

REINSURANCE PLAN ARRANGED FOR THE STATE

Arrangement Shifts Responsibility From State to Insurance Companies for Bad Disasters.

Ninety Thousand Pieces of Mail Giving Instructions to Employers of Labor Sent Out by State Insurance Department.

C. O. Broxon, state insurance manager, today received telegraphic word that arrangements heretofore under consideration for the reinsurance of catastrophe risks carried by the state insurance fund have been consummated. The arrangements made shift the responsibility for losses that may occur from catastrophes such as that which occurred near Hailey last winter when 17 lives were lost from the state fund to the company which re-insures this risk.

"Employers of labor in Idaho are to be congratulated," said Mr. Broxon today in speaking of the message received, "that the legislature made provision not only whereby they may secure insurance against payment of compensation to their employees under the workmen's compensation law at actual cost without agents' expense and without profit, but whereby also reinsurance of the catastrophe loss may be secured. The arrangement will relieve the state insurance fund from any catastrophe losses above \$25,000 and up to \$250,000 that may occur in any given year and it thus makes of the state fund an insurance carrier safer in actual financial strength than any other insurance carrier doing business in the state, for other companies may incur catastrophe losses in any one of the forty or more states in which they do business, while the Idaho state fund can sustain such a loss in this state alone against which less it will now be re-insured."

SPEDY RESPONSE URGED.

The state insurance manager has just completed the mailing of some 90,000 pieces of mail matter to employers of labor throughout the state advising them of the steps necessary to be taken in order to protect themselves under the new workmen's compensation act. "This gives but a small idea of the volume of work necessary to be done in the organization of the new department," said Mr. Broxon, "and it is to be hoped employers will act speedily in response to the information thus sent them, inasmuch as it is still necessary to figure out the premium that must be paid by each employer, write receipt for remittance of this amount and fill out insurance policies for each of the 18,000 employers of labor in the state, all before midnight of the last day of next month. It will be physically impossible to do this unless employers are prompt in response to the information just sent out.

"The law does not require the department to solicit insurance from employers," continued Mr. Broxon, "but it places the burden upon them to secure it, or else to arrange for deposit of bond guaranteeing their ability to pay their own losses, but it has been deemed advisable to take every measure possible to give notice to such employers so that they may not become liable for the heavy penalties provided by the law for those who fail to act before Jan. 1 next."

OFFICER IN SIGNAL SERVICE WOUNDED

Washington, Nov. 1.—First Lieutenant Devere H. Harden, signal officer's reserve corps of the American expeditionary forces, suffered a shrapnel wound in the lower left leg on Oct. 28, General Pershing cabled the war department today. Private William J. Johnson, infantry, died Oct. 29, from natural causes.

Harden may have been the lieutenant reported to have been wounded in the first line trenches. Harden's mother is Mrs. Josephine Harden, Burlington, Vt.

RIOTERS SENTENCED BY FEDERAL COURT

Ardmore, Okla., Nov. 1.—Thirty anti-draft rioters, members of the working class union, pleaded guilty to charges of conspiracy to defeat the selective draft law and received sentences varying from 10 years to two weeks in federal court today.

Sentence will be passed on the remaining anti-draft rioters who pleaded guilty, at the next session of the federal court.

TORPEDO BOAT SUNK IN THE BLACK SEA

Petrograd, Nov. 1.—Sinking of a Turkish torpedo boat in the Black sea and burning of two steamers was announced officially today.

On the Riga front the war office said the enemy at some points was retiring to previously prepared positions.

Apparatus for automatically spraying oil from the bow of a vessel upon a rough sea has been invented in England.

GIRLS! MOISTEN A CLOTH AND DRAW IT THROUGH HAIR

It becomes beautifully soft, wavy, abundant and glossy at once.

Save your hair! All dandruff goes and hair stops coming out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshines are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustreous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine at any drug store or toilet counter and try it as directed.

Save your hair! Keep it looking charming and beautiful. You will say this was the best money you ever spent. —Adv.

NEW ENGINEER IS IN CHARGE STATE HIGHWAY OFFICE

Delayed in Arrival Allen Inspects North and South Highway—Booth's Resignation Effective Nov. 1.

Technically there is a new state highway engineer in charge of the state or Herman C. Allen, elected by the state commission at its last regular meeting in this city, but in reality State Highway Engineer Allen is not in Boise and will not be for a week. Accompanied by the former state highway engineer, W. T. Booth, he is touring the northern part of the state. He will come to Boise via the north and south highway, making the trip by automobile. Mr. Allen has been located at Wallace. He will make his future headquarters in Boise.

BOOTH TO JOIN COLORS.

When the commission was in session here last month, Mr. Booth presented his resignation because he intends to join the colors and will probably accompany an engineer corps to France in the distant future. Mr. Booth took the stand that he could not serve two masters and that as his country needed him and he is without immediate dependents, it was his duty to enlist. Some time ago he made application to join the engineers and within a short time he will be wearing the uniform of his country. He has agreed to lend the new state highway engineer every assistance that he can. His resignation was dated to take effect Nov. 1. As it was accepted, Mr. Allen is now state highway engineer having accepted the position offered him by the commission.

PLAN EXTENSIVE CAMPAIGN.

