

BATTLE AGAINST QUARANTINE ON IDAHO ALFALFA

Legal Department of State Demands That California Authorities Rescind the Action Recently Taken.

The state of Idaho proposes to wage war on those states that have placed Idaho on the alfalfa quarantine list, spreading the report that alfalfa grown in Idaho was infected with weevil, a pest considered dangerous not only to stock, but to alfalfa crops. The fight in behalf of this state has been taken up by the legal department. Washington lifted its quarantine edict against this state after complaint had been made and when it was discovered the state horticultural inspector had no right to enforce it. The quarantine declared by California against Idaho alfalfa is still in effect, but Assistant Attorney General O. M. Van Dusen and State Horticultural Inspector John U. McPherson have turned their batteries on that state and demanding that the edict be lifted for Idaho.

The following telegram has been sent to A. J. Cook, state horticultural inspector of California, responsible for the quarantine declared against Idaho, by the assistant attorney general and state horticultural inspector of this state:

Have been informed that you have quarantine against Idaho alfalfa. Why is this done? We hold that Idaho alfalfa is not infected with alfalfa weevil and ask that thorough investigation be made by section 3519, 1911 session laws of California. Authorities here court such investigation and will lend assistance. Present quarantine is without merit and greatly injures this state.

Explanation Is Demanded.

State officials here are demanding that the California authorities make an explanation, for by closing that state to Idaho alfalfa, it is impossible to ship the hay either into California or to the west from California ports. The crop is now ready to move. Shippers are seriously handicapped by the quarantine, which also applies to the states of Utah, Montana and Wyoming.

The Idaho state officials hold that alfalfa cannot be classed as horticulture, a vegetable or fruit, and therefore a horticultural inspector in any state is powerless to place a ban upon it and if he does it going beyond his power. In addition the charge that weevil is found in it, which the authorities assert is untrue, does great damage to Idaho alfalfa.

When the horticultural inspector of the state of Washington placed the ban or quarantine on Idaho alfalfa, every port in that state was closed to the product, and a great injury was done this state because the orders from the Philippine islands could not be filled. However, this quarantine was lifted several days ago and Idaho can now ship into Washington and from its ports.

POll Shows Roosevelt-Martin Strength.

State Chairman of Progressive Party Last Night Was Notified Through a Poll Taken in West Payette Precinct.

Payette, that Roosevelt and Martin will be given a remarkable vote in Canyon county. The poll in that precinct stood on president as follows: Roosevelt . . . 186 Wilson . . . 126 Taft . . . 60 Debs . . . 30

Another poll showed G. H. Martin, Progressive candidate, for governor will run stronger even than Roosevelt. The poll, taken since the supreme court decision, means the voters are determined to uniformly write in the names of Roosevelt electors.

Howard Minieley, son of W. H. Minieley, city ticket agent, was quite badly bitten by a vicious dog yesterday morning near Sixth and Ressegue streets. The boy states that he was walking by a house and did not see the animal until it ran out at him and that he jumped away from it when it snapped at his leg and it then jumped and bit him on the arm. Dr. Stewart dressed the injury. It is not believed any serious results will come of the bite.

Articles of incorporation were filed yesterday with the secretary of state by the Mesa Orchards, of Mesa, Adams county, capitalized for \$400,000, with shareholders named as follows: J. P. Gray, C. G. Mason, William Davenport, E. E. Hart and I. S. Carter. The Jonathan Valley Orchard company, of Jerome, capitalized for \$50,000, George H. Moseley, James H. Hall and E. P. Denes, directors. The St. Maries Library association, of St. Maries, Idaho.

A bold thief, and one evidently acquainted with the premises, Friday night stole the twin cylinder Harley-Davidson motorcycle owned by Roy E. Herriek, fiscal agent for the reclamation service, from the coal shed in the rear of his home at Nineteenth and Bamcock streets. The machine was one of the finest in the city, costing nearly \$400. The disappearance of the machine was not discovered until Saturday morning when the police were notified. It is believed that the motorcycle was stolen by someone wishing to leave the country and all nearby towns have been warned to look out for the machine.

