

STATE BUYS ITS COAL FOR NEXT WINTER'S USE

Four Hundred and Fifty Tons Purchased for May, June and July Delivery at Rate of \$9.70 Per Ton.

FUEL FOR CAPITOL AND INSTITUTIONS

Money Saved by Purchasing Early, as Boise Dealers Report That the Summer Price to Consumers Will Be \$12 Per ton.

The sky apparently is to be the limit on summer coal this year. At least that would be indicated by the transaction closed by the state of Idaho Saturday through its various boards when coal was purchased for the penitentiary, state capitol and Soldiers' home. Lump coal to the amount of 450 tons was ordered for the Soldiers' home at a rate of \$9.70 per ton. The board was informed by dealers that coal will cost consumers \$12 a ton this summer. Last summer it could be purchased from \$7.25 to \$7.50 per ton. The prison board purchased 800 tons of slack delivered at the Natorium spur at \$6.25 per ton. The capitol board purchased 800 tons of slack for the power plant at \$5.75 per ton.

PREMIUMS OFFERED.

Secretary of State Dougherty is in receipt of a communication from one of the big coal concerns in Salt Lake which contains the information that the Utah Copper company is offering a premium of 75 cents per ton for the entire output of the mines for the grade of coal it uses and that the Anaconda Copper company, the largest copper company in the world, has offered a premium of \$1 per ton. Last year coal for Idaho could be purchased at the Utah mines at \$1.90. Now the same coal costs \$3 per ton. The freight rates have increased 50 cents per ton.

This is the first time in the history of the state that steps have been taken to store coal for its own use.

Secretary of State Dougherty says that since the state boards purchased sugar for the various state institutions a week ago, the raise in price since then has resulted in a saving of \$2500 to the state on sugar alone.

Let us mount your head and tan your hide. Lambert, 125 So. 11th.—Adv.

METHODISTS TO HEAR PROMINENT WORKERS FROM FOREIGN FIELDS

Under the Capitol Dome

Notary public appointments were made by the governor yesterday as follows: Adelbert Henderson, of Clifton; L. A. Davis, of Sugar City; William H. Stanley, of Twin Falls, and R. H. Rasche, of Stanley.

An appeal was filed in the supreme court yesterday in the case of William Adamson versus W. G. Moyes, Frank M. Weinheimer and the Amalgamated Sugar company. The appeal is from the judgment entered in the Fourth judicial district for Twin Falls. A sugar beet crop is involved.

The fish and game department was notified yesterday of the fining of a taxidermist at Halley \$10 and costs for practicing his business without a license. This is against the law in Idaho.

Dr. Biver, secretary of the state board of health, announced yesterday that the examination into the Carey poison case had not as yet been completed and will not be for several days.

Governor Alexander announces the appointment of the complete new state board of examiners of architects: L. J. Corbett, Moscow; F. C. Hummel, Boise; J. B. Boyer, Pocatello; George Williams, Coeur d'Alene and Burton E. Morse, Twin Falls. The board is to meet and organize soon.

James H. Hawley, designated by the state land board as official representative of Idaho to confer with the authorities in Washington regarding the clearing listing of Idaho school lands, leaves Sunday for the national capital where he will spend several weeks.

Before returning to Boise he will go to Texas to visit two half-sisters he has not seen in 35 years.

Miss Ethel E. Redfield, state superintendent of public instruction, has returned from Coeur d'Alene where she attended a joint teacher's meeting.

State Horticultural Inspector Guy Graham arrived home yesterday from an inspection trip in the northern part of the state.

Articles of incorporation were filed with the secretary of state by the Blackfoot Real Estate & Auction company; capital stock, \$25,000. Dorsey Livestock company, of Weiser; capital stock \$25,000. Blackfoot City bank of Blackfoot; capital stock, \$50,000. Coeur d'Alene Empire Mining & Milling company, of Spokane; capital stock, \$1,500,000.

Whole World Represented Among the Speakers at Convention Beginning Today—Men From All the Continents Here.

Some idea of the program of the central missionary convention, beginning its sessions in the First Methodist Episcopal church this morning, may be gathered from the fragmentary data now available. Bishop R. J. Cooke of Helena preaches the sermon at the morning service.

In the afternoon at 3:15 at least six men from the firing line of foreign and home lands will take part in a "world survey" covering incidents from their personal experience in their work in all the continents. Sunday night President Farmer of the Union Bible seminary, conducted by the Presbyterians and Methodists in the Philippines, will probably give his illustrated address on "What America Has Accomplished in the Philippines."

TO SPEAK ON JAPAN.

Monday morning's session, to begin at 9:30, will be open to the public, but will be of special interest to the workers of the Methodist denomination. The afternoon session at 2:30 will bring such eminent workers as Dr. E. R. Fulkerson, who was president of a college and vice-consul of the United States in Japan, and who knows better than most men the real feelings of America's oriental ally. Dr. G. J. Schilling will also be on hand and will probably not mention the fact that in his youth he was discharged from his business connections in India when he refused to sell idols. He has preached ever since, mainly in the continent of opportunity, South America.