The state highway commission expects to carry on an extensive construction campaign next year, especially on the north and south highway which will be put in condition for travel and open up direct communications with northern Idaho. A number of the counties through which this road passes have already voted bonds to do their share of the work and to the

money they raise will be added state funds. The width of the highway has been materially reduced in order to lower the cost of construction. State Highway Engineer Allen will be given an opportunity to view the proposed route of this highway. With Mr. Booth he will arrive here over the north and south highway between Nov. 8 and 8.

BRITISH AND FRENCH REINFORCEMENTS FOR ITALIAN ARMY

Washington, Nov. 1.—British and French reinforcements have arrived at the Tagliamento front in Italy, Rome cables today stated. The allied troops were enthusiastically welcomed by the Italian populace and soldiers. The dispatches gave no indication of the strength or nature of the reinforcements.

Italian correspondents at the battle front were quoted as firmly of the belief that the invading Austro-German-Turkish-Bulgarian horde will be stopped.

NOW COMES HIGH COST OF NURSING

The Idaho State Association of Graduate Nurses has adopted a new schedule of prices which goes into effect today. The prices were agreed upon at a recent meeting of the association at which all nurses present agreed that the advance in charges was absolutely necessary. The schedule given out is as follows: General nursing, \$30 a week, \$4.50 a day; obstetrical cases, \$35 a week for first two weeks, after first two weeks \$30 a week, \$4.50 a day; communicable diseases (except typhoid), insane patients and alcoholics, \$40 a week, \$6 a day; waiting for obstetrical cases, if engaged for a definite date, \$20 a week, or \$4.50 a day. Where more than one patient is to be waited upon the regular rate will be charged for one patient and one-half the regular fee for each additional patient. Board, traveling expenses and cab hire are to be paid for by the patients.

A committee was appointed to assist the Idaho Women's national defense committee in making a survey of the nursing corps of the state. The committee is composed of Mrs. J. M. Taylor, Mrs. Blanche E. Kleinman, Mrs. Lulu Hall Lewis and Mrs. Ann Crowley Hunter of Pocatello.

NOTICE.

In the District Court of the Third Judicial District of the State of Idaho in and for Ada county.

In the matter of the petition of the Emmett Sheep company, for its voluntary dissolution.

To all those whom it may concern: On the first day of November, A. D. 1917, the Emmett Sheep company, by its attorneys, Martin & Cameron, whose offices are in the Boise City National Bank building, Boise, Idaho, by due and regular order of the above entitled court filed with the clerk of said court its application or petition for an order of said court dissolving the said Emmett Sheep company, a corporation; setting forth that at a meeting of the stockholders called for that purpose, the dissolution of the corporation was resolved upon by a two-thirds vote of all of the stockholders; that all claims and demands against the corporation have been satisfied and discharged; that the corporation desired to wind up its business; apportion its cash on hand among its stockholders and be lawfully dissolved.

Said application will come on to be heard before the above entitled court on the 10th day of December, A. D. 1917, at 10 o'clock in the forenoon, or as soon thereafter as counsel can be heard at the county court house in the court room thereof, in Boise, Ada county, Idaho, and any and all objections to said application, if any there be, will be heard by said court at the said time and place.

(SEAL) STEPHEN UTTER, Clerk.

By THOS. E. POWELL, Deputy.

Martin & Cameron, Boise City National Bank Bldg., Boise, Idaho, attorneys for Emmett Sheep company. —Adv-N30

TRAITOR SOUKHOMLIHOFF HEARS FORMER SUBORDINATE TESTIFY AGAINST HIM AT TRIAL IN RUSSIAN CAPITAL

This unusual snapshot was taken at the trial of General Soukhomlinoff, former minister of war of Russia, who was sentenced to life at penal servitude, and his wife, who was acquitted. In the witness dock, in center, General Yaushekkevitch, former chief-of-staff, is shown testifying, and on the extreme right General Soukhomlinoff, with hand to ear, is listening intently to the testimony of his former subordinate.

office in Room 8 of Dewey & Seales Building, Nampa, Idaho.

The assessments for the above year include a maintenance tax of \$2.44 and a bond interest tax of \$1.36 per miners' inch where the land has a Ridenbaugh water right, a drainage tax of 14 cents per acre on each acre having a Ridenbaugh, Settlers or New York water right of 1/2 of a miners' inch per acre or more, a storage water tax of 40 cents per acre-foot on land having a storage water right from Arrowrock reservoir and a United States construction charge of \$1.40 per acre on

all lands within the district having an old water right of less than 1/2 of an inch per acre.

The above taxes will become delinquent, Nov. 26, 1917 at which time a penalty of 10 per cent will be added, provided however, that if one-half of said taxes are paid on or before said date the remaining one-half will not become delinquent until June 17, 1918. This provision applies to all taxes except the United States construction charge which must be paid in full on or before Nov. 26, 1917.

Dated Nov. 1, 1917.
GEORGE H. MOORE, Treasurer.

WIRELESS OPERATORS IN DEMAND.

The great demand for wireless operators, due to war conditions, has caused the Y. M. C. A. Wireless School of Los Angeles, to call an expert to prepare the men for this service.

Thomas A. Churchill, Jr., is the man selected to give this instruction. He served for nearly two years on the S. S. Mongolia, plying between the United States and England, through the perilous war zone, with a cargo of 5000 tons of explosives. This ship was recently sunk by a hostile mine. Churchill himself graduated from the Y. M. C. A. wireless school before go-

ing into service. Since last June he has supplied 50 graduate operators for the naval and merchant marine wireless service. New students from all parts of the country are entering the Los Angeles school and every one who completes the course is assured of a position at an attractive salary. N1
