

WAR BOARD TO DIRECT FIGHTING IN THE FUTURE

Representatives of the Allies to Sit at Paris and Formulate All the War Plans.

Radical Change in Methods to Be Brought About at the Coming Paris Conference—America's Part in the War to Be Discussed.

Washington, Nov. 8.—American participation in the Paris inter-allied conference beginning Nov. 15 means a complete change in the method of war direction, officials here were convinced today.

That a central war board to sit in France, hub of the allied war zone, will spring from the conference, is confidently believed.

Besides future war moves on the western front the conference will also consider the situation in Italy. Russia and Greece will receive from the American delegates full information regarding this country's resources. Some statement of allied war aims may be formulated to combat the German peace movement. President Wilson favors immediate and greater centralization of the war administration. Confused interests arising from lack of proper co-ordination have added months to the war. America's hands off policy with regard to European politics and selfish demands of the various allies have added to unfortunate conditions and delays.

DEFINE AMERICA'S PART.

Grim necessity, however, has forced a change and America in the future, will not be bound by any alliance with her co-belligerents, will work in closer union toward a more rapid overthrow of German militarism. America's part in the general program will be clearly defined at the conference, so this government can swing its full power into the most direct lines. Vagueness in the minds of allied leaders concerning the degree of America's preparedness will be cleared up.

The aid of the United States will be sought particularly by Italy and Russia. Plans for a counter-offensive to drive the Teutons from Italian soil will be laid. American aid in this direction will again bring to the fore the anomaly of Austria and the United States with no declaration of war fighting each other.

RUSSIAN SITUATION.

The Russian situation will be thoroughly probed at the conference. Allied aid in money and supplies, reconstruction of Russia's transport and plans for a resumption of the slave military activity at the earliest possible date will be discussed.

Greece, threatened with a Teutonic invasion and declining to mobilize fully until the allies pledged all necessary aid, will receive attention in the conference. The United States, still on friendly terms with Bulgaria, may be asked to aid Greece attack the Bulgarians in Macedonia in an attempt to cut the Berlin-Constantinople railroad. This is another of the delicate questions confronting Colonel House, head of the American delegation.

JACKRABBITS NOW A WAR DELICACY

Oakley, Kan., Nov. 8.—The despised Kansas jack rabbit is coming into his own. For years the lone careerist of the plains has been considered a pest almost equal to the coyote, to be killed and let lie. A Kansan would never think of eating a jack rabbit. But last winter food profiteers from the cities began casting for new fields and hit upon the jack rabbit. They shipped out frozen rabbits by the trainload and marketed them in New York at a good price.

In western Kansas the jack rabbit is a pest. He ruins young orchards, eats alfalfa and generally overruns the country. To combat the plague nearly every county holds "round-ups." On an appointed day hunters form in a huge hollow square and slowly converge, driving the rabbits before them. When the "jacks" begin to try breaking through the lines they are clubbed to death. It is not uncommon for thousands of rabbits to be killed in a single round-up.

Until last winter the carcasses had always been left where the rabbits were killed. Last season, however, the profiteers began buying rabbits and shipping them to eastern markets in refrigerator cars. Kansans who visited New York cafes were surprised to see the same old jack rabbits they had turned up in their noses at all their lives served as "hares" and bringing an astounding price.

This winter the shipping of rabbits will be more extensive than ever. Already buyers are arranging big hunts and preparing to start shipping. Beds, baskets, trays, fancy China, pictures, scarfs and moccasins at Schackner's Art and Gift Shop. Picture missing.

FORMER MAYOR OF SAN FRANCISCO IN CITY HALL AGAIN

San Francisco, Nov. 8.—The years dropped today from the shoulders of Eugene Schmitz, former "fiddling mayor" of San Francisco, as he stepped into the city hall, a member of the city's official family again. Instead of the cold shoulder, which had greeted him at the city hall for years, he was welcomed by politicians, following his election as a city supervisor.

Schmitz had "come back." To newspaper men today he readily discussed his plans. "I have been fighting for 10 years to come back," he said. "Now that I have succeeded I am going to demonstrate to the people that I merit their confidence. I am going to forget the past and to profit by the lessons of experience."

"I shall bury the enmities and bitterness of the struggle of other years. The slate will be wiped clean. This new service I hope to make merely the beginning of my political career, as a stepping stone to the high position I once occupied in the city's affairs. I hope to occupy that place again in order to prove to the people that I am worthy."

That is why I am in politics again. That is why I wanted to come back." Schmitz was removed from the mayor's office 10 years ago during the sensational graft trials here. He had been indicted on charges of accepting a bribe, but the indictments were later quashed.

