

WASH THE KIDNEYS!

All the blood in the body passes thru the kidneys every few minutes. This is why the kidneys play such an important role in health or disease. By some mysterious process the kidney selects what ought to come out of the blood and takes it out. If the kidneys are not good-workmen and become congested—poisons accumulate and we suffer from backache, headache, lumbago, rheumatism or gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed at night. So it is that Dr. Pierce, of the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., advises "Washing the Kidneys," by drinking six to eight glasses of water between meals and then if you want to take a harmless medicine that will clear the channels and cure the annoying symptoms, go to your druggist and get Anuric (double strength), for 60c. This "Anuric," which is so many times more potent than lithia—will drive out the uric acid poisons and bathe the kidneys and channels in a soothing liquid. If you desire, write for free medical advice and send sample of water for free examination. Experience has taught Doctor Pierce that "Anuric" is a most powerful agent in dissolving uric acid, as hot water melts sugar. Send Dr. Pierce 10c for trial package.

TRIFLE "ABOVE THEIR HEADS"

Mystic Letters on Invitation to Dinner Had Been Misunderstood by the Invited.

He had just been made vice president in charge of production of a big manufacturing plant.

"Ed, now that you're vice president in charge of the producing end you should get all your foremen together and talk things over," the president suggested. "Invite them downtown to dinner and have an evening with them. Issue invitations. Do the thing up in style."

The new vice president thought it a bully idea. So he got out the invitations and arranged for a big feed. At the bottom of the invitations he placed the usual "please respond" stuff.—R. S. V. P.

Days passed and there were no responses. Vice President Ed decided to find out why his foremen were not coming to his party.

"What's the matter with you fellows?" he asked one of his foremen. "I've invited you to dinner, and not a man among you has sent a word about it. Didn't you see that R. S. V. P. at the bottom of the invitation?"

"Yes, I saw that," one foreman replied. "Of course we're all coming, but us fellows thought that R. S. V. P. stood for Recently Selected Vice President."

And in this era of man-hunting, lots of men are "stalking" the field.

After all, the speculator is a sort of bargain counter.

Your comfortable, healthy, well-to-do neighbor uses **INSTANT POSTUM** instead of coffee. Ever ask him the reason? Might be worth while—especially if you are one of those with whom coffee doesn't agree.

There's a Reason

What Well Dressed Women Will Wear

WHIMSICAL STYLES IN SLEEPING GARMENTS.

Having undertaken the wearing of pajamas women proceeded to feminize them. They have developed these sensible sleeping garments into many dainty conceptions of the original and have produced, in the process, attractive new sleeping garments that are neither pajamas nor nightgowns. There are one-piece and two-piece pajamas, pajamas with slipover mandarin coats and others with short jackets like that shown in the picture. Wash satin, crepe de chine and georgette go to make up these very modern conceptions of the originally plain and practical pajamas. They are called boudoir pajamas; those with jackets or mandarin coats proving the most dignified and becoming of the several designs.

If one determines upon silk for sleeping garments the soft texture of wash satin and crepe de chine, and the sheerness of georgette along with their dainty colorings, are sure to inspire gay and frivolous affairs like that shown in the picture. Nearly all the boudoir pajamas, however, are less fanciful than these which exaggerate the style in order to call attention to it. The pantalettes are of plain satin with crepe georgette set in at the sides between front and back pieces tied together with satin ribbon bows. The short jacket of satin has sleeves of plaited georgette ending in a ruffle with a ribbon band above it. The collar is of ribbon lengthened into tie ends.

Nothing less colorful and fine than bedroom slippers of ribbon would do to

month in the year. Sometimes it happens that she must choose a new one just between seasons, as in February or January. Winter suits are offered at bargain prices then, and early spring styles have appeared, enticingly new and tempting. The shopper is torn between two minds, and no one can settle the matter for her. It must be decided by the climate she lives in, the kind of service she requires of the suit, becomingness of the styles and other personal matters.

