

THE CHRONICLE

NEBLETT & GRANT, PUBLISHERS AND PROPRIETORS. RATES OF ADVERTISING. One dollar per square of ten lines or less. CLARKSVILLE, SATURDAY, SEPT. 4, 1869.

A CROSS MARK.—In future we will make a cross mark on the margin of our paper, as a notification to all patrons whose time of subscription has expired. Look out for the cross mark and renew your subscriptions at once.

Matters and Things About Town. The new Market House will be completed in about a month.

Last Tuesday was a lovely day, for both inside and outdoor work. Mr. J. L. Glenn has had a beautiful cottage dwelling erected on the south side of Gupton Hill.

The rain of last Sunday replenished the cisterns in the city, much to the joy and convenience of our citizens.

Mr. Ed. Turnley's cottage residence east of Charlotte Pike is nearly completed.

MRS. BROADBENT & Co., have put up a new sign, painted by Gardner & Co. It is the neatest and best lettered sign in the city.

Mr. Walter Drane's elegant brick mansion, near Stewart College, is progressing rapidly. We learn that planing mills in the city are doing a vast amount of work. Wilson & Co. have contracts ahead for a large number of houses, and are in need of more workmen.

Caldwell & Wright are building a new livery stable just east of the one they now occupy. It will be large and well arranged for the accommodation of horses and vehicles.

SCHOOL.—Mrs. Lizzie Bibb and Miss Lucie Gilliam will commence their school for girls and boys, on Monday, Sept. 6th, at their residence on Main street. Terms: \$12 and \$15 per session—one-half in advance.

MEETING OF CONFERENCE.—The Southern Methodist Conference will meet in Murfreesboro on the 15th inst. About three hundred ministers and lay members are expected to be present.

ARCHIE THOMAS, of the Springfield Record, paid us a visit last Saturday. We are glad to learn from him that he is doing well. May you long continue to do so, friend Arch.

THANK GOD FOR RAIN.—We were blessed with a good rain last Sunday evening about 3 o'clock, and also after night. We learn that it was not a general rain, however, as we had hoped.

SCHOOL.—Miss Sallie Howard's school will open next Monday, in the basement of the Presbyterian Church.

DELEGATE.—We learn that Governor Senter has appointed our fellow-townsmen, Ed. H. Lewis, a candidate to represent the 6th Congressional District of Tennessee, in the Commercial Convention of the valley of the Mississippi, which meets in Keokuk, Iowa, on the 7th.

OUR wheat market has continued to rule firm at previous prices, viz.: from \$1.00 to \$1.15 per bushel according to quality. There seems to be more disposition to sell than to buy. We hope to see our millers make money this year, as they 'lost enough last to do the most ambitious for several years to come.

OPENING.—Major Prestly A. Byrne opened his new Imperial Saloon on Thursday last, with a grand free lunch. Press is fixed up in good style and would have his friends remember that he keeps only the best of everything in his line. The new Imperial is no "hinder wheel," but a genuine side wheel steam boat, with Major Byrne in command, Jim Davis for pilot and "Gip" for mate. May she never "sag."

We understand that Messrs. Gracey & Bro. will institute suit against our corporate authorities for an infringement upon their patent right wharf-boat design—the infringement consists in the city's adopting their style of architecture in their new market house, on the square—at any rate, such as a joke gotten up by some of the boys, and which we think is quite naughty; it is wrong to condemn without a hearing first, and on the same principle judgment should not be passed upon the market house until it is completed. In our opinion, it will prove a very creditable structure when finished, and it must be taken into consideration that the amount of money to be invested in the undertaking has necessarily had much to do in determining the style of architecture adopted. Away with your croaking!

Messrs. Hinch & Dick have nearly completed their magnificent livery, feed and sale stable. This establishment, when completed, will compare favorably with any similar establishment in the Southern country. It fronts 113 feet on Second street, 72 feet on Strawberry alley, running back to Wood's alley 150 feet, being 80 feet wide in the L. The L will be two stories high, the basement story being used as a place for horses, and the upper story as a carriage repository. This stable was planned by Mr. Winfield Rouch, and is capable of accommodating 150 head of horses and mules, and is so arranged that the animals will keep warm in winter and cool in summer. Two very large cisterns have been provided, together with a room to wash vehicles, and many other modern conveniences and excelsiences.

