

APPRECIATION OF BORAH IS SHOWN IN OTHER STATES

Portland Chamber of Commerce and Arsenal Federation of Labor Unions Thank Senator for Work.

At Senator Borah's office in this city, in charge of his private secretary, Earl Venable, while the senator is out on his campaign, two letters have recently been received thanking and congratulating the senator for certain activities of his in the United States senate.

One of these is from the secretary of the "Arsenal Federation of all Labor Unions" at the Rock Island arsenal, thanking him for his efforts in behalf of the employes of the arsenal. The other is from the Portland Chamber of Commerce expressing appreciation for Senator Borah's consistent and earnest efforts in behalf of Panama canal legislation in the interests of the people of the country. The letters are as follows:

The Portland Letter.
Portland, Ore., Sept. 10, 1912.
Hon. Wm. E. Borah,
Boise, Idaho.
My Dear Senator:
I want to express my appreciation to you for your consistent and earnest efforts in behalf of the Panama canal legislation in the interest of the people of this country. The bill as passed contains many provisions of the greatest concern and value to the entire country, but, as I wrote to Senator Bristow, to my mind, the main thing we have to be thankful for is that it has been demonstrated that the great interests are no longer in the saddle at Washington and to you and men like you "the country owes an everlasting debt of gratitude." Men of experience in public life do not expect expression of appreciation and approbation, but I at any rate wish to let you know how much not only I personally but those who know what this fight meant, appreciate your efforts.
With best wishes, I am, as always,
Sincerely,
J. N. TEAL,
Member Executive Committee, Portland Chamber of Commerce.

Arsenal Federation.
Senator Borah,
Dear Sir:
Acting in the capacity of secretary to the arsenal federation, representing 1500 government employes, I have been instructed to thank you for your admirable efforts to prevent the adoption by the government of the Taylor system.
Your report to the senate 930 is being eagerly sought after at this arsenal and all pronounce it as the most able argument against Taylor methods that has ever come before legislative bodies. Your efforts in obtaining the \$250,000 appropriation for this arsenal through the senate has convinced the arsenal employes that in Senator Borah we have one of the best friends of labor that is in congress today.
Thanking you again, I remain,
Yours,
(Signed) B. D. DYAS,
Secretary Arsenal Federation.

SCHOOL EXHIBIT WILL BE FEATURE

Educational Work in Ada County Will Be Demonstrated at Fair.

Ada county schools will break all records at the intermountain fair this year by the size and grade of work in their exhibits, according to Miss Ivy M. Wilson, the county superintendent. Samples of the work that will be in the display at the fair have already come into the county superintendent's office and are being arranged for the exhibits next week. The office force is working late into the night getting these displays in order for their position in the space that has been assigned to the county schools.

Most of the exhibits will be from the county schools of the county. Boise has decided not to enter as heavily this year as it did last and the exhibits from the city schools will go east to another exposition of grade work. This will give the county districts more space for their work and will also give them a better chance for the awards.

They feel that they should not have to compete against the Boise schools with their special teachers and properly graded work. All of the exhibits that will be shown this year will be what has been done in the class room as part of the regular work.

Four potato clubs will have representatives here next Friday afternoon when the winners of the contests will be decided and their exhibits taken for the fair. Only one girl from the county schools will compete in the final contest. She is from Five Mile, while Pierce Park will have eight representatives, Brookside four and Eagle one.

The winner of these awards will be entertained free of cost during the week of the fair and will be given special instruction in the growth and culture of crops, especially potatoes. Miss Wilson attended the meetings of the newly organized Mothers' club at the Holcomb school yesterday, where she delivered an address on school playgrounds, domestic science, art, and the school house as the social center of the community. The club plans to improve the playgrounds around the building and the county superintendent made suggestions as to the best lines that should be followed.

INDIANS COMING TO THE FESTIVAL

Redskins Will Be Guests of the Rainmakers All Next Week.