Winter and spring styles compare notes in the two suits shown here. At the left an advance model for spring reveals a trim affair of dark-colored cloth, with a plain skirt that does not commit itself to the very narrow style which has been considerably heralded. The coat approves the conservation of wool by being short, enforcing its opinion especially in the back of the garment, which is shorter than the front. This is a fine model for a slender figure, with a yoke to the shoulders and the front and back attached to it, plaited at the sides. The coat sleeves broaden the figure by means of a little fullness at the top. There is a narrow belt and springtime touches in light buttons, in an over-collared white satin and insert of white in the V-shaped cut-out on the plain cuffs.

A suit of duvetyl at the right, trimmed with chinchilla fur, commends itself for either the northern or southern winter, and has much dis-

WINTER AND SPRING STYLES COMPARE NOTES.

wear with the magnificence of these pajamas, and they are hardly to be imagined without an attendant cap of lace and ribbon. These extravagant luxuries require accessories to match themselves in daintiness.

Few pajamas are so elaborate. Pantalettes are usually straight and full and gathered into a ruffle about the ankle. Coats or jackets are bordered with satin or crepe in a contrasting color. Sometimes narrow lace edges the collar or the frills at the ankle and sometimes hemstitching is the only decoration.

A trim, fresh-looking and practical tailored suit is the mainstay of the American woman's wardrobe, every

distinctive style. The skirt is as narrow as it can be, conveniently; the coat hangs as straight as a plumb-line, but tempers its severe simplicity with rounded points at the bottom. The sleeves are allowed a little fullness at the top and finished at the hand with strap and button trimming. A narrow belt of the cloth suggests the waistline, and very large buttons fasten the coat and are lined up on the skirt in a way to emphasize the long, straight line that will commend this model to many women.

FARM STOCK

SELLING BREEDERS FOR MEAT

Officials of Department of Agriculture Declare Situation Threatens to Be Serious.

Breeding stocks of hogs are being depleted by the selling off of breeding animals for meat, the prices offered for pork on the hoof and the high cost of feed leading many growers to take this step. Officials of the United States department of agricul-

Bear of Good Type.

ture declare that the situation is already critical and threatens to become very serious if the country continues to be drained of its meats. Hogs furnish meat more quickly and cheaply than other stock can; the meat shortage, therefore, can most readily be met by swine production.

COST OF MAINTAINING HERD

Serious Problem Confronting Cattle Producer, Says Doctor McCampbell of Kansas College.

A serious problem that confronts the cattle producer is the cost of maintaining a breeding herd, according to Dr. C. W. McCampbell, associate professor of animal husbandry in the Kansas State Agricultural college.

With the judicious use of straw, silage and cottonseed meal the problem becomes less perplexing. In periods of normal prices, cows at the Kansas Agricultural Experiment station that were receiving silage and cotton seed with other roughages such as straw, and kafir butts, were maintained during the winter months at a cost slightly less than four cents a day and were in thrifty condition when turned to pasture in the spring. Maintaining a cow herd when properly managed is profitable.

HOG IS GOOD CORN HUSKER

Animals Make More Gain From Corn When They Gather It Themselves—Labor is Saved.

The pigs are good corn huskers and they will pay for being so too. Experiments have shown that pigs make more pounds of gain from corn when they gather it themselves than when it is husked and fed to them. It takes at least one day for a man and team to husk an acre of corn, so that every acre that the pigs take care of saves that much labor. Squaw corn is very satisfactory for hogging down in North Dakota. It ripens early, so the pigs can start on it sooner than any other variety. An acre of corn that will yield 30 bushels will be sufficient for feeding six spring pigs two months.—Extension Department, North Dakota Agricultural College.

AMPLE EXERCISE FOR SWINE

Fattening Hog Should Be Limited to Run of Half an Acre to Keep Appetite Sharp.

Fattening hogs make the greatest gains when they have just enough exercise to keep their appetite sharp. A fattening hog should be limited to a run of half an acre, and 25 fattening hogs kept on this area will do better than a great number. The pigs should be sorted to lots of even size and age, and no matter how many are being fattened, not over 25 should be allowed to run together. Brood sows should not be kept with the fattening hogs. The feeding should be done at regular hours, two or three times a day—three times is the better—and give only just what they will eat up clean.

