## To The Public.

The Cottonwood Report has completed its mission as a political journal under the auspices of Mr. L. J. Hornaday, who has retired from the editorial chair since the election, its usefulness no longer being apparent from the fact that the men whose cause it so bravely championed during the political reverses of the late campaign have reaped their reward and are rejoicing in the full fruition of their prodigious labors.

The long-suffering and patient patrons of this paper have stayed with it through so many managements, that we feel somewhat at a loss to know just what to promise and what to expect. We shall not undertake to publish either a political, literary, scientific, religious or humorous journal, but will do the best we can in the way of giving you a local family paper. We shall be pleased at all times to chronicle every event that we think will interest our patrons and to do anything we can for the development of Camas Prairie and the growth of Cottonwood.

We are very sorry to be compelled to issue on a half sheet on our first week, but you will pardon us this time and we will try to get on our feet in a few days.

We will close for the present by asking every one who wishes an interesting paper to send us the news and especially when in town call in and see us.

Very respectfully,  
H. TAYLOR.

## Official Vote.

Official vote of Idaho County for district and county offices:

|                               |     |

| No                            | 60  |

## Thanksgiving.

The Lord High Executioner of our land has issued a proclamation setting apart Thursday November 26th., as the day on which all good Americans shall return thanks to the powers that be. The cynical may enquire under the present circumstances, "what have we to be thankful for?" Surely the bachelor who has no family troubles may be thankful for that; the spinster may be thankful that no horrid man is entitled to command her obedience; the Benedict may rejoice that he has a wife together up in the morning to build fires during the cold winter months, the married woman that she has a liege lord and protector; the capitalist is thankful that he is not broke, while the broke man may thank his stars that he has nothing to lose during these panic times; take it all in all every individual has something for which to be thankful.

A special train bearing all the important officials of the Northern Pacific, passed down the road Wednesday. Their destination was Julietta from which place they took carriages and drove over the proposed route of the extension of the Palouse branch to Lewiston, Idaho. The officials had a conference with the citizens of Lewiston Thursday and it is understood that they gave out that the Northern Pacific would soon be extended to that city.—Oaksdale Sun.

The Tribune much regrets having published the report of the suspension of the Cottonwood Report. The information appeared to be reliable but happily is untrue. We should be glad to know that the Report was so stable and prosperous that evil whispers should find no lodgment against it. Lewiston Tribune.

Washington, Nov. 14.—The secretary of the treasury has been informed that the present silver currency of British Honduras was demonetized Oct. 29, 1894. Gold dollars will hereafter be the standard coin of Honduras. The effect of this action, therefore, is the demonetization of silver.

Speaking of the proposed railroad from Weiser to the Seven Devils Country, the Weiser Signal says: The railroad right-of-way has been secured by the local committee from Weiser to the canyon and the deeds are signed. The committee appointed to get the land subsidy into proper legal shape has had a great deal to do before it could to actual work, but the next few days will see everything in ship shape.

Last Friday, A. C. Butcher of Farmington had Gen. T. R. Tannat and J. Blickenderfer arrested for criminal libel, as the result of their political fight. We understand that the libel is claimed to have appeared in an article in the Gazette of last week. The trial was set for yesterday afternoon and the result is awaited with interest as the parties are well known in this vicinity.—Ex.
