

STRIFE AND UNREST CONTINUE TO SHAKE OLD WORLD NATIONS

Germany, Hungary, Russia and Other War-torn Countries on Volcano Edge; Strikes Appear Gaining Ground.

Paris, April 12.—Official reports today declared the deposed Socialist government had recaptured Munich and overthrown the Soviet republic which was instituted only last week.

In other parts of Germany the general strike appears to be growing, though the government troops have been able to prevent any serious outbreaks.

Conflicting reports have been received of the situation in Hungary. Direct dispatches reported very little disorder, although there had been some summary executions of the leaders of local movements against the Soviets.

Refugees arriving in Berlin from Budapest reported street fighting in the Hungarian capital and unrestricted looting.

The "big four" committee has under consideration plans for shipping food into Russia, where actual famine conditions prevail in the larger cities.

While the allies are discussing this problem, together with the peace proposal recently submitted by Premier Lenin, the Bolsheviks are increasing their military efforts on all fronts.

WOMEN ORGANIZE FOR VICTORY LOAN

Committee Meets and Lay Plans to Assist in Coming Drive—Interesting Addresses Given and Arouse Enthusiasm.

The victory loan campaign in Ada county was given a substantial boost Saturday afternoon through the splendid meeting of the Women's committee of the county held at Carnegie hall.

Major Boies, former officer of the old Second Idaho, who saw service in France, in a stirring talk, demonstrated why the government needs additional money to bring the boys home from France.

Miss Sophia Bolleret of the Mode department store, placed before the women a bond selling argument from a business standpoint.

READY-MIXED HOG FEEDS.

[National Crop Improvement Service.] The breeder should use his own mind and judgment in mixing the percentage of his feed for hogs. He can find all the tables in Henry & Morrison's Feeds and Feeding and in his agricultural college bulletins.

Professor Evvard says: "The young growing pig weighing 30 to 60 pounds should eat about one pound of protein for every four pounds of carbohydrates.

Unable to do so because the savings were small and payments too large to meet. Victory bonds, she stated, come within their reach, were a safe, paying investment, and one any woman should be proud to make.

A pleasing feature of the afternoon was the singing of the Victory Loan campaign song, "Uncle Sammy Here's My Share," by a group of high school students under the direction of Prof. Crossland.

CHILD CONTEST CASE IN HANDS OF COURT

Parents Wage Fierce Legal Battle for Bright 12-Year-Old Gerald Hon, Who Was Given to Father by Court.

The legal battle for the possession of Gerald Hon, aged 12, which has occupied considerable time in Judge McCarthy court last week, ended Saturday evening.

Both father and mother who were divorced in Oregon in September, 1915, seek custody of the child. The father, Dennis W. Hon secured a divorce from Hattie Hon in Malheur county on the grounds of desertion and was awarded the custody of the child.

The case has been a hard fought one and many law points are involved as well as statements as to facts. The plaintiff sets out that conditions have changed since the child was awarded to his father and she is now able to care for him and educate him and give him a real mother's love.

Considerable interest has been shown in the case both by people of Boise and Ontario, Ore.

STATE TO PAY FOR GAS

Board of Examiners Fixes Maximum Mileage at 10 Cents for State Operated Autos.

In the future those state employees who are operating automobiles in the transaction of state business only, will be allowed 10 cents per mile to cover the expense of gasoline and general upkeep.

Heretofore the maximum allowed for the operation of autos by state officials when transacting state business, has run from 8 to 12 cents. The board of examiners decided to strike a fair maximum. There are a number of machines used in the transaction of state business.

The board also approved the new forms of vouchers presented by State Auditor Gallet. These comply strictly with the law and make it necessary for those submitting state claims to make out a more detailed statement, showing how they spent funds which they desire the state to reimburse them for.

"When the pig reaches 100 pounds in weight, about one pound of protein to five pounds of carbohydrates is correct.

"At 150 pounds it should be increased; for each pound of protein six pounds of carbohydrates.

"The fairly well-grown hog, 240 to 300 pounds, in fattening will do well on one pound of protein to eight pounds of carbohydrates."

So it would seem that buttermilk is one of the best hog feeds. Where it is not freshly available it may be had in a dried powder form.

