Interest in New British Warship.

London, Oct. 19.—The launching of the new battleship Marlborough next week is attracting much attention in naval and shipbuilding circles. The details concerning the new vessel have been kept rather dark, but it is known that she has been designated to show an increase in size, speed and fighting power over any ships of her type now afloat. She will be almost twice the size of the original Dreadnought, which displaces 17,500 tons. The cost of the Marlborough will be approximately \$13,000,000. Her armor plating will be on an increased scale and she will mount ten of the latest type of 12-inch 50-caliber guns.

ADMISSION FROM

(Continued from First Page.)

the various counties." This section directly reflects the attitude of the morning paper and its corporation and special interest backers, and is designed to array the Taft Republicans against Senator Borah and his legislative tactics because he would not stand for Taft's theft of the Chicago convention—because, as he says, he "would not stuff" himself.

The Republican candidates think they can win by refusing to announce if they will support the head of the

ticket or not," continues the article. "This has been a very serious mistake on the part of those running for office as it has placed men above issues and caused the campaign to be run as a circus in which every candidate is a ringmaster for himself."

Then here appears this gem of appeal to Republicans to defeat Borah without coming out directly to do so:

"The regular Republicans think that if the Republican party has to go down to defeat that every Republican should go down as brothers in a common cause and that no man should desert in the face of danger. They point out to those who are faltering that it will be better to take defeat if it has to come than to be pointed out even by the democrats as a traitor and a deserter. The American people hate a quitter, and the man who runs when danger looms up in front, and it is probable that those who have political ambitions will fall in line behind the Republican party and fight before the campaign is over."

That last sentence shows what the Republican state committee, or Mr. Sumner, publicity secretary, personally, had in view when this remarkable piece of literature was paid for and sent out. They undoubtedly believed they could force Senator Borah and other candidates who will not stand for the fraud methods adopted at Chicago, to come out and acknowledge, for the sake of office, that they were wrong when they said they were right before and to get in and accept the stolen nomination, weak state candidates and all.

After Borah's Legislative Ticket.

The Ada county legislative ticket comes in also for its share of attack designed to cause Republican voters to knife those candidates, all of which tends toward the chief object; namely, the defeat of Borah. "In Ada county," says the article, "the candidates for the legislature are trying to ride into the capitol on a rail. They lean neither way, so it is said, but a great many seem to be falling over to the side of what Borah stands for."

To fall "over to the side of what Borah stands for," appears to be the lowest political act any candidate can commit according to this writer, whose writings are published by order issued against the publicity secretary of the Republican state central committee, with request to "charge to my account," showing that Allen, the reputed publisher of the journal had an "account" somewhere about Republican headquarters.

Respect the Dead.

In an editorial paragraph, in this paper the publication of which was paid for by the Republican state central committee, or guaranteed by its publicity agent, personally, as he now claims, occurs this most remarkable declaration:

"Taft is a lost cause. This fight is between Roosevelt and Wilson. The Republicans would be far better off to entirely forget Taft. THEY SHOULD RESPECT THE DEAD."

UNIVERSITY WINS FROM OLD RIVALS

Pullman, Wash., Oct. 19.—Scoring a touchdown in the third and fourth quarters of the game by straight line bucking, the University of Idaho football team defeated the slightly heavier eleven of Washington State college here yesterday 10 to 0. The first quarter developed a punting duel between Kelnholts of Washington State college and Phillips of the Idaho team, but neither team made yardage. In the second quarter, the state college men played an open game, featured by several well executed forward passes which kept Idaho on the defensive until the last three minutes of play.

WHITE SOX WIN THE CITY CHAMPIONSHIP

Chicago, Oct. 19.—The Chicago Americans won the city championship from their old-time rival, the Chicago Nationals yesterday, by playing "ring around the rosy" on the bases, the overwhelming score being 16 to 0, making it four straight victories for the Sox. This was the fifth post-series meeting of the two clubs, the Nationals having won two of the series, while the Americans made it their third victory yesterday. The American leaguers, with fine support behind Walsh, who pitched at his best, battled terrifically. All the Cub pitchers, and they used five of them, looked alike to the White Sox warriors.
