

Beautiful Mountain Home Erected By Colonel Heigho at New Meadows

(Staff Correspondence)
New Meadows, Oct. 21.—One of the really beautiful residences in Idaho is the new home recently completed in New Meadows and just being occupied by Colonel E. M. Heigho, the president and general manager of the P. & I. N. railroad. This residence is of the pure colonial type of architecture, has two stories with dormer attic and basement, is built of red pressed brick with white trimmings, and contains 12 rooms besides two toilets, lavatory, pantry and spacious halls.

The interior of this home is ideally arranged and is beautifully furnished. The front entrance is to a 14x22 foot hall from the rear of which is abroad, colonial staircase leading upstairs. This hall is used as the music room and is furnished in dark dull mahogany, with massive hall chairs of the Jacobite, upholstered in maroon leather. Commensurate with this hall is a tall, beautiful colonial hall clock finished in mahogany. The ceiling of the hall is beamed in ivory white. The draperies in the hall are of green French velvet with all gold band borders.

All the floors on the ground floor are of quarter-sawn oak, waxed. All the wood work in all the rooms, excepting the library, is finished in ivory white, with mahogany doors throughout the house. The prevailing wall tints are delicate buff, cream and straw.

Reception Parlor and Library.
Opening from the hall on the north side is the magnificent reception parlor furnished in Louis V style. A feature in this parlor is Mrs. Heigho's remarkable collection of 87 beautiful souvenir spoons from the cities of Paris, Berlin, Moscow, Amsterdam, Edinburgh, London and all the principal Canadian cities, and of the West Indies, and most of the principal cities of the United States.

An outside door on the north side of the reception parlor leads to a spacious porch, from which a magnificent view of the east, north and west sides of the beautiful Meadows valley and its high timber covered mountains, is obtained.

Adjoining the reception room on the east is the splendid library, with its heavy beamed ceiling in Early English oak. The library is finished and handsomely furnished in Early English oak, the south wall being entirely occupied by book cases, and most of the north wall by a large fireplace with a five-foot opening. The library

is adorned with handsomely mounted hester of animals, trophies of the Colonel Heigho's skill as a hunter.

Beautiful Dining Room.
Opposite the reception parlor on the south side of the hall is the large, beautiful dining room with high paneling, the furniture being Sheraton dark mahogany. The furniture, the silverware and chinaware, everything in the dining room is of the colonial design, and everything in this room blends in a perfect harmony of color and effect. The dining room is also adorned with handsomely mounted heads of animals, trophies of the Colonel's skill. The ceiling is beamed in ivory white.

Connected with the dining room on the south side by French windows is the small sun room, a delightful retreat for Mrs. Heigho while doing her needle work.

The kitchen, pantry, toilet, bath and lavatories are ideally arranged and equipped, and are finished in white enamel with nicked hardware. The rest of the hardware in the house is of dull cast brass.

Second Floor.
The second floor is very nicely arranged. The owner's room is furnished in light Sheraton mahogany laced with a white holly stripe, and has beautiful draperies, rugs, etc. The room occupied by the twin daughters, eight years old, is finished in cream and pale blue, with blue and white rugs and draperies, has birdseye maple furniture, with bed of dull brass.

The boy's room is furnished in old oak furniture of the early American period.

The guest room is in apple green and cream, with birdseye maple furniture and rug in apple green with garland roses.

The servants' quarters are on the dormer attic floor. The rugs there are mostly Orientals.

The house has its own water system operated by electricity, and is heated by the Bromell vapor system. The heating plant is one of the finest in the state. The basement contains the heating plant, water system, laundry, fruit cellar, coal bin, etc.

The architect of this handsome home is H. W. Bond of Weiser and New Meadows, George F. Brinson of New Meadows was the building contractor. The heating and plumbing contractor was J. H. Cushing of Weiser. Charles L. House of Weiser and New Meadows installed the electric system.

Straight talk to men who smoke jimmy pipes

The last two years has seen a revolution in pipe-smoking. Prince Albert came on deck with a brand new deal. Here was tobacco with wonderful flavor and fragrance, without a touch of rankness. Here was tobacco that burned long but burned free and steady, that held its fire close and never sogged but burned down to dust-fine ashes. Here was tobacco you could smoke all day and it wouldn't bite your tongue.

Prince Albert brought the first notable improvement in pipe tobacco since the days of Walter Raleigh. It has done more in two years to make the pipe popular than all other smoking tobaccos in a generation.

Now, men, we want you to know why Prince Albert is different, why it's in a class of its own. The reason is the Prince Albert process. This is what makes P. A. what it is.

This process was discovered by a well-known German scientist who dearly loved a pipe and experimented with smoking tobaccos as a side line. He knew he had hit upon a big thing in this process. So did we when this company acquired it. Experts were put on the job of perfecting it. The work took three years and cost a bunch of money. But we knew it would make a wonderful smoking tobacco and we had the faith to back it.

