Peter Meland, a pioneer of Idaho county and a resident of the Fenn section for many years where he has owned and operated a fine farm, died last Friday at Clarkston after a lingering illness, aged 58 years. The funeral was held Sunday at Denver.

Willis Turner, a farmer of the Winona section, got his arm caught in the belts of a threshing machine working on the Oscar Asker farm Saturday and had both bones broken near the wrist. The break was quite a bad one and it will lay Mr. Turner up for some time to come.

The new editor and two sons—Howard and Harold Shutt—are here prepared to take charge of the Chronicle just after this issue. They have rented the Chris Schaecher house and will occupy the premises as soon as vacated by Mr. Schaecher, who expects to move to his new home in Montana about the middle of this month. The editor's wife and Howard's family will remain in Portland yet for a few days.

There is general gratification expressed throughout the country following the announcement by President Wilson that married men will be exempted so long as there are single men available for army service. There is something about this decision that will meet with the approval of a good many young married women also.

EYES

Your eyes are changing all the time. This is due to increasing age, condition of health, working by artificial light, or other causes.

It's important that you have your eyes examined often. Your glasses must be perfectly fitted to preserve both your health and eyesight.

Better drop in and let us examine your eyes. If you don't need glasses we will tell you so, and if you do need them, we will fit them properly.

Always Have It For Less

My Wheat went 30 Bushels to the Acre

THIS IS a very common saying these days, in a country not over eight weeks ago we figured would be a failure. This district around HINGHAM, CUT BANK and HAVRE, MONTANA, has just experienced the longest and severest drouth in 35 years, and nothing could have happened to better demonstrate the fertility and productivity of the soil, nor it's wonderful moisture retaining qualities. It is now a known fact that this great HARD WHEAT BELT will become the greatest producer of small grains, such as WHEAT, BARLEY, OATS and FLAX, of any district in the Union. Our crops are running strong regardless of the fact that only the very crudest and poorest of farming methods have been employed. If you are seeking wheat land, come see us. We buy by wholesale and sell the deed direct to buyers; no middleman to pay a big commission to; no misunderstandings.
