Strictly in Advance

Entered in the Postoffice at Cottonwood Idaho, as Second-class matter.

How'd you like to be a juror?

John Aichlmayr is agitating a project that ought to receive the hearty cooperation of every farmer in this country. He has written in regard to machinery for a creamery and intends to call a farmer's meeting soon. Turn out, everybody, and help the new enterprise.

California is again facing a dry season, reports the Oregonian, which promises to cut her grain down at least 50 per cent, if it does not do even greater damage. The Golden State has had but one good crop since the last total failure, and now there is a strong probability of another alarming deficit. This will have the effect of sending wheatgrowers this way where crops never fail.—Genesee News.

Man does not "go to" heaven, but he creates his own heaven, and enjoys the happiness and harmony associated with the term in exact proportion to the degree in which he has created them during his life on earth. Many a man still dwelling here experiences daily more of the joys of heaven, so called, than many others who have passed through the changes we call death.—Margaret Bottome, in May Ladies' Home Journal.

If your farm is paid for, don't put a mortgage on it, or your personal property, unless dire necessity compels it. Don't get the blues and over-reach. That is what a mortgage usually means. The work, worry and sense of obligation which a mortgage carries until paid, don't pay. It takes more happiness out of farm life than the increased gains usually bring. Pay as you go and enjoy life.—Kendrick Gazette.

A great many amusing incidents are related by those who have been in attendance at court. The following dialogue between the lawyer and prospective juror is one of many similar tales told:

"Are you acquainted with this case?"
"No, sir."
"Have you ever heard any talk about it?"
"No, sir."
"Have you ever read any thing about it?"
"No, sir."
"Do you read any papers?"
"Yes, sir."
"What kind?"
"Good ones."
"What kind of good ones?"
"STORY PAPERS."
"Have you ever expressed an unqualified opinion that the prisoner is guilty?"
"YES, SIR."
"WHAT?"
But here the judge interceded in the man's behalf and discharged him as incompetent.

Now let immigrants size up Latah, Nez Perce and Whitman counties and if they cannot find what they want they need look no farther. We have a country here that is incomparable. We take down the Lanner to none, and the next ten years will prove the assertion. News does not tire of singing its praises; it will not exaggerate, nor prevaricate. We invoke the assistance of all in disseminating the advantages of the Inland Empire. More people are wanted to assist in making this the garden spot of the whole Northwest. We produce almost everything worth having—grain, fruits, cattle, fish, minerals, etc., with a mild climate. What more can one ask for?—Genesee News.

What about Idaho county Mr. Newsman? Didn't you "overlook the best bet in the game?" We have all of your resources, besides having more timber, mineral and grazing land. If the prospective investor cannot find what he wants in Latah or Nez Perce counties, let him come to our county and be satisfied.

STATE NEWS

The present plans of the Devey company, it is said, provide for the installation of a sufficient number of vats to handle 50 tons of ore daily. It is estimated that the ore susceptible of cyanide treatment is of sufficient quantity to keep a 50-ton plant in steady operation for five years.

The Courier last week sold the Army press that started the paper at this place, to John Schick who will start "The Prairie News" at Chicago.—Orofino Courier.

Supt. Muerman, of the Moscow public schools, has been elected as superintendent of the Caldwell public schools for the ensuing year. The Caldwell board have made a good selection as Mr. Muerman is one of the best public school men in the state.—Star.

Although the roads are still somewhat inconvenient to travel, the transportation of considerable freight is going on between Council and the Seven Devils. As soon as the roads are in a condition that will permit, freighting into this district will be carried on to a much larger extent than ever before.—Seven Devils Standard.

E. H. Libby, president of the Lewiston Commercial club, has been in Spokane in consultation with the management of the O. R. & N. for the purpose of securing the services of a boat to take the river and harbor congressional committee for a trip over a portion of the Snake and Columbia rivers, when that body visits the Inland Empire in July. He thinks arrangements for the trip can be made with success. He was also negotiating with the railroad company to have it put on a line of steamers on the Snake river to run from Lewiston to Pittsburg's Landing.

Colfax, May 6.—The body of Laura Morgan, the school girl who disappeared March 12, was found on a sand bar in the Palouse river four miles west of Colfax this afternoon.

A searching party started out this morning in boats, wagons and on foot to make a thorough and systematic search of the river. Mrs. Morgan, mother of the dead girl, drove down the river in a hack. Mr. Stoneberger, father of Mrs. Morgan, discovered the body. It was lying on the bank, fully dressed. Mrs. Morgan was nearly crazed when the body was found. She was on the opposite bank of the river and it required the efforts of a number of persons to restrain her from plunging into the river to reach the body of her daughter.

Laura had been suspended from school for one day for some slight infraction of the rules and left school with two books under her arm. Next morning her cap was found on the bridge a mile from town and her books on the bank of the river near the bridge.

GENERAL NEWS

Ewart, Iowa, May 3.—Fire last night practically destroyed the entire town. The loss is estimated at \$100,000.

The gold dug from Australia and California since their mines were discovered would fill a room 40 feet long and 20 feet wide, and 20 feet high, and it is a problem to tell what its wealth, counted in dollars, would be.

London, May 3.—A special dispatch from Odessa, dated April 26, purports to give an eyewitness story of the recent ferryboat disaster on the river Dnieper, near Katchkarovka, where almost a hundred mothers with their babies returning from the evening milking were drowned. A sudden storm sprang up, there was a panic, the pontoons were swamped and only a few of those on the ferry were saved by a boat. Practically every family in the village was rendered motherless by the disaster.

of the county was prejudiced against A. Gilbert, who is charged with the murder of J. Smith. This action is taken in order to try and secure a change of venue for Gilbert.

This office is indebted to Mrs. Wm. Bash for a pitcher full of the finest cream it has ever been our desire to get some more of. The cream was separated by a People's Separator, for which Mr. Bash has the agency. Mrs. Bash formerly made four pounds of butter each week from the milk of only one cow but now she makes six with the aid of the separator.
