The Girl Who Was Ready for the Emergency

About four years ago a man stepped into our office to inquire about a business education for his daughter. The girl was only about 15 years old and an eighth grade graduate. He knew his daughter needed more education, but felt that he could not afford to send her to high school for four years.

Just about that time they had some financial reverses, but the father saw the value a business education would be to his daughter and enrolled her. He had to work hard and sacrifice to keep her in school, but he did it and seemed to enjoy it.

This young girl was appreciative of what her father was doing for her. She was a splendid student and possessed the finest qualities of character. She improved every minute and took advantage of every opportunity to get ahead. In just a little less than five months we sent her to a position. SHE MADE GOOD. WE KNEW SHE WOULD. She is now drawing a salary of a little more than \$100 a month, notwithstanding she is only about 19 and has had only an eighth grade education and a business college training.

For a considerable time her father's health has not been good and he has not been able to work all of the time. This little salary of more than \$100 a month enables this young woman to pay all of the expenses of herself and father and have a little left each month to put in the bank.

YOUNG MEN, YOUNG WOMEN, IS AN EDUCATION LIKE THAT WORTH WHILE? The benefits that come to our students because of the training we gave them is our greatest source of pleasure. Because we see so many of these benefits every day is our reason for persistently encouraging and urging you to let us give you that same kind of training.

THE DEMAND FOR OFFICE HELP IS FAR GREATER THAN THE SUPPLY

The Government can't get enough office help, though all who pass the examinations are being appointed at salaries from \$1340 to \$1440 a year. Business men can't get enough help. We are having calls every day we cannot fill. THE GREATEST PROSPERITY THIS COUNTRY HAS EVER SEEN IS JUST AHEAD OF US. The demand will continue and salaries will remain high. NOW IS THE TIME TO GET READY. You may enter any day.

Call, write or telephone and let us tell you more about the value of a business education and the wonderful opportunities it would bring to you.
