

TURKISH ARMY FACING EITHER SURRENDER OR SLAUGHTER

Twenty-Two Thousand Men Hemmed in on All Sides and Closely Pressed By Victorious Greeks

London, Oct. 25.—A Turkish army of 22,000 men under Riza Bey is facing alternative unconditional surrender or useless slaughter near the town of Servia, according to a special dispatch from Athens. The Turks are hedged in on one side by high cliffs and on the west by the river Alykmon, and south and southwest by the Greek army flushed with victory. After their defeat Wednesday the Turks threw away their heavy rifles and heavy gear.

London, Oct. 25.—The Bulgarian and Greek armies have carried out successfully their part of the first stage of the war against Turkey by the capture of Kirk Killiseh and the town of Servia. Montenegro and Serbia are trying desperately to succeed also by overcoming the Turkish posts at Scutari and Kumanova.

The Bulgarians captured many guns, much ammunition and food at Kirk Killiseh. Even after the fire of the Bulgarians had emptied the fortress, fierce fighting took place in the streets. The Turks declare that the evacuation of Kirk Killiseh was a strategic retirement.

Constantinople, Oct. 25.—Stories of desperate hand to hand fighting between Bulgarians and Turks are told in dispatches from Adrianople. There were great losses in both armies in the battles around the city Tuesday and Wednesday. Bayonets were used freely in the fight for the banks of the Tundja river and hundreds were killed or wounded. Eight battalions of Bulgarians attacking the village of Maras yesterday were repulsed with heavy losses.

On the other side of the peninsula, Zeckli Pasha, with an army of 30,000, is reported to have attacked the Serbian army north of Kumanova, scattering the four divisions. Zeckli then turned his attention to the Bulgarians, whom he attacked and routed, driving them across the frontier.

Prepares to Renew Attack.
Ridica, Montenegro, Oct. 25.—The Montenegrin army has surrounded Scutari. Yesterday afternoon the artillery opened fire on the town. The infantry made a desperate attack, but fire from the Turkish artillery compelled them to retire. The Montenegrins immediately prepared for a renewal of the attack to be made from three sides of the city.

London, Oct. 25.—A three-days' battle and a Bulgarian turning movement has resulted, according to Sofia accounts, in the fall of Kirk Killiseh and the capture of the Turkish garrison, numbering 50,000 men. That so many Turks have been taken is regarded as improbable, and the more likely report is that the Turks retreated in the direction of Bunarhisar, to the south-east.

The capture of this stronghold to which the Turks attached almost the same importance as to Adrianople, was confirmed last night from Constantinople, in an official communication explaining that the Turkish army at Kirk Killiseh, in attempting to split the enemy's forces discovered that they were greater in numbers.

The news of the Bulgarian victory has caused great rejoicing in Sofia, where it is expected the fall of Adrianople soon will follow. It is generally assumed Abdullah Pasha still is engaged in bringing up his main army to Adrianople, the position of that town is critical.

An interesting situation will develop should the Turks be compelled to evacuate Adrianople. It is supposed that the next stand of the Turks will be at Domotica, 25 miles south of Adrianople, an important strategic position on the road to Constantinople.

In other directions both the Serbians and the Turks claim great victories at Kumanova, the Serbians declaring they have captured the town and the Turks claiming they have repulsed the enemy. Late reports indicate that heavy fighting is still proceeding in this district.

The Greeks are operating from Arta toward Janina, Methevo and the neighborhood of Grimbova.

Turks Fled in Disorder.
Sofia, Oct. 25.—The Bulgarians were attacked by 8000 Turks in an engagement Tuesday at Marash, near Adrianople. After an hour of heavy artillery and rifle fire, the Turks were defeated and fled in disorder, leaving the field strewn with dead and wounded. The Bulgarians captured 300 prisoners, a dozen quick-firers and a quantity of ammunition.

BIGGEST FIGHTER OF THE NAVY IS TO BE LAUNCHED

Battleship New York, Sister Ship to the Texas, to Go Down the Ways Next Week.

Washington, Oct. 25.—The United States battleship New York is to be launched at the Brooklyn navy yard next week, and President Taft, Secretary of the Navy Meyer, Governor Dix, Mayor Gaynor and many other notables are expected to be on hand to watch the most powerful vessel in the United States navy take her first plunge into the water.

