Prosperity and politics are the words that need to be connected with a sort of hyphen so that the phrase may represent the need the people feel for just taxes, fair competition and the abrogation of the illegal Trust-Conspiracies that are allowed in the interest of a small favored class.

No Deficit in The Treasury.
The President insists that the bond issues were not made to cover any deficit in the Treasury. If this is true, and no one can doubt the word of the President, will he be kind enough to explain where the 170 odd millions of dollars have gone to that went in to the Treasury to draw out the gold for which the bonds were sold? It perplexes us to know why this money is not reported as a surplus, if there has existed no deficiency. Will the President kindly inform us where that money is at the present time if it has not been used, and if used was it not used to cover a deficit?

In doing work a man must eat;
Drink, sleep and rest—
At least one meal must provide meat,
Hot and of the best.
O! do not fail to take this chance,
Prepare your meals with lean
And tender meats at towns, on ranche—
Cured meats—salt meats or green.
Kick if you do not get our brand,
In all good towns you'll find
No merchant fails to keep on hand
Goods made by us—the kind
& grade of goods we all like most—
Men, women, girls and boys.
Can you blame us for this our boast?
O! no, (for it's the best meat in the world.)
Thus all this noise.

Use our meats only.