The United States Patent on this process was granted July 30, 1907.

Now, men, this is the showdown. If you haven't tried Prince Albert, try it now. Put it to the jimmy pipe test. Let the tobacco smoke for itself. Then you'll understand what this patent Prince Albert process means to you. You'll know why it has revolutionized pipe-smoking and started two men to smoking a pipe where one smoked before.

PRINCE ALBERT

"the national joy smoke"

You'll enjoy it rolled up into a cigarette as well as in a jimmy pipe. We tell you, men, here is the real cigarette—so different in freshness, fragrance and flavor that it runs the dust-brands and the chaff-brands right off the smoke map!

You roll up a cigarette of P. A. tobacco and know what's doing. Why, it sets a pace for your satisfaction that no other tobacco ever can replace. Buy one of the handy packages and take a new lease on cigarette joy.

All on-the-job dealers sell Prince Albert everywhere. Ten cents in the famous tidy red tin, five cents in the tippy red cloth bag; also in handsome half-pound or pound tin humidors and a pound humidors of crystal glass.

TAX SITUATION IS A LIVE ISSUE IN BONNEVILLE

G. H. Martin Gave Some
Figures at Idaho Falls
Which Opened the Eyes of
the People.

"You people of Bonneville county should awaken to the tax situation which confronts you," declared G. H. Martin, Progressive nominee for governor in his speech at Idaho Falls the other night.

"The valuation of all property of the county for 1911 was \$9,586,971 and in 1912 it is \$10,946,848, or an increase of \$1,360,877. The state board of equalization, whose duty it is under the law to value railroads, telegraphs and telephones at full cash value, decreased the valuation of telephones from \$27,723 to \$26,893, or \$830. This board fixed the valuation of telegraph lines the same as in 1911, to wit: \$29,865. They decreased the valuation of the Elva spur of the Oregon Short Line in your county from \$5000 per mile to \$3000 per mile. They increased the total valuation of the railroads of the county in 1912 over the valuation of 1911 by \$150,395. Deducting from this the \$830 decrease in valuation of the telephone lines and we find that the total increase of the properties of the railroads, telegraphs and telephones of the county was \$149,565. It must therefore be quite clear to you

that of the total increase in the valuation of the county of \$1,360,877 in 1912 over 1911, \$1,065,881 fell on the lands, town lots, live stock, merchandise and homes and other like property owned by the farmer, merchant, laborer and other comparatively small property owners, while only \$149,565 of the increase fell on the properties of these corporations.

"Now, your assessor is in duty bound under the law to value your property at its full cash value and it is just as much the duty of the state board of equalization to value the properties of the railroads, telegraphs and telephones at full cash value. This board of equalization increased or equalized the value of the properties of this county above the values returned by your assessor, 1912, excluding the increase of value on the railroads, telephones and telegraphs, to the extent of \$1,065,881. It increased irrigated and agricultural land over valuation of your assessor by \$629,605, or more than four times the increase in the valuation of the properties of these corporations; it increased the value of dry farm lands \$241,575, or just 100 per cent; it increased natural meadow and pasture lands 50 per cent; it increased business and residential lots 10 per cent.

"It increased the value of livestock property that returned by the assessor as follows:

"Common cattle, 25 per cent; milk cows, 30 per cent; graded horses, 20 per cent; stock horses, 45 per cent; mules, 12 per cent; sheep, 17 per cent; swine, 50 per cent.

"The total increase made by the board in the valuation of livestock over the valuation fixed by your assessor was \$115,887 as compared with \$149,565 increase in the valuation of the railroads, telegraphs and telephones. The increase made by the board in the valuation fixed by your assessor was \$167,111, or more than the increase in the valuations of the properties of the three classes of corporations named.

"These facts can be easily verified from the records in the office of your county auditor and from the records of the state board of equalization certified to your county auditor. They disclose favoritism in behalf of the corporations and discriminations against every other form of property in your county.

"Has Mr. Hawley, Democratic candidate for governor, justified his acts in these matters to you? Can he do so? Can any other member of the board justify the treatment accorded you people in making and equalizing the values of property in this county? Does Mr. Haines submit any plan by which he proposes to correct such conditions?

"You have my pledge and that of the other candidates on the Progressive ticket, that if we are elected and control the next board of equalization, the railroads, telegraphs and telephones of this state and other properties of that kind which it is the duty of the board to value, will be valued at full cash value, just as your property is, and believe me, it will be more than the present valuations fixed on the properties of such companies by the present board."

The National Dairy show will have its opening in Chicago Thursday. More than a dozen national associations connected with the dairy industry will hold their conventions in Chicago during the week of the show.

pair department and does not give satisfaction will give a new movement in exchange.

