

SURVEY PARTIES COMPLETE WORK IN THIS SECTION

Examined Lands Applied for Under Provisions of 320 and 640 Enlarged Homestead Law.

The land classification parties employed by the United States geological survey which have had their local field headquarters at Boise for the past several months have completed their assignments and are removing to southern areas in order to be able to continue field work throughout the winter months.

Speaking of the work of the parties and the geological survey Joseph A. Brinkley under whose direction it has been carried on said:

"The classification pertains to examinations of land applied for under the provisions of the 320 and 640 enlarged and stock-raising homestead laws. In Idaho practically all applications from the Snake river on the south and west to the Weiser, Payette and Boise national forests on the north, and east to the Boise-Hailey land district boundary, have been covered and in addition a large number of applications in the vicinity of Silver City. In Oregon applications in about 50 townships included between township 12-17 south, and from range 37 east, to the Snake river, all north, south and west of Huntington have been examined. Two of the parties have departed to southwest Utah where they will be assigned to the same kind of work and the remainder are removing to California with myself, where we will be augmented by additional men and work south of Sacramento. Our local field headquarters will be at Fresno."

AMUSEMENTS.

MAJESTIC.

"The Barrier" closes at the Majestic theater tonight. It is unquestionably the greatest work of the famous Rex Beach and is filled with a tale that thrills and thrills one with the feeling of the great northland, with the liberty of God's country. Action moves swiftly and convincingly and the cast is made up of a select list of performers. Coming tomorrow is "The Witching Hour," taken from the famous stage success, with its original cast of players. Coming Sunday is Marguerite Clark in her latest film production, "Bab's Burglar," taken from the Sub-deb series. This is the second of Miss Clark's sub-deb features, and for them to be produced as she is producing them has been considered by the press and public a big achievement.

STRAND.

Opening at the Strand today is Pauline Frederick in her new play, "The Hungry Heart," by David Graham Phillips. The story is famous as the master work of this eminent author, and will be famed again as one of Miss Frederick's best screen features. On the same program with the foregoing is a Senaett comedy from the new Senaett studios entitled, "Are Waitresses Safe." It features Louise Fazenda and Ben Turpin, both well known comedy makers. A Pathe News closes the show.

1315.

Two acts of vandalism and a musical drama are on the bill today and

Uric Acid Poisoning!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric — which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric at any drug store and get relief from the pains and ills brought about by uric acid; or send Dr. Pierce 10c. for trial package Anuric—many times more potent than lithia, eliminate uric acid as hot water melts sugar. A short trial will convince you.

NEIGHBORHOOD GOSSIP.

Moscow, Idaho.—"I was in a badly run-down condition. Had no appetite, blood was bad, causing eruptions and pimples, and I had a sharp pain over my heart and a dragging, tired feeling. I tried a number of doctors without receiving any benefit. I then began taking Dr. Pierce's Golden Medical Discovery. Before I had used half a bottle I noticed improvement and when I had taken three bottles I was entirely cured, and have been in good health ever since."—Mrs. N. Funston, 131 N. Jackson.

the balance of the week at the Isis theater. The Irish comedy team of Leon and Clifton is one of the big time favorite teams of the year. Leo Lefferts booked as comedy star case gymnasts present an unusual novelty act. Coming Sunday is the "Battle of Gettysburg," one of the greatest war features of the year.

WEATHER CONDITIONS OVER THE COUNTRY

An important low pressure area is central over the lower Lake region, covering the eastern half of the continent. High pressure continues over the west, the highest readings being in northern Utah. Precipitation has occurred in northwestern Washington and from Iowa eastward to New England and southward to Tennessee. The temperature is much lower in the northern plains region and the upper Mississippi valley, and is generally higher in the east and south. Fair weather may be expected in Boise and its vicinity tonight and Friday.

Boston, 38; Calgary, 34; Chicago, 38; Denver, 36; Helena, 40; Kansas City, 48; Los Angeles, 60; St. Paul, 28; New Orleans, 54; New York, 42; Pocatello, 30; Portland, 52; St. Louis, 46; Salt Lake City, 22; San Francisco, 54; Seattle, 50; Washington, 45.

SHIPPER'S FORECAST.

Protect shipments during the next 26 hours against the following minimum temperatures: going west to Baker, 28 degrees; east to Pocatello, 28 degrees. Minimum temperature at Boise tomorrow about 30 degrees.

BOND ISSUE DEFEATED.

Hailey, Nov. 22.—At the election held Tuesday for purpose of deciding whether or not the city of Hailey would issue a \$100,000 bonds for installing an electric power, light and water system, the proposition of issuing bonds in the sum of \$100,000 was defeated by a vote of 141 to 62.

ROSEBERRY HAD THE FIRST RURAL HIGH SCHOOL IN STATE

Still in Operation With 28 Pupils in Attendance—Flour Mill to Be Operated Rest of Season.

Roseberry, Nov. 22.—Roseberry has the distinction of building the first rural high school in the state. The school is still in operation and the people here take much pride in it. There are three teachers for the 28 pupils in attendance. There will be an addition to the high school of two rooms for the grades. These two rooms also will be fully equipped for the study of manual training and domestic science.

