M'CARTY ARRESTED; FIGHTS OFFICERS ALL WAY TO JAIL

Nampa, Nov. 8.—After a thorough search of every section of the city, Constable Lee Cox and Night Policeman Sam Hughart located Tim McCarty, of Meridian, charged with having committed a worthless check in this city and with having stolen two cows from a farmer of a surrounding community. McCarty made a dash for liberty and escaped from the officers earlier in the evening at the Gem State garage. On being recaptured he fought the officers all the way to jail. Upon reaching the city jail, the officers locked their prisoner in a cell, but within a short time he had secured a chair and with terrific blows succeeded in breaking the windows of the cell. He was then placed in an interior cage, where Police Judge Dan Hobart found this morning upon his arrival at his office that he had set fire to the blankets of the bed he had been given for the night. The fire broke out at 11 o'clock and early this forenoon McCarty was taken to the county jail at Caldwell by Deputy Sheriff Hugh Nichols for safe keeping. A man who was in the crowd which had followed the officers to the jail with McCarty began to criticize the officers for having struck McCarty, which they declare they were compelled to do, and he was also locked up. Two hours later it was learned that this man was a soldier and he was surrendered to his captain by Chief of Police Maloney.

Iron is the Greatest of all Strength Builders, Says Doctor

A Secret of the Great Endurance and Powers of Athletes.

Ordinary Nuxated Iron Will Make Delicate, Nervous, Run-down People 100 Per Cent Stronger in Two Weeks' Time in Many Cases. NEW YORK, N. Y.—Most people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions, when, as a matter of fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong but they can't tell what, so they generally commence doctoring for stomach, liver and kidney troubles or symptoms of some other ailment caused by lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were sipping all the while double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles.
