

BORAH RALLIES FOR EVERY NIGHT OF PRESENT WEEK

Meetings to Be Held All Over Ada County in the Interests of Legislative Ticket.

The Borah club of Ada county, which has a membership of several thousand qualified electors, will make a strong finish this week so far as the campaign for the senator in this county is concerned.

Itineraries have been prepared for speakers who will go into practically every precinct in the county this week. These speakers will make it clear to voters that Senator Borah has one of the most remarkable records of any man in the United States senate for his first term as a member of that body from Idaho.

The itineraries prepared for this week are as follows:

- Monday night—B. S. Crow and J. F. MacLane will speak at Kuna.
- Tuesday night—B. S. Crow and J. F. MacLane will speak at the Franklin school house.
- Wednesday night—B. S. Crow and J. F. MacLane will speak in the Odd Fellows hall, Thirteenth and Eastman streets.
- Thursday night—O. M. Van Durn and B. S. Crow will speak in the Odd Fellows hall, South Boise.
- Thursday night—Speakers, not as yet selected, will deliver addresses at Arrow Rock.
- Friday night—C. C. Cavanaugh, C. S. Polk and Frank Wyman will speak at Star.
- Saturday night—C. C. Cavanaugh, C. S. Polk and Frank Wyman will speak at Eagle.
- Monday night, Nov. 4—Speakers to be selected will deliver addresses at Meridian.

LOWER RATE SECURED ON APPLE SHIPMENTS

Beginning the first of next month, a cut of 10 cents per hundred in the freight rate on apples from Boise to Los Angeles will go into effect, the rate being the same as that from Utah common points. The former rate between Boise and the southern city was 75 cents per hundred while the rates from Utah points was 65 cents per hundred, which made it impossible for fruit dealers to ship from this point into that territory and compete with Utah shippers.

The Pacific Packing company, whose head western office is at Los Angeles, had contracted for some heavy shipments from Idaho into that territory and took the matter up with the railroad for a lower rate and secured it, thus opening another market for the choice apples raised in this section.

Why Rheumatism, Sciatica or Neuritis Drives People to the Limit of Endurance

There is the present pain, the continuous twinges in your feet—had enough, it is true—but the horrible certainty of the next paroxysm of pain is what drives you beside yourself.

You may have been told that doctors do not understand rheumatism—that nothing will cure you.

We want to announce to the people of this city that Nurto, a new and most successful remedy for rheumatism, sciatica and neuritis, marks a revolution in the treatment of the disease.

It is an ethically prepared powder, already firmly established as an antidote for uric acid poison, and is entirely free from narcotic and opiate. It positively stops rheumatic pains and permanently relieves ninety-nine cases in a hundred.

Call at your druggist—discuss the matter with him and he will show you how the testimonials from people who suffered for years. We know we can help you with the first \$1 or \$2 box. Magistral Chem. Co., Flatiron Building, New York.

For sale by Chas. L. Joy & Co's 4 stores and all other leading druggists.—Adv.

MRS. CLAGSTONE SAYS WOMEN OF IDAHO ARE GREATLY INTERESTED

"It is simply wonderful the enthusiasm the women of Idaho are showing in this campaign," said Mrs. Paul Clagstone, who arrived in the city last night, says the Spokesman-Review.

Mrs. Clagstone came from Sandpoint, where, yesterday afternoon, she met with the progressive women of Bonner county.

"There is a great deal more enthusiasm than you would imagine. I am getting letters from women everywhere asking me what they can do to help us carry the state. The progressive sentiment is growing wonderfully."

T. R. Will Carry Idaho.

"I believe Roosevelt will carry Idaho, even though his electors were ruled off the ballot. The people are determined to write them in. As to the governorship, G. H. Martin, the Progressive candidate, is going to be elected. Mr. Clagstone has received telegrams from all over the south showing how Martin is simply taking away the Haines and Hawley following all the time."

"This afternoon we had a splendid meeting of the women at Sandpoint. Mrs. H. C. Olney was elected county chairman, Mrs. L. H. Graves, treasurer, and Mrs. A. Harron, secretary. They are going to celebrate Founder's day Saturday by selling tarts the way they are going to do in all the other cities."

