CAMAS PRAIRIE CHRONICLE.

RUSTMEYER & WIMER, Publishers.
Subscription \$1.50 per Year.
Strictly in Advance.
Entered in the Postoffice at Cottonwood Idaho, as Second-class matter.

A home paper is in no sense a child of charity. It earns twice over every dollar it receives and is second to none in enterprise, contributing to the upbuilding of a town or community. Its patrons reap far more benefit from its pages than its publishers, and in calling for the support of the people of a community in which it is published, it asks no more than in all fairness belongs to it, though it generally receives much less.—Standard.

How oft the old saying is repeated with little thought of its true meaning. "Mother when the cows come home we will buy Dolly a new dress." Now mother, the cows are coming home, coming to stay until they are milked and milked long enough to pay for the other experience we have had in trying to raise grain besides buying Dolly the new dress. The day of wheat raising is past and the farmer has concluded that he must either go into politics or milk the cow.—Genesee News.

"We are shipping quite a lot of cotton to the Japanese again," said a freight official of the Northern Pacific to the St. Paul Globe. "A year ago last winter, when the price of cotton was phenomenally low, the astute Japs could not buy too much. We used all the available space on our boats and chartered several extra vessels to supply the extraordinary demands for cotton from the Japanese manufacturers, who not only secured enough to last them for a season, but when the price shot up, were able to ship American cotton to Liverpool at a large profit. The reserve supply laid in at that time is now about exhausted, and they are now buying in the market as usual.

"In addition to flour, the Japs are just now buying immense quantities of American tobacco and every ship we send across the Pacific contains a goodly supply, which is manufactured into flavored cigarettes and sent back to be sold at fancy prices. Next to tobacco and cotton the Japs seem to be buying more electrical machinery than anything else and after that come flour and lumber, both of which commodities they get from the Pacific coast states for the most part.

"Our trade with the orient is brisk just now, the boats which take over American products coming back with tea, silk and curios."

STATE NEWS

Messrs. Thiessen, Vollmer, Sully, Mounce and others have in course of construction or will build substantial business blocks in Lewiston this season. The Tribune states that the aggregate cost will exceed \$60,000.

Boise, June 4.—The republican state committee met here today. F. A. Fenn, who has been appointed superintendent of forest reserves in Idaho to succeed James Glendenning, resigned the chairmanship. Ex-Senator Frank B. Gooding, of Shoshone, was elected to the place, the vote being: Gooding 15, M. Patrie, ex-secretary of state, 4; F. C. Wyman, of Boise, 1. The result of the meeting is to advance the candidacy of W. E. Borah for United States senator, while W. B. Heyburn is practically eliminated from the contest.

The Buffalo Golden Gate Mining and Milling company, which was recently incorporated in this city, elected the following officers last night: Judge E. C. Steele, of Moscow, president; H. W. Sharp, of Kendrick, vice-president; W. H.

Davison, treasurer; Geo. W. Tannahill, secretary. These officers, with A. J. Payne, constitute the board of directors. The company owns the Gold Bug, Golden Eagle and Old Gold claims at Buffalo Hump, and they expect to do considerable development work on their properties this summer.—Tribune.

L. A. Porter, who returned yesterday from Spokane, says the capitalists are keeping a close watch on the Lewiston oil fields. The progress of the wells now being bored in this valley is noted to determine the difficulties to be met in future prospect work and as a lesson from observation of the underlying strata. The capitalists generally regard the Lewiston valley as a favorable field for oil investments. The revelation of heavy cretaceous deposits underlying this valley in the progress of well drilling during the immediate past has aroused general interest in our oil prospects.—Wed. Tribune.

GENERAL NEWS

The evacuation of China by the allied troops has commenced.

The post office at Latah, Wash., was broken into Saturday and robbed of \$210 besides some jewelry.

London, May 29.—During the week ending May 25 there occurred in Hong Kong 187 deaths from bubonic plague.