James M. Taylor, secretary of the department of foreign evangelism of the church, with headquarters in New York, is expected to arrive in time to give his famous lecture, "America's Hope," late Monday afternoon. The final lecture of that evening will be on "Panama, the Gateway of the World," and will be illustrated not only by magnificently colored slides, but by the indescribable wit and humor of this southern orator.

ADDRESSES ON WOMEN'S WORK.

As Tuesday is the semi-centennial jubilee of the organization of the Women's Foreign Missionary society, the speakers will especially dwell upon the condition of womankind in Asia, the dark continent and in South America. Special addresses are promised on the work of that society by Dr. Schilling and Dr. Farmer. The closing address on Tuesday evening is expected to be one illustrated by over 100 slides, illustrating the experiences of Dr. Taylor, as he has gone five times through South America.

DON'T DELAY.

The season will be very short for planting roses, shrubs, hardy perennials, spring bulbs, sweet pea seeds, pansies, etc. We have a good selection. Boise Floral Co. Adv-tf

SCIATICA

This is mis-named sciatic rheumatism. It is not a rheumatism at all, but is true neuralgia, and is always due to pressure upon the sciatic nerve. This, the largest nerve in the body, arises from the lumbar region of the cord and passes down into the pelvis and out of the pelvis through a notch in the innominate bone, which has received the name of the sciatic foramen. The nerve is enclosed in a heavy sheath and is not easily irritated. This sheath protects it from injury, for we sit on the muscles through and under which it passes and it is not affected. On account of this protection this nerve would be likely to be the last affected in cases of true rheumatism produced by a nerve irritant like uric acid or lactic acid. The pressure which is the cause of sciatica may be located in the lumbar region, where many fibers unite to form the sciatic nerve, or it may be discovered at the innominate bones, which may have slightly slipped from their articulations with the sacrum. Wherever the pressure is the Chiropractor will locate it, and by skillful adjustments will restore the articulations to normal, and thus take the irritation from the nerve.

In support of my remarks I submit a copy of an affidavit by a gentleman well known in Idaho.

State of Idaho,)
) ss.
County of Ada.)
George Nibler, being first duly sworn, deposes and says: That he has resided in Idaho since 1876; that for the past 19 years he had been troubled with sciatica; that he had taken a great deal of medicine, and used a copious amount of various liniments, all of which afforded no relief. He also took Osteopathic treatments which relieved for the time being, but gave him no lasting benefits. Affiant further states that on or about the first day of March, 1916, he had a very severe attack of sciatica, from which he suffered intense pain and was unable to rest night or day, that his condition was such that the use of a cane became necessary. That he remained in this condition until June 6th, 1916, at which time he consulted Dr. C. G. Burt of Boise, Idaho, and began taking chiropractic adjustments; that he took in all twenty-one adjustments, receiving the last on July 8th, 1916, at which time he had no pain or symptoms of sciatica, and since that time has attended to work on his ranch and enjoyed normal health and for which he gives credit to the science of Chiropractic.
(Signed) GEORGE NIBLER.
Subscribed and sworn to before me this 24th day of March, 1917.

DEPUTY NAMED FOR MARKETS BUREAU

Charles Waggoner of Post Falls has been appointed north Idaho deputy of the state farm market bureau. The appointment was made by Director Harvey Allred. Mr. Waggoner will take up his duties April 16. He is given direct charge and supervision of the department's work in the 19 northern counties of the state.

The last legislature appropriated sufficient funds and conferred the necessary authority on the farm market bureau to create the office of deputy. The appointee is not holding a temporary position but a permanent one. By the office it is hoped to establish closer relationship with the farmers of the panhandle.

Mr. Waggoner will make his headquarters for the time being at Post Falls. He is one of the most influential farmers in the northern part of the state and served as county commissioner of Kootenai county. "Mr. Waggoner," said Director Allred, "has the confidence of the people regardless of party affiliation. He is highly recommended from all parts of the north. At the present time he is engaged in the dairy business. He is a member of the farmers' union and is in no way associated with agitation or political activity. I consider the department to be fortunate in securing the services of a progressive citizen of the type of Mr. Waggoner."

ANNOUNCEMENTS.

Ada Circle No. 166, Women of Woodcraft will hold its regular business meeting Tuesday evening, April 17 at 7 o'clock. Delegates and alternates to the district convention will be elected. After the business meeting a social will be held. Daggett's three piece orchestra will furnish the music. Members and invited guests welcomed.

MUNITION PLANTS READY TO SUPPLY NEEDS OF COUNTRY

Washington, April 14.—Millions of shells—many times more than the navy needs—can be produced by the big munition plants of the United States, as shown by projectile bids made public today.

