

PROMPT SERVICE

COURTESY and prompt attention are bringing us trade that oftentimes has to go out of its way to get here.

We are glad to get your trade and we believe in showing our appreciation by supplying your every need with all possible speed.

Courtesy Builds Our Trade

Old customers are bringing us new ones right along through the recommendations they are constantly giving us.

High quality, low prices and prompt service are a combination that is hard to beat—and we have found them all well worth maintaining.

MOTION PICTURES AND BACKING UP

Are you backing Motion Pictures? Realizing that the Motion Picture industry is a tremendous proposition in every way, the U. S. Government is taking advantage of all the help it can give—a financial help to the amount of one million dollars per day. Be patriotic. Help by the showing of pictures which help win the war. When you attend picture plays at Dodge Hall you are helping motion pictures do what the Government has asked them to do. No nation can stay sane without entertainment. The Government says it, we know it, you know it. Back motion pictures and you're backing the Government—DODGE HALL.

Statement of the Ownership, Management, Circulation, etc., required by the Act of August 24, 1912, of the Challis Messenger, published weekly at Challis, Idaho, for Apr. 1st, 1918.

MORE FARMERS ARE NEEDED

It has been said that "he who causes two blades of wheat to sprout where only one grew before is a great benefactor of mankind" and so he is, and this being so, when we think in multiples of tens, hundreds and thousands, what a wonderful benefaction is the bringing of greater agricultural areas under cultivation, for the increased production of all kinds of food products?

In any section, increase in production is best accomplished when two farmers are encouraged to establishing where only one was before; in other words, if we can get two farmers to each work forty acres of any given eighty acre tract, or four farms to work any given 160 acre tract and work these forties intensively, much more can be accomplished and everyone more greatly benefited than when one farmer works the 80 acre tract alone, or one or two farmers work the 160 acres.

The Union Pacific System, with the thought always uppermost of building up the territory or states through which it operates, has put forth far reaching efforts in colonization for many years, and at this time maintains at Union Pacific System headquarters, Omaha, Nebraska, a perfectly organized Colonization and Industrial Bureau, the purpose of which is to multiply agricultural and industrial units as rapidly and as effectively as possible. To best accomplish this purpose, it needs the wholehearted and general support of the public; of farmers already happily established in Union Pacific System territory, of dwellers in towns and cities, of travellers and anyone who has the well-being of the country at heart.
