

BURLINGTON IS AGAIN REPORTED HEADED THIS WAY

It Is Claimed That It Will Enter Idaho Field and Build a Line to Boise in the Near Future.

The Burlington railway system again has its attention directed to Idaho and may become an important factor in railroad construction work through the south central part of the state, including the Camas Prairie and Boise. Railroad men of this city have been given this information and they are inclined to accept it with more seriousness than other railroad reports that are given out from time to time. The latest railroad building report places Boise directly on the line of the proposed extension of the Burlington system from Lander, Wyo., to the coast, tapping a large and as yet undeveloped territory.

The report comes from the Oil & Gas Journal, published at Tulsa, Okla., in its issue of Oct. 3, which is as follows:

"Officials of the Chicago Northwestern, which is the gateway from the east to the Wyoming oil fields, are now building a branch line from Powder River station, between Lander and Casper, through to Thermopolis, and this line will be connected by the Burlington on through to Boise, Idaho. These improvements will give easy access through all the territory designed for oil in the future. To reach the development at Cody, about 300 miles from Lander and east of Yellowstone Park, in the northwestern section of the state, one must go to the Shoshoni station on the Northwestern railroad, about 45 miles northeast of Lander, where a stage coach runs to Thermopolis, the present terminus of the Burlington road. Thermopolis is located along the Big Horn river in the northeast corner of the bad lands."

SMOCK SAYS MARTIN WILL CARRY FREMONT

(Capital News Special Service) Idaho Falls, Oct. 25.—P. M. Smock, Progressive candidate for congress-

GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea" and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow.

Get a 50-cent bottle from your druggist today. He will give you money back if you are not satisfied after a fair trial.

Agent, Chas. L. Joy & Co. Adv.

man, spoke to a good sized audience here last night. L. M. Earl presided. The meeting was held at Broadway hall where Colonel Thomas R. Hamer spoke on Monday night. Mr. Smock paid particular attention to replying to Colonel Hamer and he completely riddled his speech while the people cheered and applauded.

Mr. Smock has just returned from Fremont county where he delivered addresses to good audiences at Marysville and Rigby. "Mr. Martin is growing stronger every day," said Mr. Smock here last night, "and I am convinced he will carry Fremont county by a good plurality and that the Progressive legislative ticket in that county, pledged to Senator Borah, will be elected. Roosevelt sentiment is growing all over this valley and those who believe he will not get a large vote in this section of the state, will find themselves badly mistaken." Governor Hawley spoke at Idaho Falls Wednesday night but did not have so large an audience as Smock had last night.

Buhl Man Points Out the Need of Public Utilities Commission

Renewed hope has been brought to at least one resident about to despair and a renewed determination has been brought to him to fight because of the hope promised in the Progressive platform and by the Progressive candidates in this state. This information comes in a splendid letter from H. H. Parker, of Buhl, who gives some good reasons why a railroad commission or a public utilities commission is necessary to protect the farmers of the state and to a continuation of real prosperity in Idaho. Mr. Parker's letter is given in full as follows:

Evening Capital News: Before I subscribed for your paper I had about made up my mind that the people of this state could not look to the press for assistance in correcting the evils and oppression of a corrupt government which we see all about us. But my presumption was not wholly correct as there seems to be one paper that can not be "bought up" and is not afraid to stand out for the people's rights and clean government in this state. That paper is The Capital News, and gentlemen, permit me to express my sincerest praise for the assistance you have rendered the cause of reform, for honest government, something many of us despair of ever seeing in this state.

This part of Idaho in which I am located is abundantly favored in nature's gifts—as fertile and rich as the garden of Eden, but most unfortunately it is wholly dependent upon the Oregon Short Line to transport its produce to market, and the terrible toll exacted from the people to perform this work barely permits many

of them to continue and till the soil. Some crops they cannot ship at all, others at only very slight profit to themselves and the only reason the people can continue to exist here is simply because the outside market has been so unusually light that there has been a little left to the farmer.

This valley has only made a beginning and is capable of a hundred times as much development, but its real prosperity will date from the advent of another railroad—unless possibly the people should succeed in gaining enough influence to force the passage of the state railroad commission bill, which might give us a long prayed for relief from the strange hold on the prosperity of our valley.

This language may sound quite strong, but I speak for thousands of others who are endeavoring to surmount this railroad oppression and save and develop their property and interests.

It is gratifying to know that there seems to be a change for the better in as much as we have one champion of the people's rights against the interests, and I surely trust that the earnest efforts of our Progressive party for honest government, which you are supporting, will be crowned with success. It would be useless for me to submit a letter like this one to any of our local papers here with the expectation of having it printed, for they are evidently all owned by the Oregon Short Line and are afraid to speak the truth.

Sincerely yours,
H. H. PARKER.
Buhl, Oct. 22, 1912.

SUCCESS OF THE CARNIVAL WEEK

George Ball Expresses Appreciation for Aid Given During the Festival.

Extending his thanks and appreciation to those who through their hearty co-operation helped make his departments during the recent festival a success, George Ball, director of the bureau of information and chairman of the lighting and decoration committees of the Rainmakers, today told of the work accomplished by the bureau during the carnival week.

Mr. Ball feels that it is his duty to say that, without the hearty support given by the business men of Boise who made one of the finest electrical displays possible that has ever been seen in this section of the country, which could not have been possible but for the loyal support given him by General Manager Markhus of the Idaho-Oregon Light & Power company by his sweeping reduction for lighting. The low rate was far below that of last year. He also donated the electric sign of welcome hung at Main and Tenth streets.

"To Messrs. Brigger and Hetherington recognition is due as to them fell the stringing of the lights and there was no call made upon them to which they did not promptly respond," said Mr. Ball. "The Krull-Rogers agency furnished the quarters for the bureau of information with heat, light and telephone, the bureau being open day and night during the week for which they would accept no pay."

"In lighting the streets for the night parades and clearing the same during the parades, I can only say that I have been at this work now for about six years and not one time have I ever received more courtesy and prompt attention than I did from Chief Reeves and the police department. And in extending my thanks I can only say that it is by the support so freely given is success attained.

"I can only add that at all times the columns of the Capital News were kindly placed at my service and only through these columns was I able to reach the public in the furtherance of my work which meant everything for my success."

All our watch work absolutely guaranteed.

CANDIDATES IN LINE FOR BORAH

Lincoln County Men Declare They Will Vote for His Re-election.

The Blaine county Republican legislative ticket is solid for Senator William E. Borah. This was the reliable report received in the local political circles today. It sets at rest reports that the Republican nominees successful at the primaries, were not in line for the re-election of Idaho's senior senator. John S. Parks, Stewart Campbell and Joseph G. Hedrick, the three candidates for the legislature, have assured their constituents as have the Republican legislative candidates for Ada county, that they are for Senator Borah, first, last and all the time. The death of Senator Weldon B. Heyburn has greatly cleared up the legislative situation in every county in the state, it is freely admitted, although prior to Senator Heyburn's passing away, Senator Borah was assured of his re-election due to the pledges made by legislative candidates. Now that the legislature will elect two United States senators, Republicans are backing their legislative tickets and urging solid support behind them. It is a well known fact, however, that there are still disgruntled anti-Borah men, who refuse to support Senator Borah for re-election, but they are rapidly dwindling away and none of them have come into the open in their attacks.

Coffee Raising in Costa Rica. That country produces the best coffee of the world. Frank G. Carpenter tells the story in next Sunday's Capital News.

Two Dogs. Peck—You will never get the dog to mind you, my dear. Mrs. Peck—I will with patience. You were just as troublesome yourself at first.—Boston Transcript.