Automobile No. 187, containing four passengers, collided with a west bound street car at Thirteenth and State streets at noon yesterday. While none of the occupants of the car were hurt nor was the car injured, they had a close call. The car was being driven north on Thirteenth street and it was evident that the driver was not aware that the street car was obliged to stop before crossing the Thirteenth street track as he did not slow up his machine nor attempt to stop until within a few feet of the car when he reached for the emergency brake and set it, but the machine struck the rear end of the car and knocked off some paint. The automobile only stopped for a second and then continued on its way. The machine is owned by the Central Auto company.

SUIT BROUGHT AGAINST STATE BY RAILWAY CO.

Condemnation Proceedings in Twin Falls and Lincoln Counties—The Papers Are Served in Boise.

The state of Idaho has been made defendant in two condemnation suits filed in Twin Falls and Lincoln counties by the Twin Falls Railway company, papers in both cases being served yesterday on Attorney General D. C. McDougall through Assistant Attorney General O. M. Van Dusen, in charge of the state's legal business at the present time. The railway company names as defendants in the two suits, which are exactly similar with the exception of the land descriptions, the state of Idaho, the state board of land commissioners and the commissioners named as Governor Hawley, Attorney General McDougall, State Auditor Taylor, Secretary of State Gifford and State Superintendent of Public Instruction Miss Grace Shepherd.

The purpose of the Twin Falls Railway company has for instituting suit against the state to condemn the land, as set forth in the two complaints, is that this road seeks a right-of-way across school section 36, part of which is located in Twin Falls county and part in Lincoln county, directly below the famous Shoshone falls, the right-of-way to be used for a scenic railroad that will be built from Twin Falls across the Snake river just below the Shoshone falls, where a high span bridge will be erected, affording a magnificent view of the falls and river canyon, to Jerome in Lincoln county. The purpose of the road in constructing the scenic railroad is to afford a scenic view in that part of the country.

This is the railroad that I. B. Perrine of Twin Falls recently financed in New York and construction work on which has already started.

It is also set forth in the complaint that a state park site has been set aside through legislative enactment at Shoshone falls and the new railroad will open up direct communications with this park. The site was set aside through a bill passed by the Tenth legislature, introduced by and the credit for whose passage is given to Senator Sweeney of Twin Falls county.

TROOP TRAIN IS WRECKED; MANY LIVES ARE LOST

Mexico City, Oct. 27.—(Sunday)—One thousand soldiers were reported to have been killed when the troop train in which they were riding was derailed and plunged into a deep gorge near Matreata. It is thought here that the number of reported killed is greatly exaggerated.

Guerrillas under the command of General Aguilar, the report adds, were responsible for the disaster.

Excitement is fever high in this city over the fate of the rebel leader, Diaz. A motion was made last night before the chamber of deputies to demand an explanation from the government caused the federal deputies to leave the chamber, thus preventing a quorum. The minority at first decided to sit on, threatening, if no quorum was secured by 11 o'clock, to go out on the streets and appeal to the people. The deputies weakened, however, and adjourned before 9 o'clock, after signing papers, the nature of which was not revealed.

That Diaz has been court martialed is believed here. It is thought that the rebel chieftain will be executed at sunrise this (Sunday) morning.

WANTS THE MAYOR OF LAWRENCE ARRESTED FOR INCITING RIOT

Lawrence, Mass., Oct. 26.—The executive committee of the Industrial Workers of the World tonight considered the advisability of demanding warrants for Mayor Scanlon of this city; Father O'Reilly, of St. Mary's church; Associate Justice Chandler, of the police court, and others who spoke at a meeting a week ago, following which John Smalsky, aged 27, an I. W. W. member, was beaten so he died Wednesday, according to William Haywood, I. W. W. organizer, now here.

According to Haywood, who, with many noted I. W. W. leaders, attended the funeral of Smalsky today, the man was assaulted because he was wearing an I. W. W. button, and the beating he received was incited by speeches of Mayor Scanlon and the others, against the I. W. W.