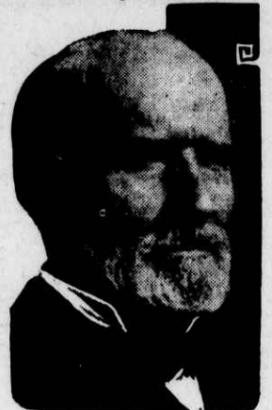

Clad in all the panoply of war; with their squaws and horses the combined bands of Bannock and Shoshone Indians will arrive in Boise from the For Hall reservation on next Sunday morning, preparatory to taking part in the mammoth parades of the Rainmakers' festival and the Indian portion of the program at the Inter-Mountain fair. The Indians will disembark at the fair grounds siding immediately upon their arrival and will at once pitch camp within the grounds.

A number of highly interesting special races and games have been arranged for the Indians and according to a letter received this morning from Frank Randall, who acted as interpreter for the braves last year, a larger number of the aborigines will be on hand. Relay races, squaw races and speed contests between Indians and buckaroos from the ranges of southeastern Idaho and eastern Oregon will be features.

A tug-of-war between the Indians and the cowboys will be another interesting feature, while the Indian football race in which a number of the braves divided into two teams endeavor to kick a football around the race course should prove interesting. Tribal dances will be given by the braves and squaws each day in front of the grandstand.

A realistic sham battle between the Indians and a number of cowboys and pioneers will be one of the principal events of each day's program. The combined bands of braves will battle

SEC. WILSON PLANS A WIDE QUARANTINE

Secretary Wilson.

Secretary of Agriculture Wilson has declared war on certain dangerous plant diseases which are doing great injury abroad, and sweeping quarantine proclamations are expected. The most dangerous diseases which the secretary is now contending against are the Mediterranean fruit fly, the potato wart and white pine blister rust.

Try This Home-Made Cough Remedy

Cure Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with 1/4 pint of warm water, and stir 3 minutes. Put 2 1/2 ounces of Pinex (50 cents' worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep seated cough inside of 24 hours. Splendid, too, for whooping cough, croup, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps and a cough.

This remedy makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasantly.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in gualacal and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful formula has never been equaled.

A guaranty of absolute satisfaction, or money promptly refunded, goes with each recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

with the whites and will reproduce one of the famous Indian battles of the early days in the state.

Under the direction of Mrs. Clara Gish Ewing, superintendent, the prize list for the baby show which will take place at the fair on Wednesday of fair week has been revised. An entirely new list of cash prizes has been offered for the various prizes and in addition three of the city banks have made arrangements to give to each youngster entered in the baby contest a bank book in which \$1 has been credited to it as a starter for a savings account.

A Marvelous Escape.

"My little boy had a marvelous escape," writes P. F. Bastians of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." Sold by all dealers. Adv.—T Th & S O 15.

REPORT ON WORK OF YEAR OF THE Y. W. C. A.

Two hundred members of the Y. W. C. A. were in attendance at the annual banquet and business meeting which was held last night in the auditorium of the Y. M. C. A., at which the need of larger and better quarters for the growing association was freely expressed by the officers and members and it is likely that a new place will be found before the end of the winter.

H. Gibson, president of the association, gave a report covering the work for the year, in which he particularly emphasized the accomplishments of the organization in assisting young women and girls in securing employment and helping them in many other ways. Miss Beale, secretary of the association, reported 783 members. The total attendance at Sunday vesper meetings for the year was 653, with an average Sunday attendance of 21. During the year the cafeteria served 10,154 meals, but it has not been self supporting owing to the small quarters, but would easily be if it could be conducted on a larger scale.

The report of the treasurer showed that during the year the association had expended \$4,629.88 and that there was a balance of \$371.66 in the treasury.

The election of directors resulted as follows: For three years, Messadames W. H. Gibson, I. N. Hall, George Bliss, H. Numbers, Misses Ella Fursten and Jessie Skinner; for two years, Mrs. Gess and Mrs. Edwin Herrington; for one year, Miss Ella Woods.

