Chronicle Office over Pickering & Ely's Store.

Subscriptions must invariably be paid for in ADVANCE.

By some unavoidable accident, the manuscript of "Lily Aylmer," was misplaced, so that we are compelled to omit it this week, we however hope to be able to commence it again next week, and continue it regularly until it is concluded.

The list of appointments has been made and agreed upon by the candidates for Governor. They will speak first in Nashville, on May 2nd, at Springfield, Wednesday, May 4th, and in this city, May 5th. We will publish the list entire next week.

TURNPIKES VS. RAILROADS.

It is manifest to all our citizens that nothing can add so much to the prosperity of Clarksville as well constructed turnpikes penetrating into Todd and Logan Counties, Kentucky, and into Dickson, Robertson and Stewart Counties, Tennessee. In the directions indicated a vast amount of produce is now raised, and by the construction of turnpikes into these sections a very large increase in the annual products would ensue. All these productions would go to such market as offers the best road for wagons and the best opportunities for sale or shipment. As for sale or shipment, our number of resident and regular visiting dealers in produce, and our river and railroad which open up to many excellent markets, furnish all the inducements now requisited. Clearly then we have only to make the roads and we have all the advantages of the handling and selling of the products of these rich sections of country.

All of our readers are ready to concede that these statements are true; yet no movement is on foot to secure this increased trade and traffic. We say traffic, because by each wagon which delivers a load of produce here, a return load, or part of a load of groceries or goods is carried back; and where a man sells and gets his money there will usually take his family and deal for such articles as they need.

True it is that we have a large trade from these sections now, but the question arises in a startling manner, not alone whether we can increase this trade, but can we retain it unimpaired? This is no question stated idly, as might appear on first sight, but is of deep importance. Let us look at the question dispassionately.

The basis on which we can secure the trade we now have, is that other things being equal, we can furnish the best route and road for wagons and other means of transportation. Now what roads have we? What other roads are in progress for other markets?

As to what roads we have, it is a fact that 12 miles of Turnpike towards Russellville, and 5 miles towards Roanoke, all in seventeen miles is in our own county, is all that we have of turnpikes. A dirt graded road, dusty in Summer and miry in Winter, runs to about Paradise Hill; but this road will stop some 2 miles out of our town. These are our road inducements. The Railroad is not mentioned in this estimate, for it leads equally to other markets.

On the other hand, what other roads are tending towards construction? We have the Edgeland and Kentucky road conveying, by the Tennessee end, produce from Robertson, upper Montgomery and Logan to Nashville; by the Kentucky end, drawing off from Todd, Logan and Christian to some market on the Ohio—say Henderson.

From Nashville runs the projected North Western Road, penetrating Dickson and Stewart, tapping the Tennessee River, and developing and drawing off produce and traffic from those sections that which we could easily secure. A Turnpike road tapping Todd and drawing off a very large trade from us. So it can be seen that a conglomeration of enterprises is being made around us, isolating us from any new section and threatening a serious diminution of that territory which now ships and trades here.

In view of these facts, does it not become us to be active and vigilant, and to compete with these various other points by throwing out M'Adamsian arms to embrace the district where the contest is being waged? But who is to do it? Our merchants and our grocers, who get handsome profits from this trade are now in such a critical position in this matter that they must move. The time has come and is everywhere when (natural and artificial markets coming in conflict) no place nor set of traders can remain idle and supine, but must "shell out," and project and execute such enterprise, or be heavy losers. Property-holders and all residents must act and act promptly, or the trade in its search for markets by good roads, will find points, other than Clarksville for its abiding places. Warehousemen must assist in this time of need and that without stint.

Call a public meeting, discuss all the points—settle down on a line of policy—secure what ought to be done first, and all unite in settling that at once, and step by step in quick succession conquer a trade and traffic which will be as lasting as it is profitable.

We are happy to learn that the Independent Eagle Fire Co. No. 2, are getting up subscription to purchase a first class six horse engine, and with the assistance of our citizens, this great and needed enterprise can be accomplished. Let's all give them a helping hand, and we will never regret it, for when our houses are encircled in flames, you will find those noble hearted fellows at their engine doing their duty. The company numbers 70 men strong.

Our young friend B. S. Kennedy, has purchased the interest of Wm. Macrae in the Grocery business, formerly conducted under the style of Miller & Macrae. Ben. is a young man of fine business qualifications, and from his extensive acquaintance, we doubt not will bring a large patronage to the new firm.

We would again call the attention of the city Fathers to the fact that any amount of dead carcasses are still being deposited in Elder's Grove, which is inside of the corporation limits. It is right that this should be done, we have no more to say—if not steps should be taken to have them removed.

J. Rick has received a large supply of material, and is prepared to make Boots and Shoes in the latest style, and warranted to wear well.

The Directors of the Gas Light Company, closed a contract for the Gas works with Messrs. Hopper & Co., of Cincinnati last Monday morning. Messrs. Hopper & Co. will proceed with their contract immediately, so as to have the work ready by the 1st of October next. There is still a small deficiency of Stock which the citizens will be called upon to make up, and it is hoped that those who are friendly to the project will respond cheerfully to the call.

A call of 30 per cent on the capital stock, payable 10th of May, has been ordered by the Board. There will also be a meeting of the Board at the Northern Bank next Saturday at 4 o'clock, for the purpose of electing a permanent Secretary and Treasurer.

