

TEACHERS FAIL TO ATTEND SESSION

Only Forty Comply With Requirement to Attend Meeting.

The meeting of the Ada County Teachers' association held yesterday in the High school building, proved somewhat of a frost as far as attendance was concerned, there being only 40 present, although the law requires the attendance of teachers at such sessions. One of the number brought out the fact that teachers did not like to go to school any more than children, but advised that the boards of the various districts inform their teachers that they must attend the association meetings in the future.

Several of those who were placed on the program because especially fitted for the subjects given them to discuss, also failed to appear and others were substituted, but the program was carried out and was one which proved of value to the profession. A business meeting was held after the addresses and a discussion of the text book problem, which is to be considered by the legislature this winter. Preliminary arrangements were made for the annual athletic and oratorical contests to be held next summer. The program given was as follows:

- Morning Session.**
 - Parliamentary drill—Led by Professor C. W. Holt, Meridian.
 - Practical Demonstrations of Food Values—Principal C. W. Holt, Meridian.
 - Teaching of Decimals and Percentages—Principal E. O. Cook, Cole school.
 - Business Session—Reports of committees, etc.
- Afternoon Session.**
 - Promoting Sociability Among Teachers—Miss Grace Maberly, Star; Miss Nellie G. Orr, Meridian.
 - Primary Grades Section—Chairman, Mrs. Roberts, Collierville; reading, Miss Clara C. Holmbeck, Franklin; Seat Work and Sense Training Games, Miss Nellie Gouré, Whitney.
 - Grammar Grades Section—Chairman, Principal F. B. Nixon, Victory; Text Books, open discussion, 25 minutes; Manual Training, Principal L. M. Wenzelberg, Kuna; Domestic Science for Rural Schools, Miss G. Louise Riddle, Kuna.

MERGER OF REALTY AND LOAN COMPANIES

An important deal, which virtually amounts to a merger of two of the strong loan and realty companies of the city has just been brought to a successful close. The companies concerned are the Idaho Title & Trust company and the Interstate Land & Loan company. The first company named has been in business in Boise for six years and has won for itself a commanding position among the prominent business organizations of southern Idaho. Among the leading stockholders of the Idaho Title & Trust company are H. C. Wyman, Frank T. Wyman, C. B. Cox, Captain Yates, Frank Parsons, M. P. Meholin and W. H. Ridenbaugh. The Interstate Land & Loan company was organized less than a year ago, with M. A. Camp president, S. D. Dorman of Ontario, Ore., vice president, and Paul Pizey of this city secretary-treasurer. A. J. Glover of Ontario is also a heavy stockholder and director. Though a young organization this company has had phenomenal success in its undertakings. The amalgamation of these two companies should make a strong combination. For working purposes, each company will maintain its identity, but all the business will be transacted from the office of the Idaho Title & Trust company, at 225 Main street. C. B. Cox will continue as president of the Idaho Title & Trust company, and Mr. Camp will remain at the head of the Interstate Land & Loan company and will also be a managing director of the Idaho Title & Trust company.

PERCELL BOUND OVER TO DISTRICT COURT

After a preliminary hearing, which occupied the entire day in Judge Bowler's court, J. W. Percell was bound over to stand trial in district court on the charge of assault with a deadly weapon upon the person of Neil O'Donnell. The complaining witness in the case was rather pale and had his neck tightly banded, besides showing other signs of the encounter with Percell last Sunday morning at his home, where he received some 15 stabs from the defendant. The blood-stained clothing worn by O'Donnell on the morning when he was cut were introduced as evidence, and contained numerous knife holes. Percell was represented in court by C. E. Winstead, who subjected O'Donnell to a severe cross-examination, going into all details of the case. Percell's bond was placed at \$500, which he was unable to furnish, and he will remain in the county jail until his hearing.

Salves Can't Cure Eczema

In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid. **WASH THE GERMS OUT.** A simple wash: A compound of Oil of Wintergreen, Thymol and other ingredients as combined in the D. BREVITIES

Rev. Dr. J. D. Gilliam spends Sunday in Fayette and Fruitland. A gang of 25 laborers left yesterday for Milner, where they are to be engaged on reclamation works. "Bud" Robinson, the cowboy evangelist, will speak to the prisoners at the penitentiary this afternoon. Mrs. Lizzie Frost of Caldwell spent yesterday in the city a guest of her daughter, Mrs. George Mitchell. Mrs. Lee Estes and daughter, Edna Lee, left yesterday for Columbus, Ohio, where they will spend the winter. The Central Auto company yesterday received a car of taxi-cabs which will be put into service as soon as they are unloaded. Dr. Edward Mazyer was called to Baker City yesterday to consult with physicians of that city on an extremely serious case. Dr. Emily Moshage of Scribner, Neb., is visiting at the home of Mr. and Mrs. Gustave Kroeger. Dr. Moshage is much impressed with Idaho and is considering locating here.

