John Terwilligar, our hustling livery barn man, made a trip to Vollmer Wednesday.

J. Givens and son, Roy, left for southern Idaho to take a look at that country.

Arrived, at the home of J. W. Johnson, a bouncing baby boy. Jimmie has fully recovered.

About fifty 4 and 6 horse teams are passing through here daily loaded with grain for Vollmer.

Chas. Albin, who has been at Juliaetta for some time under the care of Prof. Foster, returned Tuesday much improved.

McCarty, the stock buyer, received two car loads of hogs here. The price being paid is \$5.35 per cwt.

Mrs. J. W. Nickle left for Springfield, Mo., on an extended visit to relatives. She was accompanied by her husband as far as Lewiston.

Magnetic Influence Of Steel Bridge.

A certain young lady at Ferdinand who could not up to the present time sympathize with mules' walks, mules' talks, mules' kicks, mules' tricks, mules' ears, and mules' fears, made at once friends of these animals which in return took her

AROUND THE WORLD 6 TIMES

Riley Dixon, the Veteran Stage Driver, Travels Miles Enough on Stage Coach to Circle Globe Six Times.

Riley Dixon, a brother of Henry Dixon, has been here from Cottonwood, visiting relatives and friends.

All the old-timers remember Riley, who from '74 until '82 was a driver of one of the six-horse stage coaches on the Walla Walla-Lewiston route. Sometimes he was on the round trip run between Walla Walla and Dayton, at other times he would go through to Lewiston, arriving at Pomeroy at noon every other day, but always during those eight years, winter and summer, Riley was on the box somewhere along this division, excepting Sundays.

He was accounted one of the company's most accomplished and valuable drivers and in the art of handling the ribbons he had no equal or rival except Felix Warren, now of Lewiston. Riley drove first under the management of Fettes, and continued his work after the line was taken over by Louis McMorris of Walla Walla.

During his 8 years on the road he covered a daily mileage of 60 miles, or 18,780 miles a year. 150,250 miles for the period of 8 years, or a distance greater than six times around the world.

During all of his time on these roads, which were then little better than Indian trails, Riley passed over the wash-outs and ditches caused by the spring freshets and across the frozen, barren, or snow covered hills of winter, guiding his long string of spirited horses safely over all obstacles and never permitting them to get beyond control. One accident did occur, in which the coach was upset at the top of the hill north of Marengo, but the horses were kept under control and but little damage was done.

Mrs. Dunniway, the woman suffragist, was a passenger that day and was slightly injured.

At another time Riley met with a disagreeable experience. His coach was held up and robbed at the mouth of Alpowa. The robber took the express box, but did not disturb the passengers. It happened that the box was empty. The day before it contained \$7000. The express box was found in the brush near the scene of the holdup, where the thief had left it after breaking in the top with a rock. Not long ago, Riley saw this old box in the office of the express company at Boise. He also recently saw his last stage coach which is stored away in Louis McMorris' barn in Walla Walla.—Pomeroy Washingtonian.

Mrs. J. E. Smith is gradually improving from her illness and will soon be out of danger.

Archie McCarty was in the city the first of the week looking up the hog market hereabouts.

Mrs. Deardorff this week ordered the CHRONICLE sent to her daughter, Clara, at Prairie City, Ore., to keep her posted on Cottonwood happenings.

J. C. Eccles, a pioneer resident of Idaho county, died at the home of J. R. Adkinson near Grangeville Monday. The deceased was 70 years of age and for a number of years resided on a farm near Grave creek south of this place. The remains were brought to this place Tuesday for interment beside his son, Mel Eccles. A large crowd of friends of the deceased attended the funeral.

to the bridge to enjoy its sights and safely deposited her at Ferdinand in appreciation of such noble friendship.

Lose A Valued Citizen.

J. A. Schultz is preparing to move his family to Cottonwood where he has purchased one of the banks. Mr. Schultz has been a resident of Nezperce for a number of years and during that time has proven himself to be a very progressive citizen, having done much toward the upbuilding of our town. Our loss will be Cottonwood's gain and his many friends here wish him success in his new location.—Herald.

Swedes Are Good Citizens.

We note that the Lewiston country is about to become the home of a large colony of Swedes. Like O'Donnell, of the Kooskia Mountaineer, we don't know how they are going to find any place that needs colonizing around Lewiston. The Swedes are great colonizers. In the timber country "back behind Wollmer" they have demonstrated this fact. They open up a country that an American would pass up as hopeless. The Scandinavian settlers of the Bear Creek country are the bone and sinew of that region. They have been instrumental in making Troy the best town of its size in the northwest.—Peck Sun.