The banquet was a most elaborate one and was prepared by the young women of the association and served by the girls of the domestic science classes of the high school. An excellent program of toasts was rendered and a number of musical selections given which enlivened the evening.

PERSONAL

Bert M. Rose left this morning for Roseberry on a business trip.

Mrs. W. P. Gillenwater has returned from a visit at Albuquerque, N. M. Mrs. Frank Southworth of Mayfield, who has been visiting on the coast, arrived home today.

Mr. and Mrs. Peter Smith, who have been visiting here several days, returned to their home at Highland Dam today.

Mrs. L. L. Ormsby arrived home today from Washington, D. C., where she accompanied her daughter, who entered school there.

A. J. Dowling, a pioneer of Idaho, who has been transacting business here for two days, returned to his home at Dowling station this morning.

WHERE EARTHQUAKES EMPTY THE COFFINS
This is one of the subjects of Frank G. Carpenter's Letter next Sunday. Queer funeral customs. Men laid away in pigeon holes and how the earthquakes dumped them out. See next Sunday's Capital News.

We have repaired over 35,000 watches. Why?

GOVERNOR HAWLEY'S VETOES

Used in the interest of the Taxpayers of the State.

A number of small fry papers and petty politicians are accusing Governor Hawley of having crippled the state's educational institutions by use of the veto power. As usual when the matter is looked into the governor is found to have acted with most excellent judgment. We append herewith an extract from the governor's message cutting down the appropriation for the state university, and which, in our judgment, will meet the approval of every intelligent citizen. The governor said:

"There is appropriated for buildings and permanent improvements at the University of Idaho the sum of \$28,984. The sum of \$75,000 has been allowed by a special bill for permanent improvements at the university in the construction of the north wing of the government building, and the state treasurer authorized to sell bonds in that amount. I do not think that buildings and permanent improvements should be provided for by an ad valorem tax.

This class of improvements lasts for all time and are for the benefit of those who come after us to a greater extent than they are for the benefit of those people during the ensuing two years. The custom heretofore prevailing of providing for improvements of this nature by a bond issue should have been continued during this legislative session and it is not fair to the taxpayers of the state to have such permanent improvements paid for out of the tax levy of 1911 and 1912. This item, as all other items in regard to our institutions calling for buildings and permanent improvements, except in a few isolated instances, to be paid for out of the tax levies for the years named is disapproved in its entirety.

"There is appropriated for general maintenance and departmental equipment of the university the sum of \$99,800. This is a lump sum that should have been itemized in such a way that the executive could have separately passed on the several items. I find that at the Tenth session of the legislature there was appropriated for all purposes of this kind the sum of \$50,000 and this sum included \$5000 for books for the library, \$2000 for the law school library, \$5000 for maintaining the law school and \$3500 for furniture and fixtures for the library. These are matters for which the expense has already been incurred and there will be but slight expense for the ensuing two years on this account. The appropriation two years ago was sufficient for maintenance purposes including the items named. I think an appropriation in the same sum for the ensuing two years will be ample and that the lessened expenses on account of the items mentioned will amply provide for the net increase of maintenance. I, therefore, disapprove the item in the sum of \$99,800 for maintenance purposes and reduce the same to \$50,000.

"There is appropriated for the state school of agriculture, for agricultural demonstration and experiment farms, the sum of \$50,000. The Tenth session provided for this work the sum of \$12,000. This is a matter of considerable importance, like many other matters connected with the different branches of the university and the several institutions which as a whole compose the university and are under the control of the regents, and considerable help is given by the general government for maintenance, etc. I think a reduction can be had in the amount appropriated without impairing the efficiency of the department. To double the amount given by the Tenth session of the legislature for this purpose, in the absence of an itemized statement showing the exact amount included in this appropriation, would be sufficient in my judgment, with the help from other sources, to carry on this work. It would mean \$1000 per month for the next two years for that purpose. I, therefore, disapprove the item of \$50,000 for the state college of agriculture and reduce it to \$24,000."

