Indeed, time flies so swiftly that we find a large number owing us on subscriptions and to them we mailed out bills the first of the year. We ask that they kindly come and settle their small as well as large accounts in order that we may be able to settle the accounts that time has brought to us.

It crawls on its own tracks. Can go any place—over ditches and gullies, through loose sand, wet clay or wet, soggy ground. Plows 8 to 10 acres a day. Most economical tractor built. Small and light—does not pack the soil. Yet it develops 20 h. p. at pulley and 12 h. p. at bar. That's ample for all your needs.