BOGUS INSPECTORS CARRY FOOD FROM HOMES IN ILLINOIS

Chicago, Nov. 8.—German propaganda thrust its way into Illinois homes today in an attempt to obstruct the food conservation campaign.

"Food administration inspectors" demanded admittance to scores of homes throughout Chicago and the state, inspecting, canned products, and threatening that the government intended to tax all canned goods, according to complaints registered with the food administrator here. In many cases the bogus inspectors carried away more than half of the supply of canned goods.

Federal investigators expect to make arrests.

Registration of women for war work will continue another week in Illinois.

This was decided upon by the women's committee when it was found the registration could not be completed by Saturday. In the first three days of the campaign more than 60,000 women volunteered for war service. The committee believes at least 200,000 registrations will result from the time extension.

TAMMANY LEADERS SHOW INTEREST IN CUTTING THE PIE

New York, Nov. 8.—Tammany adherents were keenly interested today in the apportionment of municipal jobs which will come when the Mitchell administration retires Jan. 1. Charles F. Murphy is scheduled to take a rest at French Lick Springs, Ind., within a few days and many believe the distribution of plums among the faithful will be decided when he confers with his leaders there. It was reported today that Police Commissioner Arthur Woods might be asked to remain on the job under the Tammany regime. However, T. F. McAvoy, former police inspector, now Tammany leader, is understood to be strongly favored by Murphy as head of the police department.

CONSERVATION OF CLOTHING SHOCKS THE CHURCH WOMEN

Chicago, Nov. 8.—Gertie Hoffman's efforts to conserve clothing are not appreciated by the Women's Church Federation of Chicago.

A delegation from that organization told Major Funkhouser, moral censor, that Gertie's dancing, an "natural" "stocking" and "hammock." They described her as "hude below the thighs." The major gave a look at Gertie's—what the delegation said—and passed the buck to Police Chief Schuetzler. "I can't be expected to dance the 'spring song' in overalls," sighed Gertie.

HAIG'S REPORT

London, Nov. 8.—A successful raid southeast of Armentieres and repulse of two enemy attempts to enter British lines north of Roeux were reported in today's official statement. The Armentieres raid was carried out by Welsh soldiers at night. Fourteen Germans were captured and other losses inflicted on the enemy. The British raiders suffered light losses. In repulsing the German raid around Roeux a few Germans were captured.

CHEMIST WANTS JOHN D. TO SAVE ON GAS BILLS

Cleveland, Nov. 7.—When H. W. Orndorf, Cleveland chemist concocted a chemical which he says will make flivvering cheaper by prolonging the life of gasoline as well as that of the flivverist's pocket book, he sent the first sample to John D. Rockefeller with the suggestion that John D. use it in his car and save on his gasoline bills. Orndorf has not heard from John D. but he says the chemical is being used successfully in French airplane engines on the western front.

KNITTING DURING CHURCH ENCOURAGED BY MINISTER.

Denver, Colo., Nov. 8.—The Sunday morning sermon of Rev. L. B. Longacre, local Congregational minister, is now accompanied by the merry clicking of a hundred pairs of knitting needles. Women of his congregation unwilling to leave off their knitting of sleeveless sweaters and other comforts for permission to knit during the service. He not only agreed, but assisted them to recruit members for the Sunday morning knitting class.

BIG GUNS ON TAGLIAMENTO BLOCK TEUTON ADVANCE

Big Italian guns drawn up on the western bank of the Tagliamento river. Map shows (1) extent of Austro-German advance, (2) the new Italian defensive line on the Tagliamento, and (3) the Piave river, to which line the Italians may soon retire.

While the strong Italian defensive line on the western bank of the Tagliamento river is temporarily holding the Austro-German armies in check, it is stated in Rome dispatches that General Cadorna may soon retire to the western bank of the Piave river for the great battle that is impending.

The Piave river is thirty miles west of the Tagliamento. On this line, powerfully fortified and immeasurably more favorable to a permanent defensive, military experts believe the Italian armies would be able to cope both the Teuton forces now pursuing them and with any possible thrust from the Trentino.

It is considered likely that Mackensen's second effort—that against the Tagliamento line—will be like the first, a flanking movement for which the Italian defenses of the new line are not entirely prepared.

RED CROSS ACTIVE AT MOUNTAIN HOME

Mountain Home, Nov. 8.—The Mountain Home auxiliary of the Red Cross society is a very enthusiastic and thriving organization as is shown by its activities during the past week. Under the competent supervision of Mrs. J. W. Caldwell, the president, the work of sewing on various Red Cross garments has been proceeding with astonishing rapidity. The chapter has fitted two large and comfortable rooms on the second floor of the new Elmore county courthouse for sewing and cutting rooms and every day finds these filled with earnest workers for the cause of humanity. The past week was interesting in that the various religious and secular organizations took charge of the work on different days. On Monday, members of the Congressional Ladies' Aid were in attendance, Tuesday the Eastern Star, Wednesday the Pythian Sisters and Baptist Ladies' Aid, Friday Methodist Episcopal, while Thursdays and Saturdays are taken up by the cutting committee.