The Socialist party lyceum will meet tonight at 7:30 o'clock in the I. O. O. F. hall at Thirteenth and Eastman streets. An address to which the public is invited will be given at 8:15. The members of Boise Camp, Royal Neighbors of America, will go to Meridian Monday evening to attend the county meeting of the order. A special car will leave the Interurban depot at 7:30 o'clock. The apparatus from the central station was called out yesterday in response to an alarm from Main street. The cause of the excitement was the burning out of a fire in the Club cafe. No service was needed. The Security Abstract & Title company moved yesterday from 110 North Tenth street to 107 North Tenth in an elegant suite of offices in the Gem building, which has been fitted up with a vault and other conveniences for its business. The Edward Stein company is now occupying its handsome suite of offices in the Gem building, which has been completely remodeled during the past month. The company now has ground floor and basement offices, while the fixtures in the suite are equal to those in a bank. Poundmaster Mack Gillum had several dog catchers on the job yesterday with the result that 40 canines were in the pound last night, and unless taken out they will meet death tomorrow. Some of the dogs are fine animals and anyone wishing a good dog can secure one by paying the taxes.

The Rev. David H. Jones announces that the annual Thanksgiving service will be held at Christ church, at Fifteenth and Ridenbaugh streets, Thursday morning at 11 o'clock. Special music will be rendered including a duet by Mrs. R. H. Cost and Mrs. W. L. Cuddy. A cordial invitation is extended to all. During the past week fully 15 Chinamen have left Boise for their native land. Nearly all signified their intention of returning. Among the number were two pioneer placer miners of the Boise basin, both of whom had plenty of money, and while they declared their intention of returning here, it is believed they are too old to stand the round trip. E. H. Hulser, clerk of Camp 6777, Modern Woodmen of America, received a letter yesterday from the head camp informing him that the claim of \$2000 insurance for Mrs. Guay, whose husband was killed several weeks ago at Rocky Bar, had been allowed and the voucher would follow within a short time. Mr. Guay was a member of the organization for 12 years and 3 months and had paid into the organization \$115.20. Charged with larceny from the person upon complaint of Frank Heas, a man named Jack Lynch was arrested yesterday at the Western rooming house and it is alleged in the complaint that he stole \$15 from Heas, who took him in last night and permitted him to stay with him. Lynch was still in bed when the officers arrived and took him in custody. He claims that he is innocent and furnished bail in the sum of \$250 for his appearance in Judge Adams' court Monday morning. Senator K. I. Perky received a telegram yesterday inviting him to address the American Mining congress which meets at Spokane on Tuesday. Owing to his departure for Washington on the early Monday morning train, the senator was obliged to wire his regrets although he would have liked very much to have been present as he is familiar with mining conditions throughout Idaho and Nevada. The congress is to be presided over by Governor Shafroth of Colorado. There were not enough exits to police headquarters in the city hall yesterday when a man with a well developed case of smallpox came into the place and asked for the health officer. "I walked the streets all night," he said, "and I am positive that I have the smallpox." Sergeant O'Connor jumped backward, while several in the office made breaks for the door. Three struck it at the same time and were wedged, but all got through, with the smallpox patient next, who was sent in the open air, and immediately taken to the pest house, where he will be treated. Later the police headquarters was thoroughly fumigated. "The Idaho Field," was the general topic of a Home Mission meeting held Friday night at the First Congregational church at which Dr. R. B. Wright presided. The needs in Idaho were brought out in a forcible manner by the speakers of the evening, Dr. J.

