\$1.50 per Year.

Another Large Gold Discovery

Denver newspaper man finds a new kind of Gold bearing quartz.

BRANCH OF SALMON

is in south Idaho and is said to be fabulously rich.

dispatch from Denver, Col., Gold discoveries near the headwaters of the Salmon river in Idaho are reported and presage the opening of a new mining district which may rival any heretofore discovered. Specimens of extreme richness ore said to have been found in this region have been brought to this city by T. M. Howell, a former Denver newspaper man, one of the pioneers of the Cripple Creek district and a well known prospector.

One of the pieces of float found in twain revealed a streak of almost pure gold half an inch thick and assayed at the rate of 55 ounces to the ton. The ore is a rusty sugar quartz mixed with iron that looks more like coal than phenomenally rich rock. Mr. Howell said that the ore was found near Yellow Jacket creek, one of the tributaries of the Salmon river, along which many millions of dollars worth of placer gold has been found. The district is 125 miles from the nearest railroad station, Red Rock, Mont., over which hundreds of persons passed going to Thunder Mountain.

"I believe that the find," said Mr. Howell, "goes a long way toward solving the problem of the source of the placer gold of the Idaho streams. This ore is a pure formation, entirely different from the white quartz veins which have heretofore been prospected by the placer miners of that country in their search for the ledges containing gold, yet there has been comparatively little gold quartz mining in that country. This ore is remarkably free milling and quite entirely different from the white quartz which abounds throughout the mountains of Idaho and is closely associated with these veins."

He reports the climatic conditions of the district as being remarkably favorable. There are other prospectors out in that field, and a stampede is anticipated in the early summer when the roads of the new district are passable.

Crop prospect is Excellent.

The grain out over the prairie is looking exceptionally fine for this season of the year and under ordinary conditions the chances for wheat to run above the fifty bushel mark this fall are by no means slender. Fall sown wheat is looking very fine and in many fields the grain is already knee high, well developed and of a very healthy color. Spring grain is also coming along nicely and will bring a good yield. Recent rains have provided an abundance of moisture for present needs and with the June rains which have never yet failed the crops will be advanced in perfect

condition to the ripening stage early in August. The present outlook for an exceptional yield is fine and if no unseen thing happens to cut down the yield the farmers will have their hands full this fall taking care of their enormous crops.

FOR SALE.

A 160-acre farm three miles from Cottonwood, 130 acres under cultivation, all fenced and cross fenced and with 30 acres in fall wheat. Two fine springs and water in abundance. A 5-room 1 1/2-story house with well at corner of porch and a good cellar. Big barn, graineries, hog houses, cow barns, etc. Bearing orchard of 100 trees with berry bushes and shrubs galore. Also a lease on 80-acre farm, 45 acres of which is in fall wheat. Will sell all of above property for

\$5,000, Cash.

Stock and machinery also for sale with farm if purchaser so desires. Good school house within a mile of farm. For further particulars inquire of

CAMAS PRAIRIE CHRONICLE, Cottonwood, Idaho.

A REAL VEGETARIAN.

OHIO YOUTH HAS NEVER EATEN ANIMAL FOOD.

Contrary to Prophecy He Enjoys Best of Health and Is Fond of Outdoor Sports — Diet Consists Principally of Potatoes.

Dr. J. H. Kellogg, physician in chief of a Battle Creek (Mich.) sanitarium who is one of the most noted advocates of vegetarianism in the world, has been gathering statistics and has discovered one person who has never eaten meat in his life.

The person is Hubert H. Bretz, a 16-year-old boy, of Ceina, O. Dr. Kellogg has received a letter from the boy's mother in which she says that her son has never eaten meat, chicken, turkey, oysters, or even eggs, the taste of which he does not know. He will not eat broths flavored with meat. From infancy he showed an aversion for meat. When a child the mother would put potato over a piece of meat and try to deceive him, but he always ate the potato and rejected the meat. When he grew older the mother attempted to hire him to eat meat, but to no purpose. All the rest of the family are meat eaters.

Contrary to the prophecies of the physicians that he would be sickly and delicate, he has enjoyed the best of health and has never been ill more than one week in his life. He is an athlete and fond of outdoor sports, being captain of the high school football team and the baseball nine. He is intelligent, a good scholar and has won many prizes as an elocutionist.

The boy weighs 140 pounds and is five feet eight and one-half inches in height. He has never had any of the illnesses incident to childhood, such as measles, whooping cough, etc., while his sister, who is 11 years old and a meat eater, has had all of these diseases, and he remained in the house with her all the time.

There are many non-meat eaters in the world, but all others gave up eating meat after reaching a certain age.

Mrs. Bretz, the mother, writes that the boy's diet is principally potatoes, which must be cooked without grease. Mashed or baked is his favorite method of preparation. He could eat potatoes three times a day and never ask for anything else. He eats plenty of bread and navy beans. He cares nothing for pastry and eats little fruit.

Some Things He Did Not Do. Thomas Dunn English, who died recently, is to be described on his tombstone: "Author, Editor, Lawyer, Soldier, Physician and Statesman." The Kansas City Star remarks that future generations will be left to wonder, naturally, why he never studied music and china painting.

Greek Stadium Reopened. Having been restored in white marble at a cost of over \$100,000, the ancient Stadium of Athens has been opened for athletic sports.

News Around The State

Items of Interest Reproduced for the Benefit of our Readers.

A STORY OF THE WEEK

A few incidents that have occurred in the State since our last issue.

A state militia company has been organized at Juliaetta.

Nezperce has organized a ball team for the summer but will not hire any outside players.

The citizens of Ilo subscribed \$10,000 Monday toward the construction of the electric railroad.

The Mohler citizens raised about \$12,000 for the electric road at a meeting held there late last week.