"Another meeting has been called for Sandpoint for next Wednesday night at 7:30, when progressive women from all over the county are coming in. I tell you the women are working."

"We are going to have three women on duty at every polling place. They will take turns, so that the work will not be so hard, but there will always be one of the women there. Then we will have women on the streets leading to the polling places."

"We are not going to use stickers. The state headquarters is afraid some question might be raised in the use of stickers and the ballots thrown out. But we are going to tell the people how to write in the names of the Roosevelt electors."

Mrs. Clagstone will go to Shoshone county the last part of this week to help organize the women there.

MINES OF LEMHI COUNTY RICH IN GOLD AND SILVER

Former Boise Man Tells of Mining Operations That Promise Big Things for the Country.

The Lemhi county mining district is being rapidly developed and in the opinion of W. B. Horn, of Salmon, formerly of Boise and at one time chief of police of this city, is as rich in minerals as the famous Coeur d'Alenes. The Salmon Land & Investment company of which Mr. Horn is a member is developing one of the best properties in the county known as the Golden Rule mine, bearing gold, silver and about 40 per cent lead and giving promise of becoming a mine that has passed beyond the prospect stage and has rich ore in sight.

Mr. Horn is in Boise for a week meeting his many friends and acquaintances. He is a genuine backer of the Lemhi county and although a gold booster, bases his boosting on the facts as he knows them. He has been engaged in the real estate business at Salmon for some time and has thereby been given an opportunity to witness the development of the country.

Railroad Helped.

"The advent of the Gilmore & Pittsburg railroad helped a lot," said Mr. Horn speaking of the building of that road from Arma to Salmon.

"While construction work stopped suddenly as it were, it gave Salmon a steam line and when conditions and the people have adapted themselves to the road Lemhi county and Salmon will come right to the front. The change from the stage coach and the freighter to the steam line was a sudden one and it will take time to adjust matters. After then—well just keep your eye on Salmon and Lemhi county."

"The mining districts—the Gilmore, the Lodore and others—are looking mighty good and there is considerable activity and a great deal of prospecting and developing. Ore is being shipped out over the railroad. It is bringing returns. Prospects look good, I can tell you."

Have Opened Golden Rule.

"I am slightly interested in mining myself. The Salmon Land & Investment company, of which I am a member together with W. H. Shoup, Harry Kelly and J. H. Allen, owns and is developing the Golden Rule mine, four and one-half miles from Salmon. It is a gold, silver and lead producer. We have just completed a new tunnel 400 feet long, giving us a level of 350 feet depth in the mine. The ledge was cut two weeks ago Monday and after going into it 10 feet an assay of the rock was made. It proved to carry average values of \$20. At the present time we are now drifting in the upper level on the vein, the rock going better than \$50 to the ton."

"The property is now beyond the prospective stage. We believe we have one of the best mines in the country. The only question that we have yet to solve is just how big it really is. It looks good enough for a large mill. We expect to be shipping ore by Dec. 15 which will pay better than \$30 a ton after shipping and milling expenses are paid."

COACH FEARS THAT THE LINE IS WEAK

With the most important game of the season only five days off Coach Worthwine of the local high school is worried about the Boise line. In the game with Caldwell last Saturday the forward wall on the local team proved to be very weak. It is hoped, however, that the coach will be able to brace up the line to such an extent that it will be able to hold the Salt Lake line long enough for Boise to get off some of her plays.

The lack of hard practice games has hurt the local team according to the coach. So far every game has been too easy for the high school boys.

The game with Salt Lake at Cody park next Saturday should be one of the best games of football ever played in this section. Both teams have been trained to the minute for this big contest and neither team has been defeated for two years. The Salt Lake team has won the championship of Utah for two years in succession. It has defeated a team from Colorado that had a claim to the championship of that state.

Boise high school has not been defeated in football for two years and won the championship of southern Idaho last year after some hard battles. The local football fans are anxious to see the two teams get together to see whether the high schools in Utah play a better brand of football than the Idaho high schools do.