THEFTS BY LOVEJOY RUN INTO THOUSANDS

Officers Still Collecting Goods Stolen by Express Driver—Losses Estimated at \$7500.

The value of goods stolen from the American Express company in two months by William H. Lovejoy, driver for the company, still continues to mount up. Estimates made Saturday of the total value was approximately \$7500, and there is a possibility of its being more.

P. E. Merriman, head of the department of justice in Boise, who first took up the trail of the stolen property from a tip given at Nampa, Saturday, brought in another automobile load of goods secured in Nampa. One office room in the federal building, piled high with the costly loot, looks like a drummer's sample room.

The Mode department store was one of the heaviest losers through Lovejoy's operations. Invoices held by Henry Falk showed \$1250 worth of expressed goods had failed to arrive in two months. The Golden Rule, the Falk Mercantile company, Alexander's, the A B C store, Brookover's and McLeod & Johnson were the stores suffering the heaviest losses.

Lovejoy's field for selling was at Nampa. He covered the town well, especially North Nampa. Every Saturday night with a load of stolen plunder he visited the Junction city and made sales. Not more than a quarter of the goods have yet been recovered, but the federal officers have ceased their gathering and will leave the finding of the remainder to the express company, a sufficient amount having been secured to get a confession from Lovejoy and make his conviction certain.

COLUMBIAN CLUB HOLDS REGULAR BUSINESS MEET

The regular business meeting of the Columbian club was held at the club house Monday afternoon, when a good deal of routine business was transacted. Mrs. Kinyon was appointed chairman of a committee to revise the by-laws, and a committee consisting of Mrs. McClear, Mrs. Herrington and the president was appointed to meet with the committees of other organizations of the city to discuss the visiting nurse question.

Miss Mary Schultz sang two lovely solos, accompanied by Mrs. Fred Jones.

The following meetings are scheduled for the week: April 14—Study and dramatic department of the Columbian club will meet.

April 17—Music department of the Columbian club will hold their meeting.

April 18—Home economics department of the Columbian club will meet at the club house at 2:30 p. m.

LOVING TRIBUTE PAID TO LATE MRS. PETTINGILL

In the passing into the Great Beyond of Mrs. George Pettingill, who was one of Idaho's well known pioneer mothers, there has been removed an influence of womanly tenderness and cheerfulness which did much toward aiding in the moral betterment of the "early days." Always ready to re-

IDAHO WOMAN IS HONORED BY THE SUFFRAGE LEADERS

Miss Margaret Roberts Made Member of Constitutional Committee for the League of Woman Voters.

Recognition was given another Idaho woman by the suffrage leaders of the country when Miss Margaret Roberts was named a member of the constitutional committee for the League of Women Voters while a delegate in attendance at the jubilee convention of the National American Woman Suffrage association.

When asked to give her impressions of the convention which was held at St. Louis, Miss Roberts said: "It was considered the greatest women's meeting of the century. Mrs. Catt presided at nearly all of the sessions. There were 600 delegates in attendance from all parts of the United States. Mrs. Catt is looked upon as one of the women of the world and as an executive officer and organizer has few equals."

"The western women had the opportunity of meeting many women who are in the public eye: Dr. Anna Howard Shaw, Miss Alice Stone Blackwell, Mrs. Raymond Robbins and others.

"Mrs. Maud Wood Park, chairman of the congressional committee from the National American Woman Suffrage association, told me that Representatives Smith and French of Idaho had helped her much in her work and had shown her many courtesies.

"It was one of the best arranged meetings to the minutest detail I ever attended. The president of the St. Louis Suffrage League and chairman of all local arrangements, Mrs. George Gellhorn, was really marvelous in her executive ability and extended to each and every delegate a cordial welcome.

"I regretted very much that Idaho had never had a branch of the National American Woman Suffrage association and had never paid any dues as an organization, and could therefore be only a visitor. Idaho could not, on this account, have a vote. But as chairman of the ratification committee I have the honor of having been appointed a member of the constitutional committee for the new organization, the League of Women Voters.

"Right here, I would like to speak of the nine principles which were adopted by the National association and the League of Women Voters, which is a branch of the old, original body.

"They recommended that the following principles be adopted as a means of furthering Americanization in the United States: "Compulsory education of all children between 6 and 14, and attendance at school nine months of each year.

