### ITEMS ABOUT PEOPLE YOU KNOW

Mias Neida Wright spent a day or so with friends at Mackay the fore part of the week. She went into quarantine four days upon her return home.

J. W. Nesbitt, the cattle baron of Pahsamoroi, was here several days during the past week buying cattle.

Mias Mary Coryell left last Sunday for Pahsamoroi to resume her duties as teacher in the Hooper school.

The people of this vicinity enjoyed a picture show at the Dodge Hall Wednesday night. This was the first show in a long time and the movie fans were delighted with it.

An addition to the Kirtley residence is about completed.

Harry Waters and family are now comfortably located in their beautiful little ranch home just east of town. Mr. Waters sold his town residence to Jack Riley.

Mrs. Mary Jose, county treasurer, elect, is now comfortably located in the home she recently purchased of Mrs. Clayton Williams.

Billy Oster was down from his home up the river the latter part of last week on business.

Dan Burnett is steadily improving in health.

The old school bell is sending out its call again to the future men and women of this locality, after the vacation occasioned by the "flu".

It is rumored that John Steele whose wife and youngest baby died at Mackay of the "flu" has died at Salmon of flu-pneumonia. We have endeavored to learn the authenticity of the report but have been unable to do so.

C. E. Downey, Fitz Cochran and Minor A. Brown and wife were over from Pahsamoroi the latter part of last week on business.

The boys charged with destroying property in the DeWitt cabin on Pat's creek, have settled the case by paying \$25.00 damages.

Those wishing to have meats cured should place their order with the City Meat Market not later than the first of November.

Want to Lease: A ranch not less than 160 acres. More preferred. Address J. D. House, Salmon, Idaho. 2 t adv

We want sales representatives in every town in Idaho. We prefer men who have sold stock, insurance, real estate, books, or who have had no sales experience but would like to develop into salesmen. We train every applicant accepted and provide a system that will enable anyone who works to make from \$75.00 to \$150.00 per week. Can also use women of exceptional ability. Position permanent. In applying state age, past business experience, number of years you have lived in community, and references. Address in confidence. KANE MFG. CO., 1626 27 L. C. Smith Bldg., Seattle, Wash. 8t

L. E. Gilbert, known to quite a few of our citizens, met with death in Pahsamoroi last Sunday afternoon when the Ford he was driving became unmanageable and turned over, pinning him beneath it. Death is believed to have been almost instantaneous.

Alex Sewell, a former Challis boy and a cousin of Mrs. Ralph Baxter, writes from Baker, Oregon, that he has just returned from the front. Mr. Sewell left Challis June 3, 1915 and enlisted at Liverpool in the Royal Engineers. After three years of service he was sent to England as a convalescent and thence home, arriving in time to participate in the great celebration on November 11th.

George Ellis was over from Elgin the middle of the week on a short business trip.

Mrs. John S. Malm received the sad news of the death of her mother at Butte Tuesday. A sister of Mrs. Malm is expected to arrive here today. The Messenger joins Mrs. Malm's many friends in extending sympathy.

Lynn Brothers Hospital has been moved from Montpelier to Pocatello, Idaho.

Bye and Bye.

## CUSTER COUNTY IS \$2,500 SHORT YET

Custer County is \$2,500 behind her quota of War Savings Stamps. Speed up. On account of quarantine it will be impossible to make a canvass from house to house and visit each ranch. So I am going to ask all of the citizens who have signed pledges to make good.—W. A. Criswell.

## MEAT PRODUCERS DID FULL DUTY

Increase in American Hogs Will Help to Meet World Fat Shortage.

### FARMERS SAVE SITUATION.

Government Justified in Stimulation of Pork Production—Sevenfold Increase Over Pre-War Exports.

Through increased production and conservation we will be able this year to export seven times our pre-war average exports of pork products. With the heavy demands added in caring for the millions who have been freed from German oppression, the Department of Agriculture and the Food Administration are justified today in every action of stimulation of hog production. In the coming year the greatest world shortage will be in fats, and pork will help to save this situation. The efficiency of the policy of stimulated production has built up in this country supplies which will enable us to supply a very large part of the fat deficiency of the world. In beef there must be a shortage in Europe, due largely to limited refrigeration ship capacity. All freezer ships available, however, will be filled by America, Argentina and Australia.

The contribution made by the producers of this country to the war program as applying particularly to animal food products is illustrated by the following:

Reports compiled by the U. S. Department of Agriculture indicate an increase in cattle of 10,235,000 head and 12,441,000 hogs. These figures were compiled to January 1st.

In this period there was a decrease in sheep of \$19,000 head. The indications are that this decrease will show an increase, according to recent reports.

Since January 1 unofficial information indicates an increase in hogs of not less than 8 per cent, and not more than 15 per cent, as compared with one year ago, with an increase in the average weight.

Following the request of the U. S. Food Administration for an increase in hog production for marketing in the fall of 1915 and the spring of 1916 the increase may yield not less than 1,900,000,000 pounds more of pork products than were available last year. Without this increase the shipping program arranged by Mr. Hoover regarding animal food products would have been impossible.