Salt Lake high school's speedy football team won its annual game with Ogden high school at Salt Lake Saturday by a score of 60 to 0. The Salt Lake eleven is one of the best of its class ever put together in the west and the Ogden school team was entirely outclassed. With Salt Lake securing a long early lead, Coach Richardson sent in a number of substitutes and second-team men who also performed well. Had the first team been left intact, the score would have been much larger.

The work of the Salt Lake back field was excellent, but due credit must be given the Salt Lake line. The forwards opened up big gaps in the opposing lines and were perfect on defense.

LEADERS OF THE W.C.T.U. SPEAK AT BIG MEETING

One Hundred Eastern Women Spend Day in Boise—Visitors Occupy Pulpits at Morning Services.

Yesterday night will be termed W. C. T. U. day in Boise. Members of that organization over 100 strong, who are on their way back east after attending the national convention at Portland, were entertained here yesterday by the local organization and in turn entertained the residents of the city, having spoken to over 5000 people during the day. In the morning prominent members of the organization occupied the pulpits of the city and despite the bad weather the attendance was large. Addresses were made in behalf of the cause for which the union has been battling so long—the elimination of the saloon—and which they predicted was soon to be realized.

The big meeting of the day was at the Pinney theater at 3 o'clock. A magnificent audience greeted the speakers and members of the organization. Miss Daisy Beatty of Caldwell, state president of the W. C. T. U., presided at the meeting and introduced Fred Flood, private secretary to Governor Hawley, to represent the chief executive in welcoming the visitors from the national organization. He spoke briefly commending the efforts made by the women in their cause. Mayor Hodges welcomed the visitors in behalf of the city and Rev. C. L. Travin for the churches.

Mrs. Lillian N. M. Stevens, national president of the W. C. T. U., was the first speaker. She expressed regret that the chief executive of the state was unable to attend and complimented Mayor Hodges upon being so well posted upon the accomplishments of the organization. Miss Anna A. Gordon of Evanston, Ill., vice president at large of the national organization, was the next speaker and a woman who bore the distinction of being one of the organizers of the W. C. T. U. in Idaho 20 years ago. She told of her visit to the state at that time in company with Frances Willard and how they organized the union at Lewiston. Other speakers at the meeting were Mrs. Frances Park of West Virginia; Mrs. Margaret Dye Ellis, chairman of legislation, who spends most of her time at Washington; Mrs. Thatcher, chairman of the work among soldiers and sailors, who spoke of her enjoyable visit to the Soldiers' Home here, and the excellent work being done by the local W. C. T. U. among the veterans there; Mrs. Florence B. Richards, state president of Ohio; Mrs. Sarah Hope, assistant corresponding secretary; Mrs. Deborah K. Livingston, state president of Rhode Island; Miss Edna Rowan, organizer of the work among children; Miss Rose Davidson, a national organizer; Miss Mary Moreland of Chicago; Mrs. Ella M. Seawell, superintendent of flower missions, and Mrs. Ella A. Boole, state president of New York.

A banquet was tendered the members of the organization last evening at the Owyhee hotel, at which 124 were in attendance. Mrs. W. S. Chipp was complimented at the dinner for making the big meeting possible and the day such a success in Boise. Sheaves of carnations were presented to Mrs. Stevens and Mrs. Gordon in behalf of the Ada county unions, the presentations being made by Mrs. Prescott of Glenns Ferry and Mrs. Stout of Caldwell.

Parlor Meeting for Martin.

A Martin rally for women will be held at the residence of Mrs. J. I. Mills, 1204 East Washington street, Tuesday afternoon at 3 o'clock. A prominent woman speaker will address the meeting. All women of that section of the city are cordially invited to attend and hear the issues of the campaign discussed from a woman's viewpoint.

BREAKS A COLD NEEDS NO HELP

Pape's Gold Compound Cures Colds and Grippe in a Few Hours—Tastes Nice—Acts Gently.