FEEDS FOR WINTERING EWES

Sheep Will Thrive on Less Grain Than is Needed for Any Other Class of Live Stock.

Sheep can be successfully wintered with a smaller use of grain than is needed for other live stock. If in good condition at the beginning of winter and given the right kind of hay they can be carried through the winter without grain unless the lambs are to be dropped before going to pasture. All depends upon the kind of hay or other roughage used.

YOU COOK YOUR FOOD—WHY NOT YOUR TOBACCO?

YOU know what broiling does to steak, baking to a potato—and toasting to bread. In each case flavor is brought out by cooking—by "toasting." So you can imagine how toasting improves the flavor of the Burley tobacco used in the Lucky Strike Cigarette.

Too Fast for the Dictionaries.
Judge Ruppenthal says the language continues to outrun the dictionaries. In the judge's own Kansas dictionary, which he has compiled through many years in shortgrass courts, there are more than 1,000 western words and phrases which are not in any other dictionary. Judge Ruppenthal also reports that the latest Standard and Webster lexicons do not seem to have heard of Colonel Roosevelt's familiar "Jugo-Slav," or of the army "barrage."—Kansas City Star.

The Frank Butler.
William H. Crocker of San Francisco, who recently rebuilt a war-wrecked French village at his own expense, tells, apropos of the wine shortage, an amusing story. "A friend of mine"—so Mr. Crocker's story runs—"is remarkable for the bad wines he keeps. My friend, entertaining some rather important guests one evening, turned to his new butler and said: "'Higgs, is this the best chert?' "'No, sir,' said Higgs solemnly, 'it ain't; but it's the best you've got.'"

"Cold in the Head"
Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists sell. Testimonials free. \$100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

Easy to Borrow.
Some men feel sure that their credit is good because of the fact that they have never had any difficulty borrowing trouble.—St. Paul Pioneer-Press.

Tied His Dog to "Flivver."
When Henry Ward, prominent in Salina (Kan.) business affairs, tied his vicious bulldog to his "flivver," merely as a protection to dogs with better dispositions, he was arrested. "Guilty?" asked the court, after informing the defendant he was charged with violating a city ordinance against attaching a tin can to a dog's tail. "Yes, sir," was the reply. "Eleven dollars," said the court. And Mr. Ward paid.

Keep Yourself Fit
You can't afford to be laid up with sore, aching kidneys in these days of high prices. Some occupations bring kidney troubles; almost any work makes weak kidneys worse. If you feel tired all the time, and suffer with head-ache, sharp pains, dizzy spells, back-aches and disordered kidney action, use Doan's Kidney Pills. It may save an attack of rheumatism, dropsy, or Bright's disease. Doan's has helped thousands back to health.

Recipe for Gray Hair.
To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

A Utah Case
W. W. Robinson, First East St., near First North St., American Fork, Utah, says: "For months I suffered from a steady ache across my kidneys. The least move that caused a strain on my back sent a pain through me. A druggist I consulted recommended Doan's Kidney Pills and I tried them. They fixed me up all right and I have only needed them once since then. At that time they again brought me as good results as before, quickly relieving the pain."

Sounded Like Lying.
The kid came home from school and said: "Hazel Smith is an awful liar or else her brother Jimmie is." "Why, Robert," exclaimed the mother, "you mustn't talk that way. What do you mean?" "Well, I ast Jimmie how many sisters he had, an' he said two. An' then I ast Hazel the same thing, an' she said she had only one sister, an' Jimmie stuck to it that he had two sisters. So one of 'em's a liar!"

DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., BUFFALO, N. Y.

DON'T CUT OUT A Shoe Nail, Capped Hock or Bursitis FOR ABSORBINE
will reduce them and leave no blemishes. Stops lameness promptly. Does not blister or remove the hair, and horse can be worked. \$2.50 a bottle delivered. Book 6 10c.

COUGHING
annoys others and hurts you. Relieve throat irritation and tickling, and get rid of cough, colds and hoarseness by taking at once **PISO'S**
