

DEPORT ALIENS WHO CLAIMED EXEMPTION SAYS G. E. ATWATER

Chairman of County Draft Board Says They Will Not Make Good Citizens—Seattle Board Hold Same View.

George E. Atwater, chairman of the Ada county draft board, is out after the scalp of conscientious objectors and that class of aliens, both declarants and non-declarants, who claimed exemption and remained on good jobs on the mere excuse of non-citizenship.

"Such men are not good citizens of the United States and should be sent back to the countries from whence they came, and it should be made blameworthy for conscientious objectors to find a job in this country as long as there is a soldier boy out of employment," said Mr. Atwater.

He announced that he was not alone in the movement as the local draft board of Seattle had taken the same view of handling the declarants and non-declarants who claimed exemption as was shown by a letter he received from them and of which he had made copies and sent to Idaho's senators and congressmen. The letter says in part: "LETTER FROM SEATTLE BOARD

"At a recent meeting of members of all local boards of Seattle, Washington, a resolution was unanimously adopted to initiate a nation-wide movement having for its purpose the deportation of all aliens, both declarants and non-declarants, who had claimed exemption from military service on the mere ground of non-citizenship.

"The exemption of aliens was the most exasperating experience of the boards. The action of such aliens was cowardly, disgraceful and unpatriotic. Every such person immediately branded himself as a dangerous and undesirable resident of this country nurtured and protected these ingrates. At the very first test, when this nation faced a crisis, these men were not willing to bear any burdens. For every alien so exempted a good American boy had to go to the front. These aliens remained at home in ease and safety.

"They still retain good jobs to the exclusion of our returned soldiers.

"Many organizations seem to center all their attention on the aliens who surrendered their papers. You, as a member of a draft board, can see no difference between the alien who has surrendered his first papers and a non-declarant claiming exemption—both of them are the same kind of parasites. A man not willing to fight certainly would not make a desirable citizen. If congress is so intent upon deporting only the alien who surrendered his first papers, then at least congress should by statute make it impossible for the non-declarant alien who claims exemption to be naturalized.

"Congress is now considering a bill to restrict immigration. We believe boards should urge congress to prohibit all general immigration for at least a period of years.

"The combined influence of draft boards upon the question of deporting aliens and upon immigration laws would be tremendous. We suggest and urge that you immediately write to each congressman and senator from your state. Get every patriotic and fraternal organization to do likewise. The legislatures of many states are now meeting; concerted action should be brought to bear to memorialize congress along these same lines. Get the newspapers started—do anything honorable to break into print and to keep the agitation growing."

Professor Centre has begun a course on American literature and civilization at the Sorbonne. This course was recently created by the French minister of public instruction and the University of Paris. The public is admitted to the lecture hall.

THOUSANDS HAVE KIDNEY TROUBLE AND NEVER SUSPECT IT

APPLICANTS FOR INSURANCE OFTEN REJECTED.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure to mention the Boise Daily Capital News.—Adv.

Private Michael Who Met Death in Auto Accident Jan. 14 Was Member of First Christian Church.

Mrs. Abraham Isaac of 1317 North Twenty-second street, has received official notice from the war department that her son, Private Ralph Raymond Michael, was killed January 14 in a motor truck accident in France. The sad news came Saturday. Tuesday in Paris just two days before his tragic death in which he stated he was seeing the sights of Paris and recuperating nicely from a wound and from being gassed and would soon be back in his regiment on duty.

Private Michael was a member of Company H, 132th Infantry. He was well known in Boise and vicinity, having lived here for 12 years prior to being drafted into the service at Caldwell, having been working near that city when the call came for registration.

His death will cause another golden star to be added to the service flag at the First Christian church as he had been a member for a number of years. Private Michael was 26 years of age and followed farming as his vocation. He was an active social worker and time and again took the responsibility upon himself to aid young people who had gone astray and help them back on the right path. His conscientious Christian work, his cheery disposition, and his many ways made him a strong favorite and he numbered his friends by the score. Physically Private Michael's was a fine specimen of manhood. He stood over six feet in height, had a well knit frame, springy step and his appearance was such as to attract attention.

Mrs. Isaac is heartbroken over the sad news as she had begun to lay plans for the home coming of her son and in his last letter he spoke of the possibility of his early return home.

4000 ROYAL ARMY SERVICE CORPS MEMBERS QUIT JOBS

London, Feb. 5.—Four thousand members of the royal army service corps, employed in three London depots, refused duty today, claiming the work should be done by civilian labor under union conditions. Most of them were engaged in mechanical repairing.

DEBATE EMINENT DOMAIN MEASURE

Senate Discusses Bill Championed by Nelson—Pass Measure Enlarging Power of County Commissioners.

Senate bill No. 42 enlarging the powers of county commissioners, giving them supervision over road supervisors, was passed by the senate Wednesday afternoon by unanimous vote. The measure was one introduced by Senator Armstrong of Blaine county, and after his clear explanation of the bill, it was readily adopted.

Senator Robertson's herd district law was debated on the floor and some opposition made to it with the result that it was ordered considered in a committee of the whole.

With Senator Faraday in the chair the senate resolved itself into a committee of the whole and took under consideration Senator Nelson's eminent domain bill, giving authority to cities to acquire water and power plants and distributing stations.

Senator Robertson, as chairman of the committee on corporations, announced that the committee was unanimous in its decision that the bill do not pass and so recommended for the reason that it delegates too much authority to cities and he cited instances where it would be possible to condemn power plants and the cities engaging in the power business and selling electric energy to outside points.

Senator Seaver also spoke strongly against the measure, stating it would put a bar against capital coming into Idaho to develop electric power if there was a law in the state providing for the condemning and seizure of their property after it was completed and a good business worked up.

Senator Nelson replied to the criticisms of his measure, explaining that it was copied after a similar law in effect in other states, that a two-thirds vote was required to issue bonds to purchase a condemned plant and the sale of bonds was fixed so that only a good bonding company would take them as a safe investment and he felt the bill was one with merit which would tend to relieve cities paying high prices for electric power and water and should pass. The committee reported progress and decided to sit again.

Senator Johnson served notice that he proposed to call house bill No. 19 from the strangle hold of the finance committee and ask its consideration on the floor of the senate.

HIGH SCHOOL NOTES

WORK ON OPERETTA

The work on the "Mikado," the operetta to be given by the chorus and orchestra of the high school, is progressing rapidly. The boys' chorus has been meeting every noon at ten minutes of one, and on Wednesday afternoon both the girls' and boys' choruses practiced together for the first time. The principals are to get together with Mr. Crossland this afternoon and go over their parts briefly. Mr. Crossland has announced that the two remaining roles have been definitely decided upon. The part of Katsusha will be taken by Miss Clara Jones and that of Nanki-Poo, son of the Mikado of Japan, will be taken by Joseph Valey. This now completes the cast, the other principals having been announced last week.
