"HOW rapidly our ideas change. Take the stoves, for instance, that I and every one else used to think were such wonderful heaters.

"Why, they are nothing compared to one I saw the other day. They call it—

Cole's Original Air-Tight Wood Stove

"Talk about heat! I never saw anything to beat it. It had thin, polished sides—that smooth, shiny kind, and how the heat came through it.

"They had it in a great, big room—must have been down to freezing at least when they started the fire—and in five minutes it was fine to sit in.

"Burns wood, you know. You can shut it up tight and keep the fire all night with dry wood.

"And it stays tight, too, when you close it—one of the Air-Tight, Stay-Tight kind made by the Cole Mfg. Co.

"The combustion is so perfect that you only take out the ashes once in six weeks.

"Greatest wood-stove, so they all say, and just what I am going to have for our house."

It is evident this man knows a good stove when he sees one. Come in and let us show YOU what took his fancy.

"Cole's," the Original Air-Tight Heater, is sold only by us
