**All Was Quiet.**

At a church service when all was quiet and the congregation had been asked to pray silently, my little niece said in a loud and anxious tone when she noticed my closed eyes: "Don't go to sleep, Uncle John."—Chicago Tribune.

**Multiplication of Bacteria.**

Bacteria multiply by simply breaking apart. Soon the two parts are full-sized germs and each itself separates, so that it is easy to see how quickly millions of germs can be produced. Cold stops their growth, but they begin to grow again when they become warm.

**Armies Equally Matched.**

The battle of Fontenoy was the only large battle ever fought in which the opposing armies were of equal size—each 70,000 men—and the loss of victors and vanquished equal also—both being 7,500 men.

**Hard to Understand.**

Some one asks this question: Why is it one wakes up at 4 a. m. quite rested and fresh, turns over, sleeps soundly for four hours and once more awakens—tired out and awfully sleepy?

**Words That Live.**

Words which flow fresh and warm from a full heart and which are in-tinct with the life and breath of human feeling, pass into household memories, and partake of the immortality of the affections from which they spring.—Whipple.

**Expression Almost Obsolete.**

Salt river, the derisive destiny of defeated nominees, was once almost universally favored by political dopesters in estimating the chances of the opposition, but rarely finds its way in print nowadays.

**Figured Out.**

Jud Tunkins says a man can be happy if he has all the money he wants, only there isn't any such thing.—Washington Star.

**Mustered Out at 70.**  
Three score years and ten! It is the scriptural statute of limitations. After that you owe no active duties; for you the strenuous life is over. You are a time-expired man, to use Kipling's military phrase: You have served your term, well or less well, and you are mustered out.—Mark Twain on his 70th birthday.

**Golden Rule Supreme.**  
When the Golden Rule is followed there is no obstacle big enough to prevent men getting together. This rule permits no selfishness, much less injustice, but requires the square deal, even at the cost of mutual concessions, and absolute good faith.

**Fighting "Miners' Blindness."**  
Blowing white dust down mine tunnels to increase the illumination is the latest scientific aid against "miners' blindness," a disease which costs England \$5,000,000 annually.

**Umbrellas Considered Effeminate.**  
When umbrellas were first introduced into America, in the latter part of the Eighteenth century, their use was confined almost exclusively to women, as it was regarded as very effeminate to carry one.

**Diver Heavily Outfitted.**  
Boots worn by deep-sea divers weigh 20 pounds each. The helmet weighs 40 pounds and the diver is obliged to carry additional ballast to take him far below the surface.

**Good Printing**

THE kind of printing that pays dividends is the kind you should have. Pale, muddy, poorly arranged printed matter is worse than none. The quality of your business is often judged by the quality of your stationery—inferior printing gives an impression of cheapness that is hard to overcome, while good printing carries with it a desirable suggestion of quality.

We produce only Quality Printing. Whether you want an inexpensive handbill or a letterhead in colors, if you order it from us you will be sure of getting good work. We have the equipment and the "know how" that enables us to get out really good printing—printing that impresses people with the good taste of its users. That is the only kind of printing that
