

# CLUB GLEANINGS

## Columbian Club Announcements.

The Study department will hold its regular meeting at the club house, Monday, Jan. 22, at 3 o'clock. The Dramatic department will meet Thursday afternoon, Jan. 25 at 2:30 o'clock, at the home of Mrs. Axel Nixon, 815 Hays street.

## Pioneer Day.

January 15 was "Pioneer Day" at the Columbian club meeting when the wives of the legislators and executive officers of the state were guests of the club.

Mrs. J. L. McClear presided at the meeting which was held in the club house, 917 Franklin street. A piano solo by Miss Beattie Marshall opened the program. Mrs. Graham of Coeur d'Alene spoke briefly on the work of the minimum wage commission. Mrs. Cynthia A. Mame, in a most concise manner, outlined the Oregon Trail and its several followers and pictured graphically the hardships of these pioneers. Her topic being, "The Coming of the White Man to Idaho." Mrs. Reed followed with a most interesting

detailed history of Boise valley, the city and its early settlers, giving many striking and amusing incidents of early life in the valley. She treated the "Historical Places of Boise Valley" in an engaging manner. Mrs. Bradley Sheppard spoke on the "Personality of Boise" and gave many local hits. The social committee, consisting of Mesdames Evans, Alexander, Smith, Wells and Gravelley served refreshments during a delightful social hour.

## Musical Department.

Last Monday evening an open meeting of the Musical department of the Columbian club was given over to the subject of Chamber music. Several numbers for three violins and piano, prepared by Miss Audrey Castlebury, assisted by the Misses Sensenig and Miss Cherry, illustrated to the large audience, the nature and sphere of Chamber music. Miss La Verne McCrum gave variety to the program by two well chosen solos, Schubert's Serenade and Branscombe's Morning Wind. Miss McCrum was warmly applauded and responded to an encore. An added depth and richness in her voice was a source of pleasure and satisfaction to her many friends.

Salient features and characteristics of Chamber music were discussed by Eugene A. Farmer, whose work as a musical educator made his words valuable.

Among the numbers a "Minuet" arranged from a Haydn Symphony and a "Gavotte" by Martini, emphasized the classic epoch of Chamber music; while a little symphonic movement by Slunicko and an arrangement of Mendelssohn's familiar "Athalia" march, expressed aptly the progress of this refined type of tonal expression. In closing the program Mr. Farmer mentioned the points of usefulness in such music, chiefly as cultivated in the family as a vehicle for a democratic and fraternal growth in the family and how it had been used by the greatest composers, particularly Beethoven, for the expression of the deepest, holiest and most intimate thoughts and emotions.

## Apple Blossom Club Meets.

The Apple Blossom club met at the home of Mrs. O. L. Snyder, Thursday, Jan. 18. The president and vice president being absent on account of sickness Mrs. Harry L. Yost took the chair. The minutes of the last two meetings were read and approved. Several committees reported and four new members were unanimously elected to the club. There being no formal program each member responded to their name by asking a question of vital interest or on some current topic of the day, to be answered by any one present. This proved to be practical and afforded some amusement. A motion to adjourn was in order. The hostess assisted by Mrs. J. H. McBirney served chocolate nut sundae, cake and coffee.

## Holcomb Club Entertains.

The Holcomb Ladies' club met at the home of Mrs. Adolph Bahler for their annual supper to which the husbands and children were invited. A good time was enjoyed by all. Those pre-

sent were Mr. and Mrs. W. Ford, Mr. and Mrs. J. G. Breckenridge, Mr. Myers, Mr. Feaster, Mrs. Truitt and children, Mrs. Osborne and children, Mr. and Mrs. Jacobs, Mr. and Mrs. E. Holden, James and Ruth Brough, Gladys Bahler, Robert Ford, Ted Holden and George and Josephine Breckenridge.

## Hyde Park W. C. T. U.

Mrs. Dean and Mrs. Woods entertained Hyde Park W. C. T. U. Thursday afternoon at the home of Mrs. Dean, 1314 North Eighteenth street. Rev. McLain W. Davis spoke on national constitutional prohibition in a very helpful and interesting manner. Mrs. Chipp spoke on state plans, reminding the union of the large amount of work yet to be done, even though Idaho has won statewide prohibition. The program was concluded by an appropriate reading by Katherine Baird and a piano solo by Opal Sheaffer. A social half hour followed and refreshments enjoyed.

## League of Catholic Women

The League of Catholic Women will meet Wednesday afternoon at 2:30 at St. John's hall. Miss Kathrina Johnson will talk on "Economic Conditions at Home and Abroad During Revolutionary Times."

## Parent Teacher Associations and Mothers' Congress Circles

**"Home and School; Work Together."**  
(Address all items of above circles to Mrs. John P. Baird, Meridian, Idaho, press chairman of the State Congress of Mothers.)

On Feb. 17, the twentieth anniversary of the founding of the National Congress of Mothers, is Child Welfare day. Mrs. J. K. Dickie, state president of the Idaho Congress of Mothers, urges upon the observance of this day by the circles. Each P. T. A. and Mothers' circle is requested to arrange a program for that day which shall include a presentation of the importance and value of the congress. Its claims, the results accomplished during the 20 years of its existence, and plans for the future.