Havana, May 29.—La Discusion says the country generally approves the acceptance of the Platt amendment and predicts the beginning of an era of prosperity.—Tribune.

A dispatch from Lord Kitchener, dated Pretoria, May 30, is as follows:

"General Dixon's force at Vladfontein was attacked yesterday by Delarey's forces and there was severe fighting. The enemy was eventually driven off, with heavy loss, leaving 33 dead. I regret that our casualties also were severe. The killed and wounded numbered 174. Four officers were killed."

Washington, June 4.—About the first of next month a full civil government will be set up on the Philippine islands, exactly as projected by the Philippine commission. As soon after that date as the administrative machinery can be made ready for it, the Philippine tariff will be proclaimed, also following out the original plan formed before the announcement of the decisions of the supreme court last week.

The division of insular affairs of the war department makes the following statement concerning the customs revenues of the Philippine islands for the two months ended February 28, 1901, as compared with the same months of 1899 and 1900. The total revenues February, 1901, \$1,455,859; February, 1899, \$563,956; February, 1900, \$724,024.

The figures indicate an increase in 1901 over 1899 of \$891,402 and over 1900 of \$731,335, or more than 100 per cent.

A Belgian engineer named Tobinsky of Altorff is said to have just discovered a means for turning smoke into light, writes a Berlin correspondent. His apparatus collects the smoke, no matter from what fire, forces it into a filtered receiver, where it is saturated with "hydro-carbure" and turned into a brilliant light. By means of this invention, which the Belgian papers are all busy discussing at the moment, an ordinary kitchen fire can be made to produce a light equal to that of 50 Bees Auer, or, if preferred, it can be made to warm four or five ordinary rooms or drive a gas engine of four or five horsepower.

New York, May 29.—A dispatch to the Tribune from London says: The Post draws the attention of Englishmen to the annual report of the military governor of Havana, and remarks on the surprising measure of success that has been attained by the American administration in a short period. The experience of Havana during the first year and a half of American supervision proves, says the Post, that a government under the authority of an American executive would be incomparably better than anything that Spain had been able to give and than anything that the Cubans could create for themselves. The same paper adds that the excellence of the administration supplied and its suitability to local conditions are thorough title deeds of empire.

na, and remarks on the surprising measure of success that has been attained by the American administration in a short period. The experience of Havana during the first year and a half of American supervision proves, says the Post, that a government under the authority of an American executive would be incomparably better than anything that Spain had been able to give and than anything that the Cubans could create for themselves. The same paper adds that the excellence of the administration supplied and its suitability to local conditions are thorough title deeds of empire.

CONTEST NOTICE.

DEPARTMENT OF THE INTERIOR UNITED STATES LAND OFFICE Lewiston Idaho, April 18, 1901.

A sufficient contest affidavit having been filed in this office by Edward W. Lindsley, contestant, against Milton E. Scantlin, entry No. 5811, made June 15, 1898, for NW 1-4 Sec. 1, Tp 27 N, R 1 E B M, by Milton E. Scantlin Contestee, in which it is alleged that said Milton E. Scantlin never resided on said land, has abandoned the same as by law required. Said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m., on June 25th, 1901, before Jas. DeHaven, U. S. Commissioner at Grangeville, Idaho, and that final hearing will be held at 10 o'clock a. m., on July 2nd, 1901, before the Register and Receiver at the United States Land office in Lewiston, Idaho.

idence touching said allegation at 10 o'clock a. m., on June 25th, 1901, before Jas. DeHaven, U. S. Commissioner at Grangeville, Idaho, and that final hearing will be held at 10 o'clock a. m., on July 2nd, 1901, before the Register and Receiver at the United States Land office in Lewiston, Idaho.

The said contestant having, in a proper affidavit, filed May 9th, 1901, set forth facts which show that after due diligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

CHARLES H. GARRY Receiver.
