

FRENCH WILLING TO ACCEPT THE SEAT IN SENATE

Receptive Candidate Only, Being Satisfied With the Commission Given Him by People of Idaho.

Congressman Burton L. French arrived in Boise last night to visit with friends and probably incidentally to keep in line with the political situation in its relation to the senatorship to be filled by the coming legislature in naming a successor to the late Senator Heyburn.

Congressman French authorized the statement that while he could not lightly throw aside the commission just given him by the people in a flattering vote to serve them as representative in congress for the next two years, still he is not insensible of the demand that has been made upon him by many of his friends in all parts of the state that he should accept the

selection as successor to the late senator.

"I could not be unappreciative of the honor of an election by the legislature to this position," stated Congressman French today, "but at the same time I am not unmindful of the honor done me by the people of the state in my reelection as representative in congress. I cannot lightly throw aside this commission just given me almost before the commission itself can be issued and I am not prepared to do so, but on the other hand I cannot fail to appreciate the request made to me by many friends throughout the state that my name be considered in connection with the senatorship. On this latter question I prefer to make no statement that would be final at this time.

"Above all else, however, I wish to make it clear that the result of the recent election was a complete vindication of Senator Borah and an expression of complete confidence in him upon the part of the people. It was this expression of confidence that elected this legislature and largely the same thing that gave the rest of the Republican candidates on the ticket the vote they received. The election of Senator Borah must not in any degree become involved in the contest for the election of the successor to Senator Heyburn. That contest must be conducted entirely and wholly aside from the election of Senator Borah which is a matter that has already been settled by the people and their verdict must not be disturbed nor

must Senator Borah's name become involved in the other matter."

Congressman French will leave tomorrow for Moscow, where he has some work to do, after which he will leave, probably next week, for Washington to be prepared for the convening of congress.

"There are two matters which I wish especially to look after in congress at this time," stated Representative French. "One is the securing of an amendment to the three-year homestead law which will make that law more suited to conditions in the northern part of the state. Homesteaders in that part of the state find that the law as now in force, is not suited to their conditions and I wish to secure a modification which will permit a definite amount of improvement each year rather than a definite amount of cultivation. For instance, some of our northern lands are fitted only for grazing lands. The requirement which makes cultivation necessary is actually detrimental to such land instead of beneficial. Other lands are timbered or in heavy brush, which needs to be cleared before there can be cultivation. The work of clearing should, in my opinion, count as well toward improvement of the homestead as should actual cultivation of the soil.

"I understand the law works out in a satisfactory manner to the southern Idaho homesteader and I have no desire or intention to interfere with its requirements here, but merely to secure such modification as will make it better suited to northern conditions.

"I desire also to begin the work of securing an extension of time for payment under government reclamation projects from the present 10-year limit to the proposed 30-year period. This is one of the most important achievements to be desired, it seems to me, in behalf of the very man the reclamation law is intended to benefit and I intend to do everything possible to secure the relief that is so much demanded."

Mr. and Mrs. W. O. Campbell, and left this morning for Weiser to visit a son before returning home. Mr. Page was in Boise 23 years ago and spent some time and this is his first visit here since that time.

While confined in the guard house at the Soldiers' Home last night for being drunk, Tom Wheeler became careless with matches and set the place on fire about 10 o'clock damaging the interior considerably. Wheeler was rescued from the burning building after being quite badly suffocated by smoke. The blaze was extinguished with but little difficulty.

Clothed only in his night robe, an elderly man was found this morning by a newsboy lying beside a ditch in the east end of the city. He was covered with blood, and the boy fearing foul play notified the police, who took the victim to St. Alphonus hospital. It developed that while temporarily unbalanced he jumped from the window of a house in which he was being treated and to which he was later returned. The man's chin was badly cut as the result of his jump.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair.

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

Sweater Coats

Knit in the usual way, also the new shakerstitched and rope designs, from

GADSKI DELIGHTS BOISE AUDIENCE

In tones of wonderful clearness and beauty, Madam Gadski won the hearts of a large audience at the Pimney last night and was encored time and again by the enthusiastic music lovers who fell under the spell of her voice.

The first part of her program was rendered in German. "Das Verlassene Madgelein" was perhaps the most effective selection in this part of her program. The second half, in English, brought her back to the stage time and again. Among other selections she gave "The Little Irish Girl" (Edward Teuchmacher) and "Annie Laurie." Other numbers that were particularly pleasing were "Love and Springtime" (Metcalfe) and "The Lamp of Love."

The excellent program was closed by Wagner's "Battle Cry," from "The Valkyrie," and the effect was so strong that she repeated it before she left the stage.