The New York and her sister ship, the Texas, are each 2000 tons heavier than any other warship that has ever been launched in this country. The New York is 6175 tons heavier than the battleship Florida, the last warship constructed at the Brooklyn navy yard and which was the biggest ship of its class afloat at the time of her completion only two years ago.

The battleship New York was authorized by congress in 1910. At first bids were asked for, but later these were rejected and it was decided to build the vessel in the government yard at Brooklyn.

Keel Laid Year Ago.
The keel was laid on September 11, 1911, and a board hoisted near the site where the ship grew says: "U. S. S. New York, Battleship No. 34; length, 573 feet; breadth, 95 feet 2 1/2 inches; displacement, 27,000 tons; mean draught, 28 feet 6 inches." Since then

BRISK BATTLE IN STREETS OF HAVANA ENLIVENS THE NATIONAL CAMPAIGN

Havana, Oct. 25.—A brisk battle between the conservatives and liberals, during which several shots were fired and several persons killed or wounded, broke out in Central park in the heart of this city at the close of a meeting of the supporters of Vice President Alfredo Zayas, who is a candidate for the presidency.

As the last speaker ascended the platform a number of shots were fired, apparently from a group of conservatives in front of the hotel. Then the crowd began to disperse and the fusillade be-

came general. For 10 minutes the firing was brisk. Mounted police and cavalry charged repeatedly with drawn machetes and firing revolvers. The mob returned the fire from windows and porches. Several policemen and soldiers were shot. Reinforcements arrived and the mob was gradually dispersed. The total wounded, including two women, was about 40. Several were fatally hurt. It is openly charged that the police and guards were under orders from the authorities and were actively assisted by followers of Zayas.

RECORDS TAKEN OF CONFERENCE BY SPY SYSTEM

Sensational Evidence Promised at Dynamite Conspiracy Trial at Indianapolis by the Prosecution.

Indianapolis, Oct. 25.—Records taken by government stenographers at conferences held in offices of the iron workers' union after officials of the union were indicted were produced for identification at the dynamite conspiracy trial today. Ralph W. Douglass, a newspaper man, testified to the presence of a telephone spy system in the union headquarters.

Douglass said the sound receiver was under President Frank Ryan's desk. Secretary Herbert S. Hockin was in the same room at a desk formerly occupied by J. J. McNamara.

After eight weeks the government officials asserted they heard Hockin and Ryan make remarks which indicated that the presence of the telephone system was known.

On Feb. 12 Douglass said he and Assistant District Attorney C. W. Nichols recovered the telephone instrument.

The government announced that the stenographers reports are to be read to the jury late today. In his opening statement District Attorney Miller said it was Hockin who in "double crossing" the union, had turned over the office keys so the detectives might put the instrument under Ryan's desk at night.

New York, Oct. 25.—The 12 men who found Charles Becker guilty of first degree murder last night refused to discuss their deliberations this morning. Oct. 30 Justice Goff will fix the time of the prisoner's death in the electric chair. John F. McIntyre, chief counsel for the defense, today began the preliminary steps toward an appeal and stay of execution. Becker, pacing in his cell in the Tombs, denounces what he calls the rigorous partiality of Justice Goff in the conduct of the trial.

Mrs. Becker fainted in the corridor of the criminal court building, when a messenger running for the elevator, shouted "guilty." Rose, Schepps, Webber and Vallon, the informers, apparently expected a disagreement for they were all asleep in their prison except Schepps when the verdict was pronounced. Schepps was at first suspicious when told of the verdict. Then he remarked ironically "Mr. Whitman is a smart man."

It was declared this morning that

Major Zerate and Major Vilks are pleading in behalf of Diaz, who, under military law, is liable to imprisonment of from three to five years. Public opinion against Diaz, however, is so strong, that it is thought the sentence of death may be pronounced on him, as well as all officers and government officials captured in his cause.

The troops who rebelled are not likely to be punished. Some of the volunteers who joined Diaz belonged to leading families of the city. Those captured may be sentenced to short terms of imprisonment, but many have escaped to the country.