Madison Street, in front of Squire Ed. Lockyer's, which has been filled with earth and water, has at last been macadamized, and is now one of the best improved places on the streets of Clarksville.

The work on 3d street to the lower Red River Bridge is progressing well. The grading from Marion Street to the Bridge will be done by September, it is now thought.

WANTED—Bank of America money. Those wishing to sell apply at this office.

Chancery Court has done much business this term. Not yet concluded.

The Funeral of the late Mr. & Mrs. R. M. House, will be preached on next Sabbath morning, at the Cumberland Presbyterian Church, at 10 o'clock A. M.

We learn that a sad accident occurred on last Saturday, a few miles from this city. A small boy belonging to Mr. Goodell Brown, was thrown from a mule, and his foot hung in the gear. In this condition, the mule ran some distance before any one could get the assistance of the boy. When he was extricated, he was so badly mangled that he died in a few minutes.

ACTON OF FURNITURE—On Saturday the 30th inst., Mr. John F. Coats will sell, on the public square, in front of his Furniture Store, one of the largest stocks of Furniture ever offered in this city. This Furniture is all new and good, and those wishing to buy would do well to attend this sale.

Those wishing to procure one of those delightful parlor ornaments, the Stereoscope, will find some superior instruments and a large collection of choice views from Nubia, Egypt, Europe and America, at McCormac's gallery.

Have you been to W. W. Valliant & Co.'s? If not, you should step in and see the very large and magnificent stock of Spring Goods they have on hand. They propose to sell them as cheap as the cheapest. See advertisement.

Minor Norton, Barber on Strawberry Alley, has connected with his Shop, a neat and nice Bath establishment. Gentlemen can get either warm or cold baths at short notice.

PIANO FOR SALE—A first rate second handed Piano, for particulars enquire at this office.

We are requested say that there will be a meeting of the Clarksville Gynnasium Association to-night at the Aldermen's room. A full attendance is desired.

See the advertisement of Hugh's Music Store. He offers a choice selection of articles in his line, as well as great inducements to purchasers.

IMPORTANT AND EXCITING!
The late News from the Paraguy Expedition confirms the first report of a settlement of our difficulties with that one horse republic, upon a basis satisfactory to our national honor and the interests of our citizens. From

Nicaragua
The news is bad and well calculated to excite fears of necessity for a squadron to bring the tiny skins of the isthmus to a sense of their own littleness and our ineffable greatness. The President is getting excited, and so are we. There is danger brewing unless Nicaragua toes the mark. There is no more possibility of her escaping the righteous indignation of this aroused and insulted people than there is of any house in Clarksville selling

Great cause of joy to the Afflicted.
Crooke's Electric Oil.
The cures performed by this Medicine are so wonderful and instantaneous, as to satisfy every suffering human ill, as to call upon public institutions for the sick and suffering, to look well into the well-attested merits, the simple efficacy of this Electric Oil. Its effects are so astonishing as to resemble those miraculous cures in ancient times, spoken of in the Scriptures, as performed by anointing with oil. This Electric Oil is extremely mild, yet prompt in its operation. It is used with the most salutary effect in all Flesh Wounds and Cutaneous Eruptions, such as Burns, Cuts, Chaps, Tetter, Ringworm, Frosted Feet, Eczema, Deafness, Sore Eyes, Piles, Bruises, and all diseases where an external application is required, but it is perfectly safe to take internally, and it has a good effect in all cases of Incipient Consumption, Bronchitis, Asthma, Croup, &c.

Two or three applications will cure the worst Chapped Hands. Nothing is better for Burns or Scalds. It has no equal for Tetter or Ringworm; and if used on a Fresh Out, it never gets sore, but heals up in an incredible short time. Try all others, but give this one a fair trial.

The inventor challenges the world with this
Electric Oil.
Crooke's Never Fail.

This preparation contains the most powerful ingredients belong to the vegetable kingdom, and owing to its very penetrating qualities, it has given relief in cases of the most obdurate and excruciating pain, when all other remedies have completely failed. It is wonderful in its effects, yet harmless as water for the most delicate patient. An infant may take it into its stomach, as prescribed, without danger; the most delicate nerves may use it without annoyance, for it is beautiful in appearance, pleasant in its odor, and leaves no greasy nor stain where it has been applied.

It has been discovered that all organic derangement of the animal system, is the effect of an obstruction of the Electric Fluid in the organs diseased. An application of the Never Fail, from its very penetrating qualities, puts in immediate motion this fluid, hence a cure is thus effected, and in many cases in 5 or 10 minutes. It cures all Aches and Pains in a shorter time than any thing else known in the *Medical Art*, such as Headache, Earache, Jawache, Neuralgia, Toothache, Rheumatism, Sprains, Cramps, &c. Used internally for the cure of Colic, Cramp Colic, Sick Headache, Diarrhea, &c. It cures Toothache; in one minute, it cures the most violent Headache in five minutes, Neuralgia pain in fifteen minutes, &c. A dose taken inwardly, cures the Colic, Sick Headache, &c., in a very short time.

This Medicine generally gives relief in from ten to ten minutes.

It will now be evident that the Electric Oil is recommended for all Flesh Wounds, and diseases pertaining to the Skin, while the Never Fail is used for all Aches and Pains. But in all Chronic Diseases, such as Chronic Rheumatism, &c., the Electric Oil should be used externally, and the Never Fail internally.

These Medicines have been fully tested, and thousands who have already used them, speak in the most complimentary terms of their wonderful effects. They are fastidious