NEWS FORECAST OF THE PRESENT WEEK

Washington, Oct. 21.—Although election day itself is only three weeks off, the national campaign occasions no more excitement than it did two months ago. As yet there are no indications of the proverbial "whirlwind finish." The candidates, Johnson, Wilson and Marshall, with a host of lesser lights who have been intrusted by the several parties with the work of spell-binding, will continue on the stump, but as the entire country has now been pretty well covered it is hardly to be expected that the campaign tours will attract more attention than heretofore.

So far as his plans have been announced, President Taft has no important engagements for the week. It is expected he will journey on Saturday to Cambridge Springs, Va., to deliver the principal address at the dedication of the Polish National Alliance college there. The institution is the first college of the Polish National Alliance in this country and the total membership of 100,000 of that organization scattered throughout the United States will unite to make the dedication a memorable event.

Another event of the week of interest in educational circles will be the inauguration of Dr. Stratton D.

Brooks as president of the University of Oklahoma. The inauguration will take place today and will be the occasion for a gathering of noted educators from all parts of the country.

The commerce court has fixed Thursday as the time for hearing arguments on the constitutionality of the order of the Interstate commerce commission requiring the oil pipe line companies to file schedules of their rates for transporting oil.

The case of Clarence S. Darrow, the noted attorney charged with jury brib-

ing as a result of developments in the trials of the McNamaras for the dynamiting of the Los Angeles Times building, is scheduled to come up in Los Angeles Monday for its second trial.

The entrants in the international balloon race for the James Gordon Bennett trophy will gather at Stuttgart, Germany, at the end of the week in readiness for the start of the contest. The United States, Germany, Belgium, France, Austria and Switzerland will be represented by three balloons each; Italy by two and Denmark, England and Russia by one each.

BREAKS A COLD, OPENS NOSTRILS

Pape's Cold Compound
Cures Colds and Grippe in
a Few Hours—Contains
No Quinine.

The most severe cold will be broken, and all grippe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distress vanishes.

Take this wonderful Compound as directed, with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery so promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply—contains no quinine—belongs in every home—accept no substitute. Tastes nice—acts gently.—Adv.

STOMACH UPSET? SOUR "CASCARETS"

Gently Cleanse and Regulate Your
Stomach, Liver and Bowels While
You Sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets: they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the congealed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascarets tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv.

MARTIN RALLY!

Pinney Theatre, Boise
MONDAY NIGHT,
Oct. 21st, at 8 O'clock

Mr. Martin and the Tax Payers' League will answer Gov. Hawley on Taxation Questions.

Capital News' Booklovers' Contest

If you cut out this order form, fill it out, send or bring it in, with the sum designated, you will receive back pictures and coupons. It is for those new contestants desiring to enter, or for those already in the contest who wish additional pictures on which to file answers.

The Booklovers' Contest Editor, The Capital News, Boise, Idaho.
Please send me Booklovers' Contest pictures and coupons as follows:

No. 1/No. 2/No. 3/No. 4/No. 5/No. 6/No. 7/No. 8/No. 9/No. 10/No. 11/No. 12	At 5c/At 5c
Total number.....	for which find.....cents.

CHAS. B. CALLARD, M.D.

SPECIALIST—DISEASES OF MEN

Varicocele, Weakness, Contracted Diseases, Prostatic Trouble, Blood Poison, Stricture, Functional Disturbances, Hydrocele, Kidney or Bladder Trouble, etc.

SALVARSAN, OR "606," FOR BLOOD DISORDERS.
I use Prof. Ehrlich's wonderful new discovery, "606," in case of blood disorders. It is the greatest marvel of medical science. This new remedy has been used in thousands of cases. Let me explain it to you.

VARICOCELE
Impairs vitality. I daily demonstrate that Varicocele can be cured in nearly all cases by one treatment, in such a satisfactory way that the vital parts are preserved and strengthened, pain ceases, swelling subsides, a healthy circulation is rapidly re-established, instead of the depressing condition. I guarantee you a cure to stay cured.

a Cure From The Forest

Nature in her wisdom and beneficence has provided, in her great vegetable laboratory, the forest, a cure for most of the ills and ailments of humanity. Work and study have perfected the compounding of these botanical medicines and placed them at our disposal. We rely upon them first because of their ability in curing disease, and next because we can use them with the confidence that such remedies do not injure the system. Among the best of these remedies from the forest is S. S. S., a medicine made entirely of roots, herbs and bark. It does not contain a particle of harmful mineral. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Malaria, Skin Diseases, Contagious Blood Poison and all other diseases dependent on impure blood. As a tonic S. S. S. builds up the system by supplying a sufficient amount of vigor and nourishment to the body. S. S. S. always cures without leaving any unpleasant or injurious effects. Book on the blood and any medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.
