and "atroglycerine" are tonight nearing Indianapolis where, Tuesday their cases will be called in the federal court. Five members of the International Association of Bridge and Structural Iron Workers, besides those living here who were indicted, have already arrived. According to H. S. Hockin, secretary-treasurer of the union, all will be here by tomorrow afternoon. Orrie McManigal, the government's star witness; Frank J. Higgins, New England organizer of the Iron Workers, living at Springfield, Mass.; E. E. Phillips and John Carroll, both of Syracuse, N. Y., and Patrick A. Cooley of New Orleans, are already here. According to information received tonight by District Attorney Miller who will be in charge of prosecution, Daniel P. Brophy, former member of the executive board, is confined at his home in Brooklyn, N. Y., with a broken leg and will be the only man indicted unable to appear because of illness.

Government Secret Agents. It became known today that the government has assigned already a large number of secret agents who will remain during the trial. Even federal officers here will be kept in ignorance of their identity, unless something should arise which will disclose their identity. These men will keep a sharp lookout at the time a jury is being selected and while the trial is in progress. Since the grand jury investigation which resulted in the indictment of the 54 labor leaders on conspiracy charges, much valuable evidence and books of the Iron Workers' union have been stored in a huge vault in District Attorney Miller's office. Guards have watched this night and day. In the past few days, additional guards have been placed at the stairways leading to the floor on which the district attorney's office is located and at night heavy chains, securely padlocked, bar entrance to the big bronze gates leading to the stairways.

A conference of the accused and their attorneys is scheduled for tomorrow. Other conferences will also be held Monday. Orrie McManigal is being housed in a room adjoining that of United States Marshal Schmidt's office in the federal building, but only government officials are allowed to see him. It is expected he will make his first appearance in the court room Tuesday.

United States Marshal Schmidt is trying to figure out how to arrange the court room so as to accommodate the greatest number of persons.

Three rows of chairs have been placed just inside the rail and across the entire width of the room, to be used by the defendants, but how to accommodate two score or more attorneys and a like number of newspapermen, is a question.

Owing to the smallness of the court room, not more than 350 spectators will be able to gain admittance.

DEBS ATTACKS ALL OF THE CANDIDATES

Philadelphia, Sept. 28.—Judge a political party by the men who finance it, was the advice tonight by Eugene V. Debs, Socialist presidential candidate, who addressed one of the largest gatherings ever held in Philadelphia.

"Tell me who finances a party and I'll tell you who controls it," challenged Debs. "Taft is backed by J. Pierpont Morgan, John D. Rockefeller and others of that group. Wilson has for his backers Thomas Fortune Ryan and Roger Sullivan, while Roosevelt has the financial support of Medill McCormick, Frank A. Munsey, George W. Perkins and the steel trust. The only difference among these three parties is the element presented. Why should you elect any of them? They are not conscious of your interests. The workers are in the great majority and when they realize that they have brains as well as heads, they may accomplish something."

Debs was cheered for thirty minutes after he mounted the platform and he had difficulty in making himself heard.

O'GORMAN WILL KEEP UP HIS FIGHT ON DIX

New York, Sept. 28.—That United States Senator O'Gorman will carry his fight against the renomination of Governor Dix into the Democratic state convention, which will meet in Syracuse next Tuesday, became certain tonight. O'Gorman interrupted the dinner in honor of Chairman McCombs and called the Democratic presidential candidate aside. For 15 minutes they conversed solemnly. The governor refused to admit that the New York state situation was under discussion, but it was later learned that this was so, and that O'Gorman was assured of complete support in his fight to prevent Tammany domination.

The senator was asked afterward

what was talked of. He refused to say, but finally declared: "The name of Justice Victor J. Dowling will be presented to the Syracuse convention as a candidate for governor."

From this the deduction was made that Dowling will be the candidate of the anti-boss delegates at Syracuse. He is now serving on the appellate division bench of this department, under resignation from Governor Hughes, although Hughes knew he was a Democrat when he named him. Dowling, at Albany before his election to the bench, was a Tammany hall senator whose private and public life was above reproach.

DENVER ZINC WORKS DESTROYED BY FIRE

Denver, Sept. 28.—The Colorado Zinc works, owned by the Guggenheim interests, was destroyed by fire late today with a loss of \$250,000. Although the building burned to the ground, and falling walls endangered scores of persons, none was hurt. Spontaneous combustion in the coal sheds is assigned as the cause.

MCCOMBS GUEST OF HONOR AT BANQUET

New York, Sept. 28.—William F. McCombs, chairman of the Democratic national committee, appeared in public tonight for the first time since he retired from the active management of the campaign six weeks ago. He attended the dinner given in his honor at the Hotel Astor by the Woodrow Wilson College Men's league who also had as guests Governor Wilson and William G. McAloon, committee vice chairman, who is conducting the campaign in McCombs' absence.

McCombs was warmly greeted by the several hundred banqueters. He looked much improved in health. Except for a few automobile rides along Long Island, where he is recuperating, tonight was the first time he had ventured away from home. He has been suffering from intestinal poisoning for many weeks. Governor Wilson expressed his pleasure at McCombs' improvement. McCombs also talked briefly, expressing appreciation of the honor shown him.

"Big Bill" Edwards, commissioner of street cleanings in New York, the chap who saved Mayor Gaynor from a would-be assassin, was toastmaster. Speakers in addition to Governor Wilson and Chairman McCombs were John Temple Graves and John W. Clifton, who were Clark men before the Baltimore convention. Renold Wolf, dramatic editor of the New York Morning Telegraph, and John H. Finley, president of the College of New York.

WASHINGTON PARTY TICKET IS ON FILE

Harrisburg, Pa., Sept. 28.—Nomination papers for the Bull Moose, or Washington party, candidates for presidential electors, state officers and above 175 congressional, senatorial and legislative district candidates in Pennsylvania were filed at the state department here today.

The electoral ticket contains the names of the men recently announced by the Roosevelt people. The Republican state candidates are endorsed and many of the Republican district nominees.

The elector papers contain 10,000 signatures, although only 2300 are required.

SAYS ALDERMANIC PROBE HUGE JOKE

New York, Sept. 28.—District Attorney Whitman this afternoon in denying that he put any obstacle in the way of the aldermanic police graft probe said that so far the aldermen had succeeded only in getting themselves laughed at.

"The aldermanic committee has made a pitiful spectacle of itself," Whitman declared. "The committee had a splendid opportunity to bring results, but witnesses have laughed in the face of the investigators. The chance to do something was spoiled. Mr. Buckner is brilliant, but is young. His associates are children."

Whitman made his statement in connection with a denial that he had objected to the probes examining any witnesses connected with the Becker case in the Rosenthal murder prosecutions.

CATHOLIC BISHOP WARS ON SOCIALISM

At the recent convention of the German Roman Catholic Central Verein in Toledo, Bishop Schramm of the Toledo diocese delivered a stirring address against socialism. He declared socialism to be a menace to society and the Catholic church, and advocated co-operation with the American Federation of Labor on this issue.
