NAMPA BUSINESS MEN BANQUET AND PLAN YEAR'S WORK

In Extended Address N. Jenness, President of the Chamber of Commerce, Outlines Accomplishments of Year.

Nampa, Feb. 7.—The annual banquet of the Nampa Chamber of Commerce, which was held at the Dewey Palace last night by far eclipsed any similar function ever held under the auspices of the club. One hundred and thirty-five members of this highly effective factor of the city's marvelous progress and prosperity gathered at the banquet table and vied with each other in rejoicing over the civic achievements of the past year, which was the banner year of the city's history of progress and development, and in formulating a campaign for a continuance of the aggressive efforts which have been so productive of results for the city.

In an eloquent address, N. Jenness, the president of the club, pointed out the numerous results of the club's aggressive campaign for the city. He stressed the import to the city of the locating within it of the Northwest Holiness college, which had already proven the magnet which had drawn to the city some 75 or 80 families during the year and increased its population to this extent. He then emphasized the fact that through the unexcelled educational facilities afforded by the institution the city was destined to continue to be very largely the beneficiary of the institution as it now marked the city as one of the educational centers of the state, and in this connection he commented upon the great victory scored by the club in its effort to secure the new high school building, recently completed at an expenditure of \$60,000, which since its completion, is generally recognized as one of the most magnificent and modern high school buildings in the Pacific northwest. He declared that the building stood as a monument to the progressiveness of the city.

CONVENTION CITY.

In commenting upon the progress made by the city in the attainment of its ambition to become one of the leading convention cities of the state, he emphasized the significance of the city having secured four of the most important of the conventions to be held in the state this year.

These are the State Grange convention recently held, the L. O. O. F. and K. of P. grand lodge meetings to be held this year, and the state horticultural meeting which is to be held next year. He declared that these conventions were fraught with no little significance for the city as they meant a vast amount of favorable publicity for it, for if the proper reception were accorded the delegates of these several conventions that their delegates would go to their homes in the different parts of the state with only good words for Nampa.

He then called attention to the open-

ing of the Dewey Palace hotel, that popular hostelry of which the entire citizenship of the city is so proud, and declared that throughout this immediate section of the west it was recognized as one of the most modern and up-to-date hotels in not only the state but in the west. He strongly commended the enterprising spirit which prompted Robert A. Davis, Jr., the manager of the Dewey-Davis estate, in effecting its re-opening.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

ENGINES DISMANTLED.

Secret service men do not believe engines have been knocked to pieces, but are of the opinion that small parts which would seriously damage the machinery, have been removed and carried to a general base, probably in Hoboken. These could be easily carried back and replaced if the present situation becomes more serious.

It was pointed out that such damage as that suspected by secret service men would preclude the possibility of the ships being taken down the bay to be sunk in the channel and also would prevent a dash to sea. They might, however be blown up or sunk at their piers.