Beginning next week the Roseberry flour mill will be placed in operation for the balance of the fall and winter. The wheat crop in the territory between Roseberry, Donnelly and Payette lake this year went from 20 to 30 bushels per acre. At present prices this means that the wheat farmer here are getting bigger returns this year than ever before.

A large acreage of fall wheat is sown throughout Long valley for next year's crop.

SOLD \$30,000 WORTH OF HAY.

Fifteen hundred tons of baled timothy hay have already been shipped from the Roseberry and Donnelly districts to the Portland market at \$20 per ton f. o. b. Donnelly. Hay here averaged 1 1/2 tons per acre this year. This means \$30 worth of hay this year on land that can be bought from \$40 to \$50 per acre.

The average yield of timothy seed this year is about 400 pounds per acre, and the rice being paid is seven cents

Tells How to Stop a Bad Cough

Surprising results from this home-made syrup. Ready prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help, just try this pleasant tasting home-made cough remedy. Any drug-gist can supply you with 2 1/2 ounces of Pinex (60 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Thus prepared, you have a pint of really remarkable cough remedy—one that can be depended upon to give quick and lasting relief at all times.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is noted for its speed in overcoming severe coughs, throat and chest colds. Its millions of enthusiastic users have made it famous the world over.

There are many worthless imitations of this noted mixture. To avoid disappointment, ask for "2 1/2 ounce of Pinex" with full directions and don't accept anything else. A guarantee of solute satisfaction or money promptly refunded, goes with this preparation.

REAL ESTATE ACTIVE.

There is more real estate activity in Long valley this fall than any time in several years. One of the most recent deals was the sale of 320 acres eight miles northwest of here to Fair-brother & Newhouse for \$12,800 or \$40 per acre.

Fred Lechty and Thomas Eld together have 80 acres of timothy from which they sold \$2300 worth of seed this year at Donnelly, an average of \$28.75 per acre.

GREAT WHEAT YIELD IN THE LONG VALLEY

Smith's Ferry, Nov. 22.—S. L. Cantrel, one of the operators county commission, who operates a threshing machine each season, reports that wheat in Long valley yielded as high as 48 bushels per acre this year. The average is about 25 bushels per acre. And the average oat yield is about 25 bushels per acre.

Peter Nees sold 26 heads of cabbage per acre this year by Mr. Cantrel. Mr. Nees got 240 bushels of wheat from five acres, or 48 bushels per acre.

John Knox had the biggest yield

CABBAGE WEIGHS 27 POUNDS.

Cabbage, rutabagas, potatoes, etc., grow to perfection in Long valley.

After Nees sold 26 heads of cabbage in Cascade that weighed 500 pounds, or a little over 19 pounds each. He grew one cabbage this year that weighed 27 pounds.

S. L. Cantrel got two tons of rutabagas from six rows that were 60 yards long.

IMMENSE AMOUNT OF TIMBER BEING CUT

Cascade, Nov. 22.—The Citizens Lumber company of Emmett which R. E. Shaw is the manager, by next spring will have cut 2,200,000 feet of lumber at the company's camp three miles north of Cascade. Six hundred thousand feet of lumber has already been cut, and 1,600,000 feet are yet to be cut. A crew of eight men with John Salskov of Emmett as foreman, are at work in this camp.

About 250 men are at work in the logging camps here operated by the Boise-Payette Lumber company. All the logs from these camps are hauled by train to Emmett where they are

converted into lumber in the company's great sawmill.

Cascade is building an eight-room schoolhouse at a cost of \$20,000. The foundation is now in. It will be a one-story brick with full basement and will be strictly modern. There will be four class rooms on the main floor and four rooms in the basement. The basement rooms will be used for the following purposes: One room for domestic science, one for manual training, one for girls' play room and one for boys playroom.

Cascade is rapidly developing into a modern town. Twenty-one thousand dollars in water and sewer bonds have been voted. Contracts will be let in the near future.

BAN ON RAILROAD STRIKES PROPOSED BY THE PRESIDENT

Washington, Nov. 22.—A ban on railroad strikes during the war is the end sought by President Wilson at the conference with the heads of the four big railway brotherhoods here this afternoon of wage arbitration through a permanent commission was anticipated. Otherwise, the president is ready to carry out his threat to use "un-

usual methods" to prevent paralysis of war transportation.

A government dictatorship over the railroads is a possibility, should the brotherhoods reject the president's plans. The railroads would not oppose government control, with a dividend guarantee, such as England adopted for the war.

SURPLUS FOR GOVERNMENT.

Shipping interests in their closing brief, filed today with the Interstate commerce commission, said such a scheme would furnish the government hundreds of millions of dollars surplus annually. Clifford Thorne, for the shippers, pleaded for standardization and centralization of the carriers in the government's hands.

The president is expected to sound the brotherhood leaders on these general proposals, as well as on their wage demands. He is understood to be planning extensive treatment of war time transportation problems in his coming message to congress.

Official circles displayed intense interest in this afternoon's conference at the White House. A number of railroad presidents and managers in the city held themselves in readiness for a call from the president in case he desired further presentation of both sides.