"Education of illiterate adults in the common school branches. "Stricter naturalization laws including one that the vote be given only to foreign women who have been naturalized in their own person, or through naturalization of father, mother or husband and after a residence of five years in the United States.

"Change in naturalization laws to permit married women to be naturalized on their own qualifications. "That English be the language of instruction in all public and private schools teaching general subjects. "Company publication of lessons on citizenship in all foreign language newspapers.

"That an oath of allegiance to the United States be a voting qualification for all citizens, native and foreign born. "That a school of citizenship be established in every rural and city school district in connection with the public schools. "That there be an educational qualification for the ballot."

GET SEED POTATOES READY

Provide Yourself With Good Seed Stock

High grade seed potatoes are those which are true to name, free from varietal mixture and true to type.

Early Ohio and Bliss Triumph, the two best early varieties. We have a carload of this seed just in, grown in eastern Idaho especially for seed and graded for type and size.

Plant true seed and get results. W. J. Campbell & Son

LECTURER AND READER TO BE HEARD AT FIRST M. E. CHURCH TODAY

Arthur W. Evans, the Welsh orator, will deliver a lecture at the First Methodist church this afternoon at 3:30. Mr. Evans is a minister of the gospel and will deliver a message of interest to all. On his last appearance in Boise Mr. Evans spoke of "Americanism," being an American by adoption he fully explained the great privilege of belonging to such a nation. He is related to the British premier, Lloyd George.

Miss Bess Gearhart Morrison, known as the Lyceum premier orator, will also be heard at the meeting. The meeting is an open one and all are invited. A collection will be taken to defray expenses.

Popular Music

LIVINGSTON FILES REPORT ON METALS

University Professor Shows Results of Investigations in Idaho on Deposits of Tungsten, Cinnabar, Etc.

Professor D. C. Livingston of the school of Mines, University of Idaho, has completed a report showing the results of an investigation of deposits of tungsten, cinnabar, manganese, molybdenum and tin in Idaho. It is accompanied by notes on the antimony deposits by Professor Francis A. Thomson.

The examination started in the summer of 1918. Considerable demand had arisen for these metals due to the war and consequent lack of ships, and in fact in some cases, there appeared to be a serious shortage threatened, says Professor Livingston in his report, a copy of which was received Saturday by Dr. E. A. Bryan, state commissioner of education. It was therefore evident that an investigation of Idaho's resources was a national duty of consid-

erable importance and the work was undertaken on this account, although other work of importance to the state had to be postponed in consequence. The bureau of mines at the university analyzed all of the samples. The United States geological survey also supplied valuable information. The report is clearly illustrated and takes up each mineral in detail, showing where it is found in this state. Taking up tungsten the report shows deposits are to be found in Boundary, Shoshone, Lemhi, Camas, Idaho and Butte counties. Deposits of manganese are told of along the Snake river and Shoshone county; tin, Shoshone county, and antimony in Valley county. Quicksilver is told of in the Fern creek cinnabar and Black Pine districts.

BLOOD PLEDGED BY 12—Santa Barbara, Cal., April 12.—Organization of a "Blood transfusion Reserve Corps" of 12 members has been started by the Santa Barbara County Medical society. The members of the "reserve"—all to be volunteers—will stand ready to give their blood in transfusion operations whenever called upon. All must submit to examination to prove physical fitness. A bonus of \$20 will be given to each person accepted.

A Japanese industry which has made remarkable progress in recent years, is that concerned with the extraction of vegetable wax, which is coming into greater demand on foreign markets.

FOR EASTER ANYWAY. You have saved, you have sacrificed and you have conserved—and you have won—during the war period. You have done your part nobly and now you owe it to your boy and to yourself to at least don a new suit—your boy and yourself. FOR EASTER. If the young man has been away he knows he wants a Waist Seam Suit—seen it everywhere—for yourself too, or perhaps you prefer a more conservative model, not so as to look older, but to look the part. Remember we speak for the largest stock in Idaho, and the new Spring Suits are rolling in by the hundreds. No, you'll not be asked the highest prices but just the opposite. We start at \$18.75, then \$23.50, \$27.45, and \$32.50 takes you to High Art make. We've yet to see a better make at any price. TALK IT OVER. ALEXANDER One Price Clothier 9th and Main