Begin now to plan by sending five cents to Mrs. Milton Higgins, 228 West street, Worcester, Mass., for a program, "The Children's Message," which will be helpful.

## Meridian.

Last Thursday afternoon at the rural high school building the P. T. A. held an instruction meeting. The program was opened by a piano solo by Miss Hazel Hawley. The feature of the afternoon was Mrs. C. L. Dutton's paper on "Protective Coloration of Children." In an interesting manner Mrs. Dutton dealt with the life of the child and the misunderstandings that often exist between the child world and the grown-up world.

So much interest having been awakened from the reading of this paper that it is planned to have Mrs. Dutton give this subject again. The next mothers' meeting will be Thursday, Jan. 25, at the rural high school at 3 o'clock. The subject "School Lunches" will be discussed. Miss Shaw, domestic science teacher, will give a talk. Professor Minden will talk on "How to Make a More Beautiful Town."

Mrs. C. L. Dutton, chairman; Mrs. Wilcox and Mrs. Baird have been appointed as a committee on securing a Victrola for the grade school. The community meeting with the Booster club will be during the first of February. The following members of different committees have been appointed to prepare for this meeting: Mesdames Fenton, Rife, Kellerman, Date Hedges, J. Garrett, Gilbert, Bray, Dutton, Johns, Kaigler, J. Hedges, House, Krider, Rogers, Matcham, Nelson and Harry West.

## Caldwell.

The Van Buren Parent-Teachers' circle was held Monday afternoon, Jan. 15. The program was under the direction of Miss Horn, who gave a most interesting talk on "Fresh Air Work," as conducted in Cleveland, O., where she came in personal contact with it last summer. Mrs. Ward Stone read an interesting article on economic conservation. The circle presented the school with a Christmas gift in the form of a handsome slide.

## Washington Parent-Teachers.

The Washington Parent-Teachers' association met at the home of Mrs. E. C. Paffie Friday afternoon and held one of the most interesting meetings of the year. More than 30 mothers were present. At the business meeting \$5 was appropriated for the purpose of securing records for the school, the teachers to make their own selections. A membership campaign was started, with Mrs. R. A. Newell as chairman.

Miss Lulu Vance, county superintendent, gave an interesting talk on advanced education. Mrs. Edgar Payne addressed the meeting on pensioning of the aged blind means for the prevention of blindness in infants and the marriage law. Mrs. J. K. Dickie, state president, was also present and made a short talk with suggestions for the good of the cause. Miss Lena Smith gave a piano solo and Miss Myrtle Mason a reading, both of which were enjoyed. Lunch was served.

## Park Parent-Teachers.

The Park Parent-Teacher circle met at the school house Thursday at 3 o'clock. Miss Kelly was present and gave her plans for work in the association as follows:

The study of food values, children's diseases and cultivating of vacant lots. After a short business session, Mrs. Van Loon gave a lecture on child welfare in connection with home economics. She emphasized the point that in order to understand our children we must try to see from their

viewpoint, arrange our homes so that they may have other associates. Such a procedure is hard on carpets—but plenty more in the shops. She explained the necessity of parents going to the bottom of reports brought home by children. Children do not wilfully misrepresent, but do not always get the point a teacher wishes to make, and hence a misunderstanding arises, in which case it is the absolute duty of a parent or guardian to give the instructor a chance to explain the problem as it was really presented.

Mrs. Work was charming in her "Order for a Picture" and in her encore she recited a little poem, "Smile and Get Busy."

## Home Economics.

Miss Amy Kelly, chairman of the home economics department of the Parent-Teacher association, has presented the following work for consideration during this year:

A study of the kinds of food required by a child to keep his body in repair and allow for growth.

A study of children's diseases and diets during sickness.

The improvement of sanitary conditions by having a general clean-up day. This work will be carried on by separate committees from each organization, or by having the local president appoint one woman to attend to the work.

Every mother should know food values, so that she may feed her child intelligently. She should have some knowledge of the fuel foods, the muscle-making foods and bone-building foods. Oftentimes some one of these is lacking and injury to the child results. A list of foods needed by children has been prepared for each association.

Many mothers have been very thoughtless and careless in the care of children sick with measles and whooping cough. They have allowed them to play with other children and to return to school before they have fully recovered. This unnecessarily, and almost criminally, exposes many other children. The day is past when we thought children ought to have such diseases. Each organization should have a local physician give them a talk on the care of children with measles, whooping cough, colds, mumps and the many other common diseases with which children are af-

licted. If this is impossible, the state board of health has some excellent pamphlets that will be of help. Diet lists for children with these ailments will be sent to each association.

In many of our small towns, we find vacant lots, as well as many back yards, that are covered with weeds and refuse and are a disgrace to the community. Through the efforts of the mothers these lots can be made into gardens. The boys' and girls' clubs provide one definite way to do this. Through this method such places can be made to yield a profit to some boy or girl, and their use will improve the appearance of the community. Every farm needs a clean-up day, when all the refuse, tin cans, weeds and rubbish are cleaned away. The school house yard also should be cared for and beautified. Each association has been asked to assist in carrying on this line of work.