The donations to the work have been generous and among them was the gift of a lamb by Mrs. May Larsen, of Bennett and a large table cover by E. P. Goddard of this place. The lamb and table cover have been disposed of to the value of \$140 and this amount is to be used for Christmas gifts for the soldiers. Another exceptional gift to the chapter was a 165 pound bale of lamb's wool which was presented by Whitson Bros., of Mountain Home. Mountain Home auxiliary is proud to state that while the allotment was 100 Christmas packages for the soldiers, there were furnished 120. Thirty of these kits were sent from Glenns Ferry and 10 from Brunau. Chattin Flats has signified its desire to organize an auxiliary and will probably soon do so.

NO REPORT

(Continued from page one.)

peace and immediate distribution of land to the peasants. The Bolshevik manifesto summons at once a constituent assembly to administer Russia. Dispatches revealed that the Maximalists and the Bolshevik local soviet of the workmen and soldiers committee in Petrograd had armed their followers and that these armed men had seized the telegraph offices, the Marle palace, the state bank and, according to a dispatch received here at 10 a. m. today, the Baltic railway station.

EVERY COUNTY IN NEW MEXICO VOTES FOR PROHIBITION

Santa Fe, N. M., Nov. 8.—With no returns received from six counties, the state-wide prohibition amendment early today had a favorable majority of 15,874 votes, based on semi-official returns from the other 22 counties. So far every county reporting shows a majority of from 300 to 1300 votes for the amendment, and dry leaders, basing estimates on these returns, claim a victory by a majority of 15,000 to 18,000. The official returns probably will not be tabulated for several days because of poor communication with some isolated counties.

NEW GARAGE FOR PAYETTE.

Payette, Nov. 8.—Lou Adams of Ontario has just purchased two lots adjoining a lot he already owned on Main street just south of the First National bank. Mr. Adams will at once begin the construction of a fine new garage to be occupied by O. A. Walling of the Payette Modern garage. Mr. Walling has gone to Portland to purchase the equipment for the new building.

SUFFRAGET LEADERS WILL NOT WORRY WILSON AGAIN FOR A WHILE

In their prison garb. Left to right: Mrs. Doris Stevens, Mrs. J. A. H. Hopkins and Mrs. John Winter Brannan.

Suffraget leaders who picketed the White House and carried banners encouraging secession will not worry President Wilson again for a while. They have been put in jail at Occoquan, Va. Three of the more prominent of these suffragets are here shown in prison garb. Miss Stevens is organization secretary of the National Woman's party; Mrs. Hopkins is the party's New Jersey state chairman, and Mrs. Brannan is a daughter of Charles A. Dana, famous editor of the old New York Sun.

OHIO DRIES

(Continued from Page One.)

and correct final, official count which will be necessary before the result can be positively known. Wet headquarters at Cincinnati at noon announced that another mistake had been discovered in Hamilton, giving 864 more votes to the wets. If this claim is sustained by the official count the wet will have a net gain of 1,728 votes, wiping out the dry majority shown in the Columbus Citizens' tabulation.

FUSION PLANNED TO OVERCOME VOTE OF THE PRO-GERMANS

Chicago, Nov. 8.—Politicians today read between the lines of Tuesday's election in Chicago a rising menace from the Socialist and pro-German vote.

The result was that Roger Sullivan, big Democratic leader and other minor politicians came out openly today in favor of the Republican and Democratic parties fusing during the war. Sullivan proposed that Illinois Republicans and Democrats agree on loyalty candidates for United States senator and mayor of Chicago.

It is certain that the Socialists will have a candidate for both places and that all the pro-German elements will join the Socialists. Examination of Tuesday's Chicago vote showed that the Socialists polled practically one-third of the total cast. Had it not been for the Republican-Democratic fusion, some of the Socialists would probably have been elected. Over 250,000 voters did not go to the polls, in spite of the fact that the press of Chicago was united in appeals to voters to down the pro-German vote. Sullivan advocated this fusion movement for the nation at large as well as Chicago and Illinois.

WOMEN PREPARING CHRISTMAS PACKETS FOR THE SOLDIERS

New York, Nov. 8.—American women in every city and town of the nation are working today preparing 1,750,000 Christmas packets for Uncle Sam's fighting men on land and sea.

The work is being done under supervision of the Red Cross. These packets are in addition to the gifts which friends and relatives of American soldiers and sailors will send them. The Red Cross intends to have a Christmas package for every man in the service, to greet him when he answers reveille on December 25. Each assortment of presents is wrapped in a khaki handkerchief, tied with red ribbons.

