President Signs With Eagle Feather
and a Gold Pen.—Blotter Given
to Delegate Who Saved Nor-
ton's Life.

BULLETIN.
Washington, June 21.—The pub-
lic building bill carrying \$19,280,
500 appropriations for increasing
cost of public buildings, etc., be-
sides \$3,095,000 for continuing
contracts was passed by the house
at 12:50 o'clock this morning by
a viva voce vote.

Washington, June 21.—President
Taft signed the statehood bill in the
presence of Postmaster General Hitch-
cock, Senator Beveridge, chairman of
the senate committee on territories;
Representative Hamilton, chairman
of the house committee on territories;
Delegate Cameron of Arizona; Dele-
gate Andrews of New Mexico; James
T. Williams, Jr., editor of the Tucson
Citizen and several others.
Two pens were used in affixing the
signature. "Approved, William H." was
signed with a solid gold pen, made
to order by Postmaster General Hitch-
cock, who has done much hard work
in putting the bill through. "Taft"
was written with a big eagle feather
pen, presented by Delegate Andrews,
and "June 20, 1910," was written with
the gold pen. The eagle feather was
carried to the White House in a big
leather case.

After signing the bill the president
congratulated those present and was
heartily congratulated by them. After
the president had affixed his signature,
Secretary Norton used a blotter and
gave it to Delegate Andrews, who
wanted it for a souvenir. Both men
have been friends for years. As he
headed the blotting paper to the dele-
gate, Secretary Norton remarked that
he took that occasion to reward the
delegate for saving his life 15 years
ago.

The story was told. One night 15
years ago, while traveling alone in the
Grand Canyon of Arizona, Mr. Norton
became ill.
When he could crawl no further, he
sank down, expecting to die. A miner
discovered him and hurried to Mr. An-
drew's home for help. Mr. Norton was
taken to the Andrews home, where he
recovered.

Great Laguna Dam in Danger.
Imperial, Cal., June 21.—According
to a board of four engineers, which
reported the results of an investiga-
tion along the Colorado river, the con-
ditions are such below the interna-
tional boundary that in a short time
the beat of the stream will be lowered
at least 20 feet. This would destroy the
great Laguna dam and the private ir-
rigation system on either side.

Dependent Man Hangs Self.
Brainerd, June 21.—Erick Erickson,
48 years, hung himself in a barn at
Niswaga. He was dependent and out
of work.

Two-Mile Parade in Huron.
Huron, June 21.—Saturday's parade
in honor of the South Dakota Travel-
ling Men's association in annual con-
vention, was the most elaborate ever
given here. Floats representing man-
ufacturing industries, trades and pro-
fessions with 300 traveling men and
hundreds of citizens in automobiles
and carriages consisting of a two-mile
column that passed through the streets
in the forenoon, preceded by the Hur-
on cornet band and witnessed by
about a crowd of over eight thousand
people.

Student Accused of Murders.
Lancaster, Pa., June 21.—J. C. Grice,
a member of the senior class of Mil-
lerville normal school and a resident
of Sharpsburg, Md., was placed under
arrest here on suspicion of having
murdered his wife and 2-weeks-old
baby.

German Steamer Dynamited.
Port Said, June 21.—Fire broke out
in the hold of the German steamer
Andalus in port here, and spread so
rapidly that it could not be extin-
guished. In order to protect other
shipping and the big docks the burn-
ing craft was destroyed with dynamite.

One Killed in Auto Smash.
Waukesha, June 21.—One man is
dead and two others were badly in-
jured as the result of an automobile
going down a steep embankment and
running into a fence here while going
at a terrific speed in an endeavor to
pass another machine. The dead,
William Grobbin, automobile sales
man, left leg broken and injured in-
ternally; died in hospital. The in-
jured: John Kelly, left leg fractured
and body cut; condition critical; Harry
Doer, right arm broken in three
places; will recover.

Wooden.
"I went to Bleeker's wedding the
other night and forgot the wooden nut-
megs I was going to take him. I told
Bleeker about it, and what do you
suppose he said?"
"Give it up."
"He said it was all right as long as
I didn't lose my head."

The Opposites.
"There is one thing which strikes
me as funny about this explorer
business."
"What is that?"
"That there should be so much hot
air about the north pole, when the
public would be cold about a trip to
the equator."

HUNTING REAL NATIVE INDIAN

He Seeks Red Man Who Never Was
Influenced by Europeanized Arts
and Crafts.

Boston, June 21.—"I am setting out
to find a truly primitive Indian—one
who has never been influenced by the
European arts and crafts of the white
man. When I find such an Indian,
which I expect to do, I shall submit
him to tests that will show the native
genius of the American Indian and
will prove in the case of a single indi-
vidual the progress of arts and crafts
as they are known to us now only by
the development of an entire race,"
said Dr. Charles A. Eastman.

The most interesting quest ever
made by a college professor, a quest
more appealing in its associations than
any hunt for strange animals or relics
of long buried civilizations, has just
been begun by Dr. Charles A. Eastman
of Amherst, who has set out for the
Far Northwest to find an Indian who
still retains the simplicity and primi-
tive viewpoint of the tribesmen who
roamed the woods and fields before
the white man came to this continent
and to add further interest to this
search Dr. Eastman is himself nearly
a full blooded Sioux.

As an authority on Indian religion,
art, social custom and folk lore, Dr.
Eastman has already distinguished
himself as a lecturer and author, but
his dream for many years has been to
experiment with a primitive Indian
and thereby prove that the individual
may be inspired by a simple system
of suggestions to work the entire
circle of racial art development.

Although Dr. Eastman has been
identified with educational institutions
for many years, he was born in Min-
nesota and from the time he was 5
years of age until he was 10 years old
he lived in Manitoba, leaving there to
begin his education at Knox college.
Afterward he studied at Dartmouth
and took his medical course in Boston.
Meanwhile, however, he was devoting
much time to the art of the Indian and
the possibility of developing it.

SHOOTING TO BE INVESTIGATED.

La Crosse Man Killed While Fishing
on Banks of River.
La Crosse, June 21.—After investi-
gating the shooting of Frank Bauer,
who was killed while fishing on the
banks of La Crosse River, District
Attorney James Thompson has ordered
an inquest to ascertain the facts
regarding the affair. It is supposed
that the shot fired by the rifle in the
hands of Harry Nieber, a 14-year-old
boy, who, with several other boys,
was on the banks shooting at objects
along the river. A postmortem was
held and a bullet of 22 caliber, as that
shot from the rifle in the hands of
young Nieber, was found in the heart
sac.

A news letter from Davis Corners
does not appear in this issue of the
PLAIN DEALER as the writer omitted
to sign his name. We would welcome
a good letter from that neighborhood,
but we must know the name of our
correspondents.

Those unsightly pimples and blotches.
External applications may partially
hide them, but Hollister's Rocky Mountain
Tea removes them for keeps.
Gets at the cause—impure blood. Tea
or Nuggets (tablet form) 35c at drug-
gists.—Wm. Connolly.

On our second page appears the com-
plete list of primary nominations for
the county. It will be noticed that
three vacancies