"If Eitor and Giovannitti are guilty as accessories of inciting the murder of Annie Loppiz, during the mill strike here," Haywood declared, "then why shouldn't the shoe fit the other foot as well? These men who spoke condemned the I. W. W. as being out-laws and everything opposed to good government, law and order. The man who was buried today, it seems to me, was as much a victim of these men as Annie Loppiz could possibly have been of Eitor and Giovannitti."

Steve Kennedy and John T. Manning, arrested on charges of accessory to manslaughter in connection with the Smalsky death, are out on a \$5000 bond.

"Uncle Josh Perkins."

Rural life with all of the funny things that happen on the farm and in the hayfields kept two audiences in 3 good humor yesterday afternoon and last night during the two performances of "Uncle Josh Perkins." The play is produced by a good company, one that can make 150 hearty laughs during the 150 minutes that the curtain is up.

Dave Kennedy played "Uncle Josh" as though he had spent all of his life on a farm of the middle west. A story of love with interesting surprises and climaxes is woven into the play from the time that Uncle Josh rescues a girl from poverty and discovers that she is his long lost daughter until "Rags," her serving maid, marries Hiram, the hired man.

After it is all over, the performance winds up with a quadrille, while the band, with Uncle Josh at its head, furnishes the music and some more laughs. Another production will be given at the Pinney Monday night.

HARMON DECLARES THAT WILSON WILL LOSE BUT ONE STATE

Baltimore, Md., Oct. 26.—After an extended campaign tour through the western states, Governor Judson Harmon, of Ohio, arrived in Baltimore today to convey to Maryland Democrats a prediction of certain victory in November.

From ocean to ocean, he has traveled and in every state with the possible exception of Utah, the governor told a big mass meeting here tonight he found a preponderance of Wilson sentiment. That Wilson will finish far ahead of Taft on Nov. 5 and that Taft will finish ahead of Roosevelt, is the prediction of the Ohio executive.

Even in California Governor Wilson will capture the electoral vote, he says, and, speaking from his personal knowledge, Governor Harmon declared emphatically that Ohio will be swept by the Democrats.

"This is due," said the governor, "to the fact that the people are not satisfied with the present administration and also to the fact that both the Republican and Progressive parties have full tickets in the field.

"The Republican party is split wide open. While the Taft and Roosevelt people profess to be confident of the outcome, they are sending out frantic appeals to the workers to get busy. This situation exists in Indiana, also. Former Senator Beveridge will undoubtedly gain many votes from the Republican ranks. The Democracy in these two pivotal states is holding its own and its gains are coming from the rolls of the Taft forces.

"Even in California, where the spirit of general apathy stalks, the Taft men are deserting their candidate and are openly aligning themselves under the Wilson banner.

"With the solid south behind him, Governor Wilson will come to the front on election day with an advantage that cannot be overcome. The gains he will make in northern states will be so preponderant that his election appears to be inevitable."

SLAYER OF GUAY RELEASED FROM THE COUNTY JAIL

Although charged with murder in the first degree, N. E. McLeod, who shot and killed George Guay, a stage driver at Rocky Bar last week, has been released upon a \$5000 bond, a proceeding which is very unusual and one which is likely to be investigated by friends of Guay and also members of a lodge to which he belonged, and in which he carried \$2000 insurance.

At Atlanta an entirely different story of the shooting is told to that given by relatives of Guay, the substance of which is that Guay attended a dance when somewhat under the influence of liquor and forced his attentions upon a girl, telling her that he would take her home. She refused his company and requested McLeod to accompany her, which he did, and while at the house they heard a noise on the roof and upon going out, McLeod found Guay there and ordered him to come down, which he did, landing on McLeod's shoulders and both fell to the ground.

According to the story, McLeod ordered Guay to go home to his family and he threatened to strike him, whereupon McLeod pulled his gun and ordered him back and as he kept after him he pulled the trigger, shooting once over Guay's head, again in front of him just as he was grabbed by Guay, fired the third shot which killed the stage driver.

The above story is the one told by McLeod and it is said was corroborated by the girl. Further proof of its veracity, the parties claim, is the fact that three empty shells were found in McLeod's revolver when he gave himself up.

Mrs. Guay, wife of the murdered man, who lived at Rocky Bar, is now in South Boise with her seven children but expects to leave for her former home in the east within a short time.