Governor Hawley's program of work for the next two years consists, in part, in definite plans for a permanent tax commission which would have general supervision over all assessments, thus insuring an equal distribution of the burdens of taxation; the enactment of laws that would make the state permanently self-supporting and permit the use of convicts in the building of state roads; the consolidation of all the state educational boards in the interest of uniformity and economy.

Many who are and were protesting against cash valuation forget that it is a fact that prior to Governor Hawley's administration the sheep men and railroad companies were listing their holdings to the assessors at ridiculously low figures. The farmers were therefore for many years paying the taxes that should have been paid by the sheep kings and railroads.

At the very hour that the steel trust lobbyists were protesting against reduction of the tariff on steel and iron on the ground that it would injure American labor, the American Sheet & Tin Plate company, a subsidiary company of the steel trust, was advertising for Syrians, Poles and Roumanians to work in its plants.

The tariff has had a dulling influence on manufacturing in the United States. The tariff board reports that both in the woolen and cotton industries there is an abundance of obsolete machinery and this condition will be found in many of the factories.

Democrats throughout Idaho are requested to contribute to the state campaign fund in sums of one dollar or more. These contributions should be mailed to George E. Hill, secretary Democratic state central committee, Boise, Idaho. Checks and drafts so mailed should be made payable to the treasurer of that committee, Mr. T. Rogan.

Why Druggists Believe; In "NURITO"

The New and Effective Remedy for Rheumatism, Sciatica and Neuritis

We want all the sufferers in this city to know why we believe in "Nurito," because their belief is bound to be founded on ours. This new, progressive remedy is the work of a doctor whose standing we know. There is no mystery about it—no patent medicine deception. Like men who are to-day working the great advances in medicine the world over, this physician has simply utilized and combined ingredients which separately were recognized by doctors as having a tendency to drive the uric acid poison out of the system.

It is their unique combination which is new. Instead of a mere tendency to relieve, "Nurito" gives absolute relief which is as permanent as the relief from any disease can be.

There is neither narcotic nor opiate in this prescription—simply a harmless powder which is a complete antidote for uric acid poison. Patients who have been almost distracted by the knife-thrust, darting, rheumatic pains have been greatly relieved in a very few hours and entirely relieved in a remarkably short time.

Doctors throughout the country believe in "Nurito"—they have seen its work. We, as druggists, give it our fullest endorsement. We know that there is certain relief here for every sufferer; and that often a single \$1 box will be the most convincing evidence of it. Compounded by Magistral Chemical Co., Haddon Bldg., N. Y.

There Was a Man In Our Town

AND HE WAS WONDROUS WISE— YOU COULDN'T FOOL HIM, OH NO!

He had drank coffee for years. Coffee didn't hurt him. But the Bump Came

Many a man is pretty sure that while coffee may hurt others it don't hurt him—till the bump comes.

But when headache, frazzled nerves, an irritable heart, indigestion and sleeplessness begin to "get him," he's apt to look around for a reason.

The reason is plain when a change is made from coffee to

Postum

This pleasant table drink much resembles real Java coffee in flavour, but is free from "caffeine" (the drug in coffee) or any other harmful substance.

Postum, made from choice Northern wheat and the juice of Southern sugar cane, has put many former coffee drinkers on the Road to Wellville.

"There's a Reason"

Postum Cereal Company, Ltd., Battle Creek, Mich.

COMES A TIME
When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a friend from Rome, N. Y.

"Its lightest punishment being to make me 'foggy' and dizzy, and it seemed to thicken up my blood.

"The heaviest was when it upset my stomach completely, destroying my appetite and making me nervous and irritable, and sent me to my bed. After one of these attacks, in which I nearly lost my life, I concluded to quit the coffee and try Postum.

"It went right to the spot! I found it not only a most palatable and refreshing beverage, but a food as well.

"All my ailments, the 'foginess' and dizziness, the unsatisfactory condition of my blood, my nervousness and irritability disappeared in short order and my sorely afflicted stomach began quickly to recover. I began to rebuild and have steadily continued until now. Have a good appetite and am rejoicing in sound health which I owe to the use of Postum." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."