It is a positive fact that a dose of Pape's Gold compound, taken every two hours until three consecutive doses are taken, will end the grippe and break up the most severe cold, either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserable headaches, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges. Take this wonderful compound as directed, with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Gold compound, which is druggist and supply—accept no substitute—contains no quinine, belongs in every home. Tastes nice—acts gently. Adv.

OAKLAND WINNER OF COAST PENNANT

Vernon Loses by Less Than One Game After a Hard Fight.

San Francisco, Oct. 28.—By less than one game, according to the figures, the Oakland team won yesterday the championship of the Coast League for the season of 1912. For more than a week Oakland and Vernon have been seesawing for the lead, sometimes separated by less than half a game. Both teams played a double header yesterday and both won twice, Oakland defeating Los Angeles and Vernon defeating Portland.

The official standing of the two teams is:

Team	Won	Lost	Pct.
Oakland	120	83	.59113
Vernon	118	83	.58706

The games yesterday brought to an end a seven-months' season. Los Angeles, for a considerable period toward the end of the season, a close contender for first place, took a decided slump a month or so ago, as the result of illness of a number of players and the death from typhoid of Heinie Heltmuller, one of the most valuable players on the team. Los Angeles finished third, Portland fourth, San Francisco fifth and Sacramento sixth. The season was a prosperous one for all the teams except Sacramento, and that club probably will show a slight profit.

Standing of the other teams follow:

Team	Won	Lost	Pct.
Los Angeles	110	85	.561
Portland	85	100	.459
San Francisco	89	115	.436
Sacramento	73	121	.376

Oaks Win Two.

At San Francisco—Morning game—R. H. E. Oakland 5 9 1 Los Angeles 4 7 3 Batteries—Gregory and Mize; Toser and Hoffman.

Portland Loses.

At Los Angeles—Morning game—R. H. E. Portland 4 9 3 Vernon 5 5 2 Batteries—Gregory and Fisher; Edmundson, Castleton and Brown.

Afternoon game—R. H. E. Portland 3 12 0 Vernon 6 7 0 Batteries—Harkness and Fisher; Baum and Agnew.

Senators Beat Seals.

At Sacramento—First game—R. H. E. San Francisco 3 10 9 Sacramento 6 12 0 Batteries—Fanning and Schmidt; Arellanes and Cheek.

Second game—R. H. E. San Francisco 6 9 0 Sacramento 7 9 0 Batteries—Ariett, Zimmerman, Yoh, McArdle and Auer; Fitzgerald, Swain and Reitmeyer, Kreitz, O'Rourke.

SITE SELECTED FOR NEW EXPERIMENTAL STATION AT JEROME

Jerome has been selected as the site for the new horticultural station in southern Idaho, which has been established by the federal government for the sole purpose of ascertaining the best potatoes to raise on irrigated lands and also to conduct experiments on sugar beet culture in order that the farmers may become more familiar with the industry and may be encouraged to engage upon a larger scale in the raising of sugar beets. Word to the effect that Jerome had been chosen as the site of the important experimental station, reached here yesterday. Wendell was out after the plum but the government agricultural experts chose the former town. The experimental station is an exceptionally large one for its purpose, in fact one of the largest in the United States upon which only two products are to be considered. The tract of land comprises 40 acres and was presented to the government by J. E. and W. S. Kuhn, the great irrigation promoters,

who have opened up thousands of acres for settlement in Idaho. It is not known who will be placed in charge of the experimental station, but there is a possibility that it will be Eugene H. Grubb, the noted potato expert and consulting agriculturalist for the Kuhn brothers. Mr. Grubb has done many big things in the agricultural world and for years conducted experiments on his model ranch near Carbonade, Colo., and was the man who made that territory of the state produce potatoes, equal to those grown at Greeley. For the past two years he has lectured on potato culture for the Union Pacific in Utah and Idaho, accompanying the experimental trains operated by the company. While Mr. Grubb may not be placed in active charge of the station, he will at least be in close touch with the work there and his advice on potato culture will be followed to a large extent in the experiments to be conducted.