## MARY PICKFORD HERE SOON IN SECOND FILM

The Majestic again announces the early presentation of Miss Mary Pickford at the head of her own company, "The Pride of the Clan," a great fisher folk drama with the rough, rugged shores of the coast for its background.

Miss Pickford is seen as Margot MacTavish, a winsome lassie of the heather, around whose life fate has built a charming story of love and romance. A faithful effort was successful in depicting in a most vivid manner the beauty, the legend and adventure of that the fisher folks have lived in for all these years, and to the smallest detail no expense was spared in making it perfect production to the very end.

## NOTICE OF MASONIC FUNERAL.

The officers and members of Boise Lodge No. 2, A. F. & A. M., are hereby fraternally requested to attend a special communication of said lodge to be held Sunday afternoon, Jan. 21, 1917, at 12:30 o'clock in Masonic hall, for the purpose of burying the body of our Brother James William Hays, late a member of this lodge, whose death occurred the 18th inst. All sojourning Master Masons fraternally invited.

By order of C. F. PIKE, W. M. Attest: C. O. NELSON, Secretary.

—Adv. J21

# Say Goodbye Wrinkles! Bad Complexions, you must go!

Remarkable discovery of skin osmosis quickly enables women with sunken cheeks, wrinkles and marks of age to become most beautiful, youthful and charming.

By Miss Marise, France's Great Prize Beauty  
It's wonderful to look beautiful and youthful. The Countess de Chevaline, who at seventy years of age possesses a marvelously soft, smooth, velvet-like skin and almost girl-like complexion, without a wrinkle in sight told the writer personally in Paris that she owed it all to the discovery of skin osmosis. With this marvelous discovery every complexion blemish can be banished in three nights in many instances, and you can awaken in the morning with a beautiful natural rose colored complexion as fresh as a daisy. I have known dozens of hollow-cheeked, wrinkled, aged-looking women, who had given up all hope of ever looking beautiful and youthful again, to "Come back" and again become most beautiful, youthful and fascinating in from two to three weeks' time by this wonderful simple method. No matter what your age or what you have tried unsuccessfully, skin osmosis will positively bring you new beauty and youth. Merely wash your face in warm water at night and rub in a teaspoonful or two of any good pure roseated cream, which you can obtain from your druggist. In the morning wash the face with cold water and rub in more cream. In three weeks or less watch the magic transformation. See how the old, hardened, coarse, rough skin turns into new, fresh, soft, youthful looking skin almost before your very eyes, all due to simple skin osmosis produced solely by warm water and roseated cream. Be sure to use only pure roseated cream, as it is an entirely different thing from ordinary face creams and must not be confounded with them. I personally prefer Creme Tokalon (Roseated), but any good brand will do. If you have wrinkles get a box of Japanese Ice Pencils and use them in connection with the cream and you get quick action on the deepest wrinkles, no matter of how long standing, in one night's time and awaken on the morrow to witness most astonishing results. I personally guarantee success in every case, in any of my newspaper articles which I write on subjects relating to beauty, or I will refund the amount paid for any products which I recommend, provided you take your dealer's receipt at the time you make your purchase. My American address is Miss Marie, 20 West 22nd street, New York.

# DON'T BE A DOUBTING THOMAS

If Chiropractic is new to you and its claims seem incredible, don't shut your eyes to the light of new truths. Lay aside pre-conceived opinions and investigate its claims before passing judgment. Remember that the telegraph, the telephone, the phonograph, wireless telegraph, and all the advances in science and learning were received with derision and skepticism when first given to the world. The greatest personage the world has ever known was condemned and crucified because of the disbelief in the great truths He was proclaiming to the world.

The science of Chiropractic is rapidly winning its way to the front upon merit alone, and the time is not far distant when it will be universally recognized as the leader amongst the many scientific achievements dealing with human ills. With a small beginning, as the glimmer of a distant star, the brilliant light of Chiropractic, like unto the noontday sun, is now beaming forth to illuminate the world as no science, in the same line, has ever done before. May the rays of its beneficent rays become broader until the utmost needs of diseased humanity be alleviated. Open wide your mental door, and let the blessed sunshine in.

Free consultation and booklets.

# CECIL AND CECIL CHIROPRACTORS.

McCARTY BLDG., BOISE, IDAHO

# Drilling For Oil at Vale

Will begin as soon as the weather opens up. Our derricks and buildings are being built, machinery is being put in place and we are practically ready to begin drilling.

Now just to remind you that our ground floor offer will expire on January 25th, at 9 p. m., after that date the price of stock will advance to 30c per share.

We have all the machinery, tools, casings, etc., necessary to drill with, and we have a large area of oil lands at Vale, Ore., where the surface indications are most convincing that we are in an oil strata.

By taking a chance with us now while we are still prospecting, will mean all the world to you when we strike oil.
