

RECORD MADE BY THE FIFTEENTH IDAHO LEGISLATURE ONE OF MOST CONSTRUCTIVE

Big Program of Improvements Indorsed Including Completion of Capitol and Highway Building.

CREATE THREE COUNTIES

Cabinet Government Substituted for Present System—State Convention Succeeds Primary Election.

The Fifteenth Idaho legislature has completed its labors. After 62 days of law-making the general public—and also the solons—are given a breathing spell and an opportunity to review what has been accomplished.

STATE GOVERNMENT CHANGED.

First and primarily the form of state government was remodeled and materially changed. This was proposed by Governor Davis and met with the approval of the two houses.

The legislature did not forget its soldiers and regardless of the fact that congress failed to push through its land settlement plan during the last session, the solons passed the necessary legislation in cooperation with the government.

THREE NEW COUNTIES.

The number of counties in the state were increased from 41 to 44 through the creation of three new counties—Jerome, Clark and Caribou.

BIG ROAD PROGRAM.

Good roads and better highways came in for favorable consideration. Idaho's future program along this line seems assured. Face to face with an exhausted limit in bond issues, a two-mill levy law was passed which, by direct taxation will raise \$1,800,000 to be distributed over the main trunk highways of the state highway system resulting in the building during the next two years of many miles of roads.

LIBERAL ALLOWANCES.

Liberal allowances were made for the various state institutions not only insofar as maintenance is concerned but for needed additions and new buildings as well as improvements.

RECORD SUMMARIZED.

Created a cabinet form of state government to replace the present system March 31.

Provided for a big program of road construction involving an expenditure of several million dollars.

Passed a land settlement act to aid in providing lands for returning soldiers.

Created three new counties, Clark, Jerome and Caribou, making 44 in all.

Authorized issuance of \$800,000 in bonds to complete two wings to the state capitol building; replacing the administration building at the Lewiston normal, \$50,000 for the state sanitarium.

Making it compulsory to teach all subjects in the English language in public and private schools; prohibiting display of the red flag.

Repealed the statewide primary law and substituting in its place the state convention and county primary.

Created the Eleventh and Twelfth judicial districts.

Appropriated \$20,000 for an investigation of the water resources of the state.

Authorizing the state to engage in the manufacturing of cement and road materials.

Made a tax levy for the building of two tuberculosis hospitals.

Created a state constabulary and re-created the state council of defense; created a state forestry bureau.

Authorized bond issues and appropriations of between \$8,000,000 and \$9,000,000. Authorized an ad valorem tax levy to raise \$2,000,000, the issuance of \$3,000,000 treasury certificates and \$1,800,000 for the building of good roads.

St. Anthony to cost \$50,000, a building for the state feeble minded at Nampa to cost \$50,000, a building for the deaf and blind school at Gooding were also approved. The attempt to consolidate the Albion state normal with the Idaho Technical institute at Pocatello, approved and indorsed by the state board of education, failed.

TO COMPLETE CAPITOL.

Conditioned upon Boise securing the approaches to the state capitol building and parking them, the legislature authorized the issuance of \$200,000 in bonds to raise the necessary funds to complete the state capitol by building on the two wings at a cost of \$450,000 each. There was authorized construction at Lenora in Boundary county, across the Kootenai river, a bridge; \$30,000 was appropriated for improvements along the Snake river in Madison and Jefferson counties; \$52,000 for the improvement of Lava Hot Springs in Blaine county, and \$30,000 for a drainage district in Kootenai county.

NEW ELECTION LAW.

One of the most far reaching acts of the legislature prior to adjournment was passage of the act eliminating the state-wide primary election law and substituting in its place another providing that candidates for United States senator, congressman, justice of the supreme court and

Judges of the district courts, governor and all state elective officials, shall be nominated at state conventions instead of at state-wide primaries. It is a compromise measure passed by the two dominant political parties in this state. It seeks to remedy many of the objections to the primary system.

The primary law has been tested for 10 years and has in many respects been found wanting. It was in 1908 that the last state convention was held in Idaho. The action taken by party manipulators at that convention forced adoption of a new system for nominating candidates. The late Senator Weldon B. Heyburn was renominated at that convention. So was Thomas R. Hamer for congressman. In fact, the convention was stamped for Hamer, although two-thirds of the delegates were pledged to vote for French. The late Senator James H. Brady was nominated for governor at the same time. He came within an ace of being defeated by the combination that was formed. There was a great hue and cry over the action taken. Demands were made for adoption of the primary law. The legislature following later adopted it.

STATE FORESTRY BUREAU.