Judge Steele completed the work of the district court at Lewiston Wednesday and adjourned the session.

A number of farmers in the Genesee country have had to reseed some of their land where the grain was frozen out last winter.

G. W. Thompson, of the Commercial Trust Co. of Lewiston, has sold his interest in the company to his partner, W. P. Huribut.

A cinnamon bear entered the town of Orofino Tuesday and caused a great deal of excitement. It was finally killed and its skin will be mounted.

Thieves broke into the store and postoffice at Troy Sunday night and stole a number of razors, knives, etc. It is not known who did the work.

John Adair, a young man wanted in Whitman county for horse stealing, was arrested near Nezperce late last week and has been taken to Colfax.

Sheriff Greene put a stop to a prize fight which was to have been pulled off at Grangeville last week. The participants did not care to go up against the state law so called the fight off.

A man in Silver City recently uncovered a quartz ledge worth a fortune while digging in his doorway. The ledge carries a 3 inch vein of free gold which will assay thousands of dollars to the ton.

The commission to select the site for the new insane asylum will leave Boise Sunday for north Idaho. The first stop will be made at Genesee. Then Juliaetta, Orofino, Culdesac, Joel, Moscow, Lewiston and Coeur d'Alene City will be visited.

The jury in the Nan Patterson case has again disagreed and been discharged. Miss Patterson fainted when she heard the decision. It is probable that she will now be released on a small bond as the case will perhaps not be prosecuted further.

The body of John Muir, a painter, was found hanging in a house at Nezperce Sunday where the man had evidently committed suicide several months ago. The house was back from the street

some distance and that fact together with the impression that Muir had gone to Wallace accounts for the body remaining so long undiscovered.

ADDITIONAL LOCAL.

Fresh onion sets just received at Goldstone's.

Have you dandruff, falling hair, itching scalp or baldness, if so get a bottle of Micro, at Briley's.

When in Grangeville step into the Oregon Saloon and let Fen Batty serve you a cool glass of Cottonwood beer.

Before you buy that new spring gown call at Goldstone's and look over his line of dress goods just received. It will pay you well.

Why suffer with spring tiredness, mean, cross feeling, no strength, no appetite? Hollister's Rocky Mountain Tea will make you well and keep you well. 35 cents, Tea or Tablets. Briley.

Don't let the children suffer. If they are fretful, peevish and cross, give them Hollister's Rocky Mountain Tea. The best baby tonic known. Strength and health follow its use. 35 cents. Briley.

Chamberlain's the Very Best.
"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Briley.

NOTICE FOR PUBLICATION.

Department of the Interior, Land Office at Lewiston, Idaho, May 3, 1905.
Notice is hereby given that the following-named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before James DeHaven, U. S. Commissioner, at Grangeville, Idaho, on June 20, 1905, viz:
LEANDER E. EED,
of Cottonwood, Idaho, for the Lots 5, 6, 7, 8, 9, 10, 23 and 24 Sec. 30, Tp. 33 S., R. 2 E. B. M.
He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: George Techar and Willis Angell, of Cottonwood, Idaho, and Herman Gehring and Henry Uhlenkott, of Grangeville, Idaho.
J. B. West, Register.

CLAIM THEY CAN MAKE GOLD

Two Rhode Island Men Announce Results of Their Remarkable Experiments.

Two Newport (R. I.) men, Thomas Cockings and Thomas Rees, who for five years have been toiling to wrest from nature the secret of making gold in paying quantities, claim to have at last realized the hope of their lives. The last assay that was received by them recently shows that their product ran 50 ounces to the ton of material used. As gold is worth \$20.60 per ounce, this would make a ton of product treated worth \$1,030, and they claim that there is big money in their discovery at this rate.

Some time ago their experiments were investigated by men interested in them. At that time the assays did not show that the gold could be produced in paying quantities. Their experiments started as the result of a friendly debate, and have continued nearly every day during the past five years. One of the most serious drawbacks to their work has been to find crucibles that will stand the intense heat necessary to reduce the materials used in the production of the precious metal.

They showed a graphite crucible costing \$9.60, which is warranted to stand 4,000 degrees of heat, the bottom of which has been completely fused out. Cockings is an employe of the Newport rolling mill, and Rees is an expert lithographer.

The basic metal used in the transmutation is silver nitrate and the combination of the men, borne out by the results of their experiments, is that silver can be transformed into a metal higher in specific gravity, such as gold. Of course, the method pursued by them is a closely-guarded secret.

Man's Superiority.

A Wilkesbarre, Pa., woman who snored in church and made a fuss because the sexton woke her up was fined \$5.50 in a police court. Here again we see how man is superior, remarks the Chicago Record-Herald. When his dreams are disturbed in church he is reasonable enough to look sheepish and let it go at that.

Professional Cards

F. S. Wimer,
NOTARY PUBLIC.
Office in CHRONICLE office opposite Turner's Drug Store.

J. E. SMITH, Dentist.
Office one door east of postoffice.

Steamers leave Lewiston Tuesdays, Thursdays and Sundays. Returning leave Riparia Mondays, Wednesdays and Fridays.
C. W. MOUNT, General Agent, Lewiston, Idaho.

Traveling is Dangerous.
Constant motion jars the kidneys which are kept in place in the body by delicate attachments. This is the reason that travelers, trainmen, street car men, teamsters and all who drive very much, suffer from kidney disease in some form. Foley's Kidney Cure strengthens the kidneys and cures all forms of kidney and bladder disease. Geo. E. Hausen, locomotive engineer, Lima, O., writes, "Constant vibration of the engine caused me a great deal of trouble with my kidneys, and I got no relief until I used Foley's Kidney Cure." Sold by Briley.