Here are some of the things the boys will get: All sorts of writing materials, paper covered books, home made scrap books, knives, steel mirrors, mouth organs, checker boards, electric torches, compasses, cards and other things including "catch the Kaiser" smokes, gum, cakes, candy and all sorts of preserved fruits.

SUFFRAGISTS TO MOVE ON CAPITAL

New York, Nov. 8.—With "On to Washington" their slogan, New York suffragists, still jubilant over their victory in this state today, prepared to transfer their base of operations to the national capital.

Mrs. Carrie Chapman Catt and Dr. Anna Howard Shaw were named as a committee to call on President Wilson and urge him to include suffrage in his recommendations to the next congress. The same energy that swung New York into the votes for women's column will be used to line up congress for the Susan B. Anthony amendment.

The suffragists celebrated their victory at Cooper Union in the biggest rally ever seen there.

U S SOLDIER KILLED.

Houston, Tex., Nov. 8.—Captain Oscar Hogstedt, LaGrange, Ill., stationed at Camp Logan, in command of company D, 132nd infantry, was accidentally killed at South Lake yesterday. It became known today when soldiers stumbled over his body. Captain Hogstedt's company was doing guard duty in the oil strike zone when the accident occurred. Soldiers recalled today that an automatic shotgun was accidentally discharged when one private handed it to another. This charge is believed to have sent Hogstedt to his death.

Instant Bunion Relief Guaranteed — or Not a Cent's Charge

You need not suffer bunion torture an hour longer. No matter how large or painful your bunions they disappear like magic. You can really enjoy walking once more. Ladies can wear their natural, small size shoes without discomfort—don't cut holes in your shoes and use old fashioned cotton or felt pads, washers and steel contraptions. "Bunion Comfort" is the common sense logical remedy for bunions. It absorbs and draws out the inflammation, softens and dissolves the accumulated layers of cartilage which really make the bunion, thus reducing the enlargement and restoring the deformed foot to its healthy normal size. Get a Box of "Bunion Comfort" Today. Write for it now. It's the only reliable, accurate market report and price list of its kind published. Write for it now. It's the only reliable, accurate market report and price list of its kind published. Whitehead's Drug Store, 813 Main St., Boise, Idaho.

TRAPPERS

Get "MORE MONEY" Ship Your FURS TO "SHUBERT"

The largest fur store in the world dealing exclusively in NORTH AMERICAN RAW FURS. Reliable—responsible—safe. Fur House with an unblemished reputation existing for more than a third of a century. NO LIBERTY LOAN NEEDED IN JANUARY

Washington, Nov. 8.—More than 50 per cent over-subscribed, the second liberty loan was even a greater success than the first. Announcing this result and congratulating the American people, Secretary McAdoo said today, that now it will not be necessary to ask for another issue in January. Not only was the greatest government loan in history successfully floated, but the question "are the people behind the war?" was answered by 9,400,000 individual subscriptions. Of course, 99 per cent were in amounts less than \$50.00. Total subscriptions were \$4,617,532,300, of which \$3,808,766,150 will be allotted. McAdoo announced that all bonds subscribed up to \$50,000 would be allotted in full; from \$50,000 to \$100,000, 99 per cent; from \$100,000 to \$200,000, 75 per cent; \$200,000 to \$1,000,000, 60 per cent; \$1,000,000 to \$5,000,000, 50 per cent; \$5,000,000 to \$50,000,000, 41.20 per cent, and up to \$50,000,000, 40.8 per cent.

PURCHASING AGENT WILL SAVE ALLIES MILLIONS ANNUALLY

Chicago, Nov. 8.—Joseph P. Cotton, head of the new committee of the federal food administration, will save the allies millions of dollars annually. This was the belief here today when he actively assumed the position of purchasing agent for the entente. Competition of purchasing agents of foreign governments, resulting in bulging the market and excessive prices will be eliminated. The allied governments no longer will be in the hands of speculators and traffickers, officials pointed out. While Cotton may not be able to lower prices for the American consumer, the saving to Europeans will be enormous. He intends to use substitutes in many cases, filling many meat orders with dairy products.

MINNESOTA TOWN TO BE SACRIFICED TO GET VALUABLE ORE

Hibbing, Minn., Nov. 8.—This thriving village must be sacrificed to Mars. Answering the world-wide clamor for steel, mining companies here will soon begin on a 40-acre tract in the heart of the village to get to the most valuable iron ore in this vicinity. A dozen city blocks, including the city hall, and practically all stores and offices, will be razed. The business center of Hibbing will be removed to Alice, Minn., a suburb. Though the moving will cost millions, the new land will be the most productive of the entire Minnesota range country mining men declare.