A state forester working under the direction of a forestry bureau will, in the future have supervision over the vast timber resources of Idaho. The legislature has passed a law so providing. Some idea of the importance of this office can be gained from the fact that Idaho has today within its borders 25,000,000 acres of forest lands or about 43 per cent of the total area. The merchantable timber amounts to 120,000,000,000 feet, divided as follows: Twenty-four billion, three hundred thousand feet in white pine; 22,000, 300,000 feet in yellow pine; 7,000, 800,000 feet in tamarack; 48,000,100,000 in mixed woods; 27,000,300,000 in red fir. Practically all of the white pine is in northern Idaho, north of the Clearwater river.

Some idea of the amount of timber these figures represent can be obtained from the following illustrations. One hundred and thirty billion feet of lumber would fill 5,500,000 railroad freight cars; it would build a sidewalk of one-inch lumber 10 feet wide and 2,462,121 miles long—enough to go around the earth 100 times at the equator, or to the moon from the earth and back five times; build a commodious eight room house with two stories for every one of the 6,900,000 men, women and children living west of the Rocky moun-

Chief Executive of State Has Large Number Still Remaining to Be Presented for Approval.

At the close of official business Saturday night Governor Davis had attached his signature to 34 house bills, 21 senate bills, 11 house joint memorials, seven senate joint memorials, three house concurrent resolutions, three senate concurrent resolutions, and three senate concurrent resolutions. Following are the numbers of the measures signed:

- House bills Nos. 1, 2, 4, 8, 15, 24, 25, 29, 30, 36, 42, 47, 45, 59, 75, 77, 78, 83, 86, 104, 7, 50, 73, 95, 101, 106, 107, 113, 115, 119, 175, 44, 158, 192.

- Senate bills Nos. 2, 4, 6, 10, 16, 19, 26, 34, 41, 42, 43, 46, 68, 75, 90, 62, 63, 37, 183, 145.

- House joint memorials Nos. 2, 3, 4, 6, 7, 8, 11, 13, 15, 9, 10.

- Senate joint memorials Nos. 1, 3, 4, 6, 7, 5, 8.

- House joint resolutions Nos. 1, 5, 6.

- House concurrent resolutions Nos. 3, 5, 6.

- Senate concurrent resolutions Nos. 3, 4, 5.

A COMBINATION ACT.

The delegates making up the respective county convention which will in turn elect delegates to the state conventions, will be elected by all of those affiliated with their party at the primary election. There will be one delegate from each precinct elected. As many who want to run for the position of delegate may do so. The one receiving the highest number of votes will be declared elected. The county conventions will elect the delegates to the state conventions. These are to be held by all of the political parties the first Tuesday in August. The county central committee will provide its own rule regulating the county conventions. The state committee will lay down the rules governing the state conventions.

The new law is in reality a combination of the direct primary and the old convention system, with both fairly well safeguarded. Idaho is the first state in the Union that adopted the state-wide primary, to abandon it. The experiment will unquestionably attract the attention of many other states in the Union, which have been confronted with some of the same primary difficulties as Idaho. Party leaders are confident that it will be decidedly more satisfactory than the primary law as formerly constituted. They are of the opinion that stronger and better men will be brought out for state office in the future than in the past.

STATE FORESTRY BUREAU.

A state forester working under the direction of a forestry bureau will, in the future have supervision over the vast timber resources of Idaho. The legislature has passed a law so providing. Some idea of the importance of this office can be gained from the fact that Idaho has today within its borders 25,000,000 acres of forest lands or about 43 per cent of the total area. The merchantable timber amounts to 120,000,000,000 feet, divided as follows: Twenty-four billion, three hundred thousand feet in white pine; 22,000, 300,000 feet in yellow pine; 7,000, 800,000 feet in tamarack; 48,000,100,000 in mixed woods; 27,000,300,000 in red fir. Practically all of the white pine is in northern Idaho, north of the Clearwater river.

Some idea of the amount of timber these figures represent can be obtained from the following illustrations. One hundred and thirty billion feet of lumber would fill 5,500,000 railroad freight cars; it would build a sidewalk of one-inch lumber 10 feet wide and 2,462,121 miles long—enough to go around the earth 100 times at the equator, or to the moon from the earth and back five times; build a commodious eight room house with two stories for every one of the 6,900,000 men, women and children living west of the Rocky moun-

WOMEN SHAVE UNKNOWINGLY

When you only remove hair from the surface of the skin the result is the same as shaving. The only common-sense way to remove hair is to attack it under the skin. DeMiracle, the original sanitary liquid, does this by absorption. Only genuine DeMiracle has a money-back guarantee in each package. At toilet counters in 60c, \$1 and \$3 sizes, or by mail from us in plain wrapper on receipt of price. FREE book mailed in plain sealed envelope on request. DeMiracle, 120th St. and Park Ave., New York.