The navy asked estimates on a total of 1,678,000 projectiles of all sizes, of which 1,170,000 were one-pounders. Each of 11 companies out of 25 submitting figures offered to take up the entire order for the small shells while each of six companies offered to take up the entire order of 2 and 4-inch projectiles.

In brief, this means the navy could get millions of one-pounders and a stream of from 25,000 to 30,000 of the giant shells, a month after delivery began.

Among the typical large bidders were the Bridgeport Projectile company, the Bethlehem Steel company, Baldwin Locomotive company, Birmingham Machine & Foundry company, the Washington Steel & Ordnance company, the Worcester Manufacturing company, the Ingersoll-Rand company, and the Poole Engine & Machine company.

How to Get Rid of That Wrinkled, Aged, Careworn Look—Try This French Beauty Recipe Tonight

Renew the Glow of Youthful Freshness

With Creme Tokalon Roseated, Entirely Different from Any Other Cream—Opinions of Dr. Catrin, French Physician and Specialist, and Others Who Tell Why This Beauty Recipe Gives Such Surprising Results.

"No woman can be beautiful and have a complexion growing with girlish freshness unless she gives her skin an opportunity to act freely, and renew its youthful, flexible activity, which is exactly what is brought about by this truly wonderful beauty recipe," said Dr. Catrin, the eminent French physician and specialist, when we discussed in Paris the method that helped the writer win two international Beauty Prizes, one in Paris and the other in England.

When you see a woman past thirty with a clear, velvety complexion, showing no marks of age, you can be sure that she knows beauty secrets not possessed by the average person. She may have as much cause for looking old and careworn as anybody, yet she is able to go on year after year with never a sign of wrinkles or complexion blemishes, all the while preserving a fresh, youthful appearance. And there is really no reason why any woman between thirty and sixty should not look from five to fifteen years younger than she really is, by simply knowing the secret of just what to do. It makes no difference how many soaps, creams, lotions and other vaunted treatments you have tried without success. If your complexion is not clear, soft and velvety and practically free from any sign of wrinkles or blemishes, you owe it to yourself and to those who care most for you, to make the following test tonight: Look at your face in the mirror under a bright light and see if you have crow's feet or pouches around the eyes, deep lines or furrows in the forehead or about the mouth, sagging cheeks, enlarged pores, blackheads, or a coarse, sallow, mottled complexion. Then wash your face in clear, warm water and rub in a teaspoonful of Creme Tokalon Roseated, which is entirely different from any other cream. In the morning, wash the face with cold water and rub in more of the Roseated Cream, after which use a specially adherent, pure French face powder, like Poudre Petaliss or Poudre Fascination de Tokalon. You will be surprised at the instant

WHAT DOES YOUR HUSBAND THINK OF YOU NOW?

"If her face only looked Fresh and Youthful, more like it did when we were married—what a difference it would make!" This is the unspoken thought of your husband—perhaps YOURS.

If your skin is wrinkled, sallow or aged, if you have complexion blemishes, "crow's feet" or enlarged pores, you owe it to yourself—and to HIM—to try this French Recipe to-night and watch the glow of youthful freshness return to your face.

pressing almost immediately the improvement. Day by day, watch how the old, hardened, coarse, rough skin becomes new, fresh, soft and beautiful, due simply to the osmosis of the skin, produced by this method which helps it in the Right Way. But don't expect to accomplish this with creams, soaps or lotions containing a large amount of free alkali, as it is only a question of time when this will dry out the skin, relax the pores, destroy the delicate tissues and completely ruin the complexion. You must use a pure, neutral, specially prepared product, such as Creme Tokalon Roseated to rebuild the worn-out cells, so as to bring back a true, girlish freshness and glowing loveliness to the skin. If you have had wrinkles, get a box of Japanese Ice Pencils from your druggist and use them in connection with the cream, and you can get quick action on the deepest wrinkles, no matter of how long standing. For giving an indescribably beautiful effect to the neck and arms as well as sup-

NOTE: The above is one of a series of articles on beauty specially written by Mlle. Mareix of Paris, who after following the recipe given, won two great international beauty prizes. She is so positive that it will banish every complexion blemish and enable any woman between thirty and sixty to quickly make herself look from five to fifteen years younger, that she personally guarantees success in every case or will refund the amount paid for any product she recommends, provided you take your dealer's receipt at the time you make your purchase. Furthermore, she offers to furnish \$200.00 to any charitable institution if it can be shown that this method will not give most astonishing new beauty to wrinkled, care-worn, aged women in three days' time. Her American address is Simone Mareix, 20 West 22nd Street, New York. Creme Tokalon Roseated and the other articles mentioned can be obtained at small cost from Whitehead's, and Chas. L. Joy Co. or most any good druggist or department store.
