DE LAVAL CREAM SEPARATORS

are not only the best but the cheapest.

Let us prove it for you on your own place.

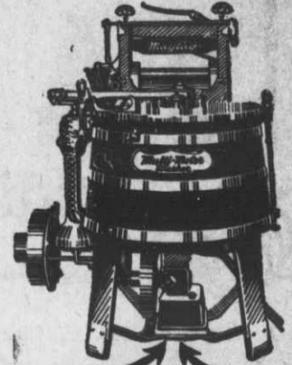

BUYING A CREAM SEPARATOR is a good deal like hiring a man to work on your farm. A hired man that does poor work and is lazy is an expensive proposition, no matter how little you pay him. A cream separator that is hard to turn, hard to keep clean and doesn't skim clean would be expensive even if you got it as a gift.

IT IS A WELL KNOWN fact that creamerymen and big dairymen all over the world all recognize the superiority of the De Laval. PROBABLY THE ONLY REASON why any one ever buys

any other cream separator is because they can get it a little cheaper.

THEN IT TAKES THEM A year or two to find out they have lost ten times as much from separator inconvenience, poor skimming and a machine that quickly wears out, as they saved in the beginning.

REMEMBER that a De Laval will soon pay for itself and if you have no separator now, or an inferior one, we can sell you a De Laval on such terms that it will pay for itself while you are using it.

See That Engine

The Maytag Multi-Motor Washer

This washer will not injure the daintiest linens or the most delicate laces and it will handle the heaviest blankets—doing the work twice as well and in less than half the time required by the old fashioned washer or buck-breaking, knuckle-skining wash board and tub. Come in and see this wonderful new labor-saver—it has many exclusive patented features that no other washing machine can have—guaranteed for 3 years—money cheerfully refunded if you are not thoroughly satisfied every way. Call and see it today.

Let us bring one to your home and further prove our assertions.