CONGREGATIONALISTS TO HOLD CONFERENCE MARCH 25, 26 AND 27

The Congregational conference, postponed since last October on account of the flu, is to be held March 25, 26 and 27 at New Plymouth.

The program will touch on present day conditions sounding the keynote of evangelism which is a part of the national council's tercentenary campaign. The opening address by the moderator, J. E. Ingham, will be on "Our Heritage." Other speakers who will have a prominent part on the program will be Rev. C. J. Christianson of Boise; Miss Benton of San Francisco; Miss Tallman of Lintsing, China; Rev. A. J. Sullens, formerly of Boise, and Dr. W. H. Ashley.

COUNCIL VALLEY REAL ESTATE ENJOYS BOOM

Council, March 8.—The Council valley is experiencing more real estate activity this winter than at any time during the last eight years. The prospects are very bright for a brisk year in Council valley real estate.

PAYS \$14,000 FOR FARM.

R. R. Moser of Hagerman, Idaho, bought of H. E. Horner 312 acres six miles up Hornet creek for \$14,000. 80 acres of the place is irrigated bottom land, 40 acres are in dry cultivation, 40 acres are good saw timber, the rest pasture land.

ALCOHOL IS GREENISH IN COLOR WHEN PURE, WHILE WATER IS DISTINCTLY BLUE IN SHADE.

Infectious diseases are unknown in Greenland owing to the clear sky, dry atmosphere.

GAVE CLASS PROPHECY

Alsen T. Grossman.

Alsen T. Grossman, daughter of Dr. and Mrs. H. A. Grossman, composed and read a very able valedictory prophecy of her class Thursday afternoon at a party given in honor of the eighth grade at the Central school. She received many congratulations for the cleverness of the essay.

Miss Grossman has shown a great deal of talent along literary lines. She won first prize for writing an essay for an automobile company, and also received a prize for writing an essay for a dry goods store in Boise.

COMMEND MANNER OF HANDLING FOOD PUBLICITY IN IDAHO

For the exceptional way in which he handled intricate situations that arose during his connection with the educational division of the United States food administration, Edward G. Rosenheim of Boise has been highly commended in a letter received by him from Ben S. Allen, director.

The DOCTOR'S ADVICE

The questions answered below are general in character; the symptoms or diseases are given and the answers should apply to any case of similar nature. Those wishing further advice, free, may address Dr. Lewis Baker, College Building, College Hill, Wood Street, Dayton, O., enclosing self-addressed, stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in any answers. The remedies can be obtained at any well-stocked drug store. Any druggist can order of wholesaler.

such abnormal conditions. Begin their use as per directions on each sealed tube.

"Gloria" writes: "I would like you to prescribe a good hair and scalp treatment. I am bothered with itching scalp and dandruff. My hair is faded and falling and none of the remedies I have tried have done any permanent good."

Answer: Go to your druggist and obtain a 4-oz. jar of plain yellow Myngol. Apply as per directions. The dandruff and itching are conquered with two or three applications, while it makes the hair glossy, wavy and full of intense natural color.

"Myrtle" writes: "Owing to my extreme thinness I am frequently embarrassed by slighting remarks of young people. Can you prescribe a safe remedy to increase my weight?"

Answer: I have so many gratifying reports from the users of three-grain Hypo-Nuclease Tablets, that I have become to regard these valuable little tablets as a specific and prescribe them to all who are anemic, thin, wasting, nervous and debilitated.

"Sick M. G." writes: "I have been affected for some months with rheumatism and have taken much medicine in vain. Please give prescription that will cure."

Answer: The most efficient prescription I have ever given for rheumatism is: Iodide of potassium, 2 drams; sodium salicylate, 4 drams; wine of colchicum, one-half ounce; comp. essence Cardiol, 1 oz.; comp. fluid Eimwort, 2 oz.; and comp. serrapapill comp, 5 min. Mix and take a teaspoonful at meal time and at bedtime.

John R. Mc asks: "Don't you think it is wise to take medicine to reduce my weight? I weigh about 55 pounds too much."

Answer: I do think so; and a very convenient and effective flesh-reducer medicine is sold in sealed tubes with full directions for home use. It is called "Serrapapill." The most efficient prescription I have ever given for rheumatism is: Iodide of potassium, 2 drams; sodium salicylate, 4 drams; wine of colchicum, one-half ounce; comp. essence Cardiol, 1 oz.; comp. fluid Eimwort, 2 oz.; and comp. serrapapill comp, 5 min. Mix and take a teaspoonful at meal time and at bedtime.

Answer: For such symptoms as you describe I prescribe my favorite formula under the name of Serrapapill Tablets. This is a splendid efficacious remedy for