Dr Hartman Recalls Cures Made by Old-Time Pe-ru-na

DR. S. B. HARTMAN

I have been practicing medicine since 1855. Most of that time I have been using Pe-ru-na as my principal remedy. So many unexpected recoveries have been made by those for whom I have prescribed Pe-ru-na that it would take a large book to contain them all. They keep coming up to my mind one by one. Whether on my farm, or at home, whether playing with my grandchildren or conducting my large office business, these incidents of old-time Pe-ru-na cures steal in upon my memory unawares. Take, for instance, a single case from the extensive list of similar cases in my diary of cases treated, as an example of the cures that Pe-ru-na used to make. Mrs. T. S. Eberlein (then of Pittsburg, Pa., afterwards of Keokuk, Iowa), during the year 1882 began to develop usual symptoms of catarrh of the lungs. Cough was one of the first symptoms, which gradually grew worse in spite of all treatment. The sputa, at first slight, became abundant and purulent, occasionally streaked with blood. A rapid loss of flesh and flagging appetite filled her relatives with forebodings. The hectic flush, night sweats, and suppression of the menses, left no doubt as to the nature of her disease. From the first physicians had been employed. Cough medicines, tonics, cod liver oil and stimulants were resorted to by her physicians without avail. The first physician employed was Dr. Williams, Penn Ave., Pittsburg; Dr. Gilford, of Allegheny City, was next called; and then Dr. Riggs, of Pittsburg. During this history of conflict with this terrible disease frequent consultations were held, but nothing checked the steady progress of her malady. Not a doubt had existed in the minds of her physicians or friends as to the nature of the wife and mother of the fatal termination. The repeated examinations of her lungs indicated the rapid strides with which she was nearing the end. Her physicians were honored members of the medical fraternity, in whom Mrs. Eberlein's husband and family had perfect confidence. And the sorrow with which they listened to their decision that they had exhausted everything known to them in vain for the relief of the wife and mother of the afflicted household can be better imagined than described. As is common to this sort of patients, Mrs. Eberlein continued hopeful long after her attendants believed her to be beyond cure. I was practicing at the time in Pittsburg, and a fancy that I would be able to relieve her was, during her illness, repeatedly expressed by Mrs. Eberlein, but it was regarded as the vainest whim; and, as they were employing the best medical talent the city afforded, no attention was paid to it. At last she became so weak and emaciated that an attendant was constantly at hand to lift her during the terrible coughing spells to which she was subject, and which were frequently followed by alarming sinking spells, during which she was often thought to be dying. It was during one of these frightful paroxysms when her husband was supporting her tenderly and vainly trying to palliate her sufferings that she again expressed her belief that if Dr. Hartman were sent for he could relieve her. Willing to indulge her in any wish, as she was thought to be dying by all, I was immediately sent for, but being very busy was not able to respond until late in the evening of the afternoon on which I was sent for. It was not expected that she would survive until I could reach her home, but hope kept her alive until I came. It would be difficult to imagine a more discouraging case for a doctor to undertake to cure than Mrs. Eberlein's at the moment of my first visit. Let me describe her symptoms. A drawn, pinched countenance, of a deathly pallor, and livid lips. Sunken, fixed, staring eyes, with a glassy brightness. Wasted in body to a mere shadow. Pulse wholly imperceptible at the wrist, but the heart feebly fluttering. Extremities cold and clammy, fingers nail blue breathing hurried and gasping, utterly exhausted and hopeless. It certainly seemed as if I had only arrived in time to see her die. The first question of the distracted husband was: "Is my wife dying?" But my undaunted faith in the efficacy of Pe-ru-na is such, even in this awful emergency, that I replied:

"Sir, you and I are now in the vigor of life; it may happen that this lady will live to see us buried." After a hasty examination of the case I prescribed Pe-ru-na to be taken every hour, and if she was not better in the morning to let me know. It was two weeks before I again heard from the case, when the husband entered by office, radiant with joy, and, not waiting for the usual salutations, exclaimed: "Doctor, my wife is well!" "Oh, no, you mean she is better," I replied. But the enthusiastic husband insisted that his wife was "well and the healthiest eater at the table." The fact was that, while she had made astonishing improvement she was obliged to continue the use of Pe-ru-na many months. In less than a year she was entirely well, and has remained so since, and her treatment from the beginning to the end was Pe-ru-na and nothing else. To have seen her at the time of the first visit it would have been impossible to believe that any medicine or other earthly power could have saved her. This case is no more unusual or astonishing than a great many others that my list contains, not only of diseases of the lungs, but of all mucous surfaces. Cases of dyspepsia, diarrhea and dysentery which have withstood all other treatment, have yielded at once by the use of Pe-ru-na. Numerous cases of Bright's disease of the kidneys, acute catarrh and rheumatism, female diseases, that had been treated locally for years, were instantly relieved and finally recovered by Pe-ru-na. In short, every disease affecting any mucous membrane of the body that has not already gone beyond all earthly help, frequently makes astonishing recovery. As a general tonic and appetizer Pe-ru-na has no superior. It is a certain remedy for worn-out or tired-out human nature. Cases of nervous prostration, loss of vitality and sleeplessness are all treated by Pe-ru-na with such undeviating success that wherever it is used it ranks as the greatest tonic known. In future articles I will recite other cases of similar interest. In doing so I shall not allow the slightest exaggeration or fiction to mar the realism which the simple facts alone give to any narrative of this kind. HURTT APARTMENTS ARE NOW COMPLETE