Farm Jottings.

To free a house of mice, sprinkle red pepper where they are likely to run in it. They will soon leave.

Don't discourage the boy when he comes to you with his cares or troubles. Sympathize with him, and thank God he confides in you.

The sweetest, purest ornament that a woman can wear, and of which she should feel proudest, is the clinging necklace of her baby's arms.

Some folks are troubled by potatoes turning dark after being boiled especially at this time of the year. If they are peeled an hour or so before they are cooked, and left to stand in cold water, they will keep nice and white.

Butter may be kept solid in warm weather if put in a bowl that is covered with a plate and set in a pan of cold water. Then fold a towel and lay across the plate with the corners hanging down into the water, and put the pan in a cool, if possible, drafty place, and the evaporation will keep the butter firm.

To keep the flies from roosting on the screen door, ready to come in when it is opened, take a piece of an old window shade, or else a folded piece of manilla paper as long as the door is wide, and cut into narrow strips to within two inches of the top, then tack across the top of the door. The gentle breeze, or the movement of the door, when opened will keep the flies away.

This is why his marriage was a failure: He did all the courting before marriage. He never talked his affairs over with his wife. He thought of his wife only as a cheap housekeeper. He never dreamed that a wife deserved praise or compliments. He married an ideal, and was disappointed to find it had flaws. He paid no attention to his personal appearance after marriage. He treated his wife as he would not have dared to treat another woman.—From June Farm Journal.

George Terhaar expects to make a business trip to Spokane next week.

FOR SALE.—About 150 cords of dry 4-foot and 100 cords of 16-inch wood, and all kinds of shingles. Also 1000 fir and tamarack posts. Theodore Schmidt, Keuterville, Ida.

NEWS AROUND THE STATE

Items From Various Places Reproduced for the Benefit of our Readers—Stories Refreshed from our Exchanges.

The 15-year old daughter of Mrs. Viola Thrasher, of Coeur d'Alene, was run over by a train and killed at Weiser last Friday evening where the girl and her mother were visiting with relatives.

The Cash hardware store at Lewiston has received the contract to install a complete water system at the town of Peck. The system will be a gravity one, the water being secured from springs near that town.

Telegrams were received at Boise the first of the week from Washington removing U. S. District Attorney Ruick and Marshal Ruel Rounds from office and appointing in their place Judge C. H. Lingenfelter, of Lewiston, and Shadrock L. Hodgkin, sheriff of Ada county, respectively. It has been known for some time that Ruick and Rounds were up for dismissal and the telegrams came as no surprise to those who were acquainted with conditions.

Insane inmates of the state asylum at Orofino were set at work this week in the asylum brick yard, where they will make the brick for the new building. Construction work will begin late in the summer. The new wing will be 150x30 feet, two stories high and fireproof. When completed the building will be divided into two wings, one for women and the other for men patients. Dr. John W. Givens has exactly 100 patients under his care, 40 of them from south Idaho.

BASE BALL NOTES.

The Ilo ball team was defeated at Kamiah Sunday by a score of 19 to 6.

The Ilo ball team will play here tomorrow and a fast game is expected.

The Greencreek boys' nine played a similar team at the Jenny home north of town Sunday afternoon, the former team being defeated by two scores.

The local ball team will leave Sunday for Kamiah where they will play that afternoon. On Monday they will play at Nezperce and on Tuesday at Ilo, returning home that evening.

The Grangeville ball team defeated the local nine here last Friday by a score of 5 to 0. How it ever happened is a mystery and Grangeville people are as much puzzled over the result of the game as are our own citizens. The next game between the two teams will no doubt result differently.

The Grangeville ball team came near to being defeated Sunday at White Bird. Bonner, the new pitcher, was batted out of the box early in the game and another pitcher had to take his place. After the change White Bird failed to score and Grangeville succeeded in getting enough runs to win the game. The score stood 6 to 5 at the end of the game.

Mr. Walker, of the local flour mill, intends leaving tomorrow with his family for his old home in Missouri. They will visit for short time with their daughter in Spokane before going east. Mr. and Mrs. Walker have resided here nearly two years and have many friends who will sincerely regret their departure.

The 8th Idaho County Sunday School Convention convened here yesterday at the Methodist church and will end tomorrow evening. Delegates from all over the county are in attendance and a very interesting session is being held.

HEADER NETS

I am now making Header Nets at \$40 per set of three and can fit you out with a set for harvest. I guarantee these nets to unload grain faster than any other device. Loads can be taken off in half a minute with ease. Owners of nets say \$200 would not buy them if others could not be secured. Easily moved as a pitchfork. No derrick required. Size or height of stacks no drawback.
