

FRESH EGGS ARE SCARCE ARTICLE

Heavy Demand Is Already Being Made on the Storage Article.

- Market Conditions. Fresh eggs very scarce. Chicken market off today. Cabbage and cauliflower plentiful. Apples plentiful, demand stronger. Onions normal, supply good. Butter firm, receipts heavier. Hay and grain market steady.

Fresh eggs are at a premium and a heavy demand is being made upon the storage supply this early date. The chicken market was a trifle off today, the receipts being limited. Cabbage and cauliflower were plentiful, the quality being exceptionally fine on both. Apples are plentiful and are more in demand by retail trade. Onions of high quality are being received, the supply being normal but the quality better than the usual offerings. Quotations show an evenly balanced market, the prevailing prices being as follows:

There still is considerable retardment of output due to scarcity of labor and shorter hours. Mills engaged on knit goods and hosiery are busier and running overtime. Dress goods and men's wear in wool and worsted are in an exceptionally good position from a mercantile and manufacturing standpoint. Silk novelties are selling well. Footwear markets are notably strong. Orders are now large and the majority fall for early delivery. New England factories are fully employed and have urgent demand for early shipment. The markets for hides continue strong and prices are above all previous quotations.

New York, Oct. 19.—Bradstreet's today says: The situation is one of sustained activity. So many lines are far enough ahead as to invest, the situation in general with a high degree of assurance. Buying for immediate delivery is in heavy proportions and calls for shipments are as insistent as heretofore, thus indicating that stocks are scarce and that the goods are wanted in a hurry. Shipping rooms of many of the leading merchandise houses are forced to work double turns.

On the other hand, retail trade has not been so active. Mild weather in various parts of the country has militated against the first distribution of staples, though in sections where the weather has been seasonable, a good turnover has been enjoyed. Industrial operations in the principal lines have not lost any of their well known activity. Business failures in the United States for the week were 187, against 273 last week, 258 in the like week of 1911.

Business failures in Canada for the week number 26, as against 32 last week and 24 in the corresponding week of 1911.

Wheat, including flour, exports from the United States and Canada for the week ending Oct. 17, aggregate 5,785,610 bushels against 6,431,281 last week, and 2,541,604 this week last year.

Let the People Rule. This column is edited by the Democratic State Central Committee.

POLITICS AND THE SUPREME COURT. (Standpoint News). We see no occasion for surprise over the decision of the supreme court in ruling off the Roosevelt electors. It is not the first decision of the court that has been tainted with partisanship, as we have noted in these columns. This happens to be the most conspicuous. The "grand old party" was in desperate straits—very desperate straits. Nothing but heroic treatment would avail. But the supreme court rose to the occasion.

The intention of the primary law seems to be to regulate the machinery of the parties, so that the candidates should really be the choice of the voters. In this case there is no contest within the party. No man or set of men have come forward and claimed there has been maladministration of party affairs; no member of the party claims the party name was used without warrant. But a man from another party sets up a claim, and the court decides on his plea.

If the party had aimed for the solar plexus of the Progressive party they could not have contrived better. Nor could any course be more in keeping with the reactionary spirit.

The decision shows also what a valuable asset the control of the supreme court is to a party, and it also shows the importance of the recall of judges, which issue will doubtless come to the front in Idaho politics.

The most important lesson, however, is the folly of expecting the standpatters to reform the party from within. Their bourbonism is too deep-rooted ever to be corrected except by the most radical party.

CHARGE IT UP TO HAWLEY. School Boy Mixes Up His Lesson with Republican Debs. Mark Bates in his Parma Herald thus enlightens and enlightens the tax discussion:

"The other day a Canyon county school boy was reciting his civics government lesson. His teacher asked him: 'Fred, who levies our national taxes?'"

"Congress." "Of what is congress composed?" "Republicans." "Who levies our state taxes?" "The state legislature."

"Of what is the state legislature composed?" "Republicans." "Who levies our city taxes?" "The city council."

"Of what is the city council composed?" "Republicans." "Who levies our school taxes?" "The board of school trustees."

"Of what is the board of school trustees composed?" "Republicans." "Who causes the high taxes in Idaho?" "Governor Hawley."

"Why does Governor Hawley cause the high tax in Idaho?" "Because he is a Democrat."

"Correct Fred, you may now go out and practice football the rest of the afternoon."

They do say the Republican county committee has quit its polling of the voters of Boise—the figures coming in showing such overwhelming majorities for Wilson and Hawley.

Joe Peterson continues to talk of the organization of the Progressive party in Idaho. Evidently Standpat Joe is greatly worried.

The Meridian Times implies that there are only two Taft Republicans in that village and that the Statesman has interviewed both of them as to the overwhelming sentiment there for the president.

According to Senator Borah the Roosevelt forces attempted to seat 164 fraudulent delegates in the Chicago convention, while the Taft forces succeeded in seating 78 frauds. Quite a respectable game that!