The apartment house built by C. B. Hurtt at the corner of Second and Idaho streets has been completed and is now ready for occupancy. The building, which is one of the best built in the city, consists of 12 apartments. Each is modern in every respect, equipped with natural hot water heat, electric lights, gas and telephones. In the building many new and novel features have been added, including disappearing beds, permanent writing desks, abundant closet space, natural hot water heated bath rooms and other features. In every apartment there is at least one full length mirror, the floors are hardwood, and each apartment has its sleeping porch. The work, which was done by Guy E. Matthews of South Boise, has recognized quality throughout. The apartments have all been rented and will soon be occupied. Phone 31 for Good Coal. Idaho Coal & Seed Co. A. L. REAL ESTATE FIRM CLOSES GOOD DEALS

Several good real estate transactions were closed recently by Bowman & Thomas, who traded a two-acre tract on the bench near the Franklin school, valued at \$2500, to Richard White for a five-room modern house in the Davis addition, valued at \$3000, the difference being paid in cash. From E. V. Harbin to Mrs. M. Ferguson, they traded a 15-acre tract near Spaulding's curve on the bench for a lot and hotel at Richfield. The ranch property was valued at \$500 and the hotel at \$4500, the difference being paid in cash. They also sold three lots at Seventh and Brumback streets from J. R. Good to D. L. Young for \$2350. For a consideration of \$2000 J. C. Bowman purchased a five-room house from Emma Hurt, located in South Boise at Fifth and Euclid streets. The firm also purchased a five-room bungalow in Davis addition from Richard White for \$2500. France has probably the most comprehensive co-operative societies of any country in the world. There are co-operative stores and organizations of every kind for the aid of the toilers, its members.

Piles, Fistula And Other Rectal Diseases

CURED BY A MILD, SAFE AND PERMANENT OFFICE TREATMENT.

VARICOCELE

impairs vitality. I daily demonstrate that varicose veins can be cured in nearly all cases by one treatment, in such a satisfactory way that the vital parts are preserved and strengthened, pain ceases, swelling subsides, a healthy circulation is rapidly re-established, instead of the depressing conditions. I guarantee you a cure.

HYDROCELE

results from injury and is sometimes difficult to distinguish from rupture or varicose. The remedy I use for curing Hydrocele completely obliterates the tumor at once, and by the use of my treatment for a few days not a sign or symptom of the disease reappears.

SALVARSAN, or "606," FOR BLOOD DISORDERS.

I use Prof. Ehrlich's wonderful new discovery, "606," in case of blood disorders. It is the greatest marvel of medical science. This new remedy has been used in thousands of cases. Let me explain it to you.

NERVOUS DISORDERS AND THEIR WEAKENING RESULTS.

It should be remembered that neurasthenia and nervous debility is essentially a chronic malady that its development often is rapid, as its advent is insidious, and that the final recognition of its presence may occur only after weeks and months of its existence, after the entire nervous system has become involved. The individual may have been enjoying normal health for some time. Suddenly he manifests a strange, unwonted disposition—is peevish, a prey to unreasoning fears, loses sleep and appetite, is listless and distracted, perhaps indifferent in his family relations, and evidently a victim of secret care. Gradually he realizes the fact that he is not himself, that his nerves are seriously unstrung and that he requires a change—he is neurasthenic, and powerless to cope with the conditions to which he is subject. There is no occasion for despair, however, the most obstinate case may yield to rational means of restoring mental and bodily health.

A new life appears to accompany the results of carefully studied and judicious treatment, and in compulsory, yet grateful repose the patient soon finds that his thoughts are brighter and more cheerful, his capacity for mental enjoyment keener, and his physique markedly improved under the influence of the general recuperation. Sleep and healthy digestion, which have perhaps long been strangers to him, assume a natural phase; troubles which but lately oppressed the mind with persistent anxiety appear purely imaginary, or at least are deprived of their baneful effect, while the entire system responds favorably to the new regimen and watchful care.
