Fred Simon and Joseph Schober be-
gan putting up ice this week. The ice
is being cut on Goldstone's pond.

Messrs. Morris, Seth Jones, George
Yates and quite a number of other cat-
tle men were in town the early part of
the week.

The two Irwin brothers and their
cousin, from Rapid river, arrived in the
city Wednesday with the purpose of
buying saddle horses.

There are no minerals that exist in
the bowels of the earth anywhere, in-
cluding petroleum and illuminating
oils, that are not found in Idaho.

Bert Crawford, who has been ill for

would like to see some of those sub-
scribers who promised to bring us wood
on subscription make their word good.

Died.—At Grangeville, January 20,
1902, David B. Baldwin, aged 71 years
and two months. Mr. Baldwin was one
of the oldest pioneers of Idaho county.

Grand hall at Denver, Idaho, Friday
evening, February 14th. St. Valentine
hall given by Modern Woodmen of
America. Tickets \$1.50. Everybody
welcome.

Chas. Kelly came in Wednesday from
Salmon river. He reports the river
frozen over so it is possible to cross on
the ice. It is several years since it has
been so cold on the Salmon.

The snow will protect fall wheat and,
in going off, fill the ponds which many
farmers have constructed. It is just
what the country needed—but then—
Camas Prairie generally gets that.

Jonas Lawrence arrived at Grange-
ville from Thunder mountain last week,
making the trip in 8 days. He says the
trail to the camp is wide open and there
is but very little snow shoeing to do.

John W. Crea, of Denver, was in the
city yesterday. While here he paid for
his CHRONICLE, which paper he has
taken for a number of years. Several
others also favored us this week, for
which we are duly thankful.

The dances of the season will be given
in Odd Fellows hall this evening. This
will be the last dance before Lent and
crowds have promised to come from
Grangeville, Denver and Tolo. Don't
miss it if you want to see a real ball.

The coldest weather in many years
struck us for a few hours last Saturday
night. At 9 p. m. the thermometer
registered 20 degrees below zero, but
before morning it had risen to 4 below.
The old timers are all trying to recol-
lect when it was so cold-before.

Our readers will be pleased to learn
that little Bertha Teft, who was last
week supposed to have a mild case of
varioloid, is perfectly well and that at
no time was there any danger of small
pox spreading in our midst. The girl
simply broke out with a rash to which
all children are subject.

A gentleman representing the Hull
safe company paid this town a visit last
Wednesday. He could have sold the
CROOKIX the largest safe manufac-
tured by his company if we had a place
to put it, but as it is we are compelled
to bury the enormous amount of cash
we take in on subscriptions.

Marion Worden, brother to Tim Wor-
den, arrived here Sunday from Klond-
ike and the two brothers will leave in
the near future for California where
they will live in ease and luxury. Mr.
Worden says the mercury was standing
55 degrees below zero when he left Daw-
son. Excuse us, we'll remain in Idaho.

Joseph Schober is remodeling the in-
terior of the Bargain Store building and
will in the near future establish a new
saloon. The platform upstairs will be
used as a music hall and Mr. Schober
has already sent for an organ, a violin
and a banjo. He will put in the finest
fixtures obtainable and proposes to run
a first class resort in every respect.
The improvements on the inside will
take considerable time, although three
carpenters are employed on the job.

Wm. H. Lacey, of Niles, Michigan, is
here looking for a location for a power
plant and flouring mill. He has located
a water right at the falls of the South
Fork about ten miles from town and
contemplates the erection of a large mill
on the prairie to be operated by electric
power. It is rumored that the new
concern aims to monopolize all electrical
enterprises in the vicinity. W. L.
Kimmel is a prime mover in the pro-
ject.—Free Press.

At a young men's meeting last Mon-
day evening it was decided to combine
and organize a fraternity, the object of
which will be to pass away pleasantly
and sociably the long winter evenings,
raise funds to establish a gymnasium,
etc. It was proposed that the order be
secret, and have regular initiation cere-
monies, grips and passwords, but the
proposition has not been acted upon as
yet. If the boys will carry their scheme
out it will be the means of spending
many a pleasant hour, which would
otherwise be idle, in a praiseworthy
manner.

Judge D. M. Hartman, a prominent
citizen of Grangeville, yesterday pur-
chased a residence and three lots at
Vineyard from A. Keefer, the consider-
ation being \$1500. Judge Hartman and
wife are now in the city and will im-
mediately make arrangements to move to
Vineyard to permanently reside. "I
still have interests in Idaho county,"
said Judge Hartman, "and expect to
spend much of my time there during
the summer months. Camas prairie is
a great country and is now attracting
more attention than at any time in the
past. The present year will be one of
much progress."—Tribune.

During the cold snap last Friday even-
ing Fred Jansen, who lives a little way
below the Kalin place, got up and
started for his neighbor's home with
nothing on his feet but a pair of rub-
bers. He had not proceeded very far
before his feet became numb and he
lost his rubbers, going the rest of the
distance bare footed. His feet were
badly frozen and he is now at the Cot-
tonwood House in a precarious condi-
tion. It seems that Mr. Jansen was ill
and could not attend to his fire, so be-
coming cold he decided to go to the
neighbor's, with the above result. It is
doubtful if he will recover. Ben Cooper
also had his feet frozen the next day
while riding between here and Grange-
ville, but not seriously. Redge Jerome
is another victim of the frost, having

At his home, near Keuterville, on