The dressed hog products during the three months ending September 30, 1917, amounted to 293,172,000 pounds, while for the corresponding months of 1915 the dressed hog products totaled 1,277,580,000, an increase of over 374,000,000 pounds for the quarter.

During the same period for 1917 the records of inspected slaughter of dressed beef showed 1,263,000,000 pounds as against 1,454,000,000 pounds for the three month period ending September 1, this year.

### America's Pledge of Food Gave Heart to the Allies In Their Darkest Hour

Whatever is necessary America will send. That was America's pledge to the interallied food council. And because the American food army had hitherto made good they took heart and went forward.

Farm enterprise and much soft corn increased pork supplies, food conservation increased exports—total shipments doubled.

FAITH JUSTIFIED BY EVENTS.  
I do not believe that drastic force need be applied to maintain economic distribution and sane use of supplies by the great majority of American people, and I have learned a deep and abiding faith in the intelligence of the average American business man, whose aid we anticipate and depend on to remedy the evils developed by the war.—Herbert Hoover, August 10, 1917.

## MUST INCREASE FOOD EXPORTS

America Called on by End of War to Supply Added Millions.

### ECONOMY STILL NEEDED.

Over Three Times Pre-War Shipments Required—Situation in Wheat and Fats Proves Government's Policy Sound.

With the guns in Europe silenced, we have now to consider a new world food situation. But there can be no hope that the volume of our exports can be lightened to the slightest degree with the cessation of hostilities. Millions of people liberated from the Prussian yoke are now depending upon us for the food which will keep them from starvation.

With food the United States made it possible for the forces of democracy to hold out to victory. To insure democracy in the world, we must continue to live simply in order that we may supply these liberated nations of Europe with food. Hunger among people inevitably breeds anarchy. American food must complete the work of making the world safe for democracy.

Last year we sent 11,520,000 tons of food to Europe. For the present year, with only the European Allies to feed, we had originally pledged ourselves to a program that would have increased our exports to 17,500,000 tons. Now, to feed the liberated nations, we will have to export a total of not less than 20,000,000 tons—practically the limit of loading capacity at our ports. Reviewing the world food situation, we find that some foods will be obtainable in quantities sufficient to meet all world needs under a regime of economical consumption. On the other hand, there will be marked world shortages in some important commodities.

### Return to Normal Bread Loaf.

With the enlarged wheat crops which American farmers have grown, and the supplies of Australia, the Argentine and other markets now accessible to shipping, there are bread grains enough to enable the nations to return to their normal wheat loaf, provided we continue to mill flour at a high percentage of extraction and maintain economy in eating and the avoidance of waste.

In fats there will be a heavy shortage—about 3,000,000,000 pounds—in pork products, dairy products and vegetable oils. While there will be a shortage of about three million tons

in rich protein feeds for dairy animals, there will be sufficient supplies of other feedstuffs to allow economical consumption.

In the matter of beef, the world's supplies are limited to the capacity of the available refrigerating ships. The supplies of beef in Australia, the Argentine and the United States are sufficient to load these ships. There will be a shortage in the importing countries, but we cannot hope to expand exports materially for the next months in view of the bottle neck in transportation.

We will have a sufficient supply of sugar to allow normal consumption in this country if the other nations retain their present short rations or increase them only slightly. For the countries of Europe, however, to increase their present rations to a material extent will necessitate our sharing a part of our own supplies with them.

### Twenty Million Tons of Food.

Of the world total, North America will furnish more than 60 per cent. The United States, including the West Indies, will be called upon to furnish 20,000,000 tons of food of all kinds as compared with our pre-war exports of about 6,000,000 tons.

While we will be able to change our program in many respects, even a casual survey of the world supplies in comparison to world demands shows conclusively that Europe will know famine unless the American people bring their home consumption down to the barest minimum that will maintain health and strength.

There are conditions of famine in Europe that will be beyond our power to remedy. There are 40,000,000 people in North Russia whom there is small chance of reaching with food this winter. Their transportation is demoralized in complete anarchy, and shortly many of their ports will be frozen, even if internal transport could be realized.

### To Preserve Civilization.

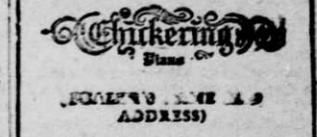

At this moment Germany has not alone sucked the food and animals from all those masses of people she has dominated and left starving, but she has left behind her a total wreckage of social institutions, and this mass of people is now confronted with absolute anarchy.

If we value our own safety and the social organization of the world, if we value the preservation of civilization itself, we cannot permit growth of this cancer in the world's vitals.

Famine is the mother of anarchy. From the inability of governments to secure food for their people grows revolution and chaos. From an ability to supply their people grows stability of government and the defeat of anarchy. Did we put it on no higher plane than our interests in the protection of our institutions, we must bestir ourselves in solution of this problem.

Fortunate are the children who grow up in homes where good music is counted among the necessities of life and finds its expression through an instrument so sympathetic and responsive as the