TOBACCO TRADE.—The Hopkinsville people have erected a large tobacco warehouse, and will be in the market next season to compete for the Clarksville district tobacco. We wish them no bad luck, but common sense suggests that they have mistaken their calling, and the proprietors of the aforesaid warehouse will doubtless find out to their sorrow, before many years roll over their heads, that they have taken their ducks to a poor market by investing their money in such property at such a place. We repeat, we do not desire to disparage any place, but facts are facts, and stubborn things to overcome, and our reasons for predicting a failure on the part of the Hopkinsville warehousemen to realize their expectations are these: In the first place we have a more central locality, with warehouse capacity enough for all the tobacco raised in the Clarksville district; and in the second place, we have experienced tobacco warehousemen who, from long experience, know how to serve the interests of the planter, and are prepared to sell at as small a cost to the producer as can be afforded elsewhere. We have a large board of both resident and foreign buyers who have known our market too well and too favorably to quit it, and this important fact is patent to the planter as well as the buyer, and, as a consequence, a veto is at once put upon tobacco seeking another market for sale in any considerable quantity for planters account. Last, but not least, it took many years of constant labor to build up our market to what it is, and tobacco sold at this point has won for itself a name throughout the tobacco markets of the world.—Besides all this, we can furnish the buyer a choice of rail or river transportation direct from our warehouses, and as cheap freight as can be had elsewhere. We understand that the shrewd business men of Hopkinsville have done all in their power to put up the price of real estate in that place, since the completion of the railroad to that point, and under the excitement incident thereto, have sold out their property, knowing from the experience of other places, that their former trade would decline as the road progressed. Every station having its own storehouse, would divert it from them.—Clarksville would doubtless have suffered the same fate with her tobacco market, but for the fact that we had Cumberland river to operate in favor of low rates of freight from this point.

When the Nashville and Henderson railroad is completed you can say farewell to Hopkinsville, unless her citizens bestir themselves and erect manufacturing establishments, besides all that we have said concerning the prospect for Hopkinsville becoming a great tobacco market, we beg leave to add one word concerning her public highways (so called), more properly speaking, low ways, such as least would be the opinion of the wagon, team and driver, conveying tobacco over them during the unheated term, commonly called winter, the time when most farmers must of necessity convey their tobacco to market.

BARBECUE.—On Friday of last week a company of some sixty or eighty gentlemen met at McClure's Spring, and passed the day in social converse, eating barbecue, etc.

The arrangements were well made, and the cooking reflected credit on that veteran luncheoner, Henry Davidson—this being the seventy-ninth barbecue he has prepared. The water from the spout spilling several hundred pounds of ice, and a natural growth of mint along the spring branch were all called into use, and the tincture of mint was freely used to the evident enjoyment of all present. Humor, jest, fun and abandon were the order of the day, and all were joyous and happy.

These free and open gatherings promote sociability and give a new lease of life to those participating, and we hope to hear of their becoming general—not too many in a company, but just enough for all to be free and easy. Doctors, lawyers, editors, farmers, Elderly men, Valliant men, no preachers, but a crowd—Mack men, Crouch-like men, Williams's, Thomas's, Bat Train, a man without office of the family of Gen. Grant, Belfields, Rice-fish, Merritt, old men, Judges, Ballews and Bailiffs, sheriffs, Iron men, Hole men, Hunters, Bathrops, "and a Hansa not made with hands" were all represented. The two spies into the promised land, Caleb and Joshua, attended to the ice and sugar which went into a few pitchers and tumblers.

About four o'clock, when we were preparing to return from the field in order, Mr. E. L. Williams arose and requested the crowd to state what day it would suit their convenience to attend another social gathering near his residence. Friday, the 10th inst. was agreed upon, and Mr. Williams' friends present gave the usual cordial invitation to be at hand at that time. It will be a nice affair—hope we will be there to enjoy it.

Those excellent barbers, Alf. First and F. Mayo, have bought out Darius White, and are running the Franchise Shaving Saloon with good and attentive barbers. Give them a call.

CASH.—From and after the 1st inst., C. H. Morrison & Co. will sell for cash only. No tickets to any one.

OUR SCHOOLS. Clarksville may well be proud of her schools and of their reputation. We venture the assertion that she cannot be excelled either in schools or in health. Hence parents and guardians cannot do better for their children and wards than to school them here.

The Clarksville Female Academy, Rev. J. B. West, D. D., President, with an able corps of assistants, begins next Monday, with the most flattering prospects. Steadily growing into favor and increasing its pupils, we anticipate that it will matriculate three hundred pupils during its current year, all of whom will be kindly, firmly, and profitably attended to.

Stewart College, suspended from the beginning of the war, under new auspices, begins Sept. 13th, with a distinguished faculty, and we doubt not will deserve the greatest success. We hope that the college department will be well attended, and we doubt not the preparatory school will have a very large number. Success to both now and forever.

Sundry excellent private schools will also begin Sept. 6. See advertisements.—They are all worthy and good.

And bearing in mind the great value of good schools, we close this notice by commending them all, and urging all our readers to see to it that their children and wards get the benefits of a good education.

"AS YE SOW YE SHALL REAP."—We would direct the attention of all farmers to the fact that Messrs. French and Courts have secured several hundred bushels of pure seed wheat, of that variety known as the "Morris White Wheat." This wheat was grown in our own county and yields upon an average on second-rate lands, twenty bushels to the acre, and is free from any mixture with the other varieties, and clear of rye, smut, cheat, or cockle; it is a matter of great importance to our farmers that they sow only a pure article of wheat; we have too long persisted in sowing indifferent and diseased wheat, and as a result have each year witnessed a worse degenerated kind. Our advice is, supply yourselves in time, and from a strictly reliable source. Price only two dollars per bushel.

This question is often asked us, "When are we going to have a new court-house?" We are unable to answer. Will some kind friend who is posted, inform us? The matter should not be dropped until some definite conclusion is arrived at. If we cannot afford at this time to erect a new building, some immediate steps should be taken to place the old one in a better condition than at present; it should be thoroughly repaired and three fire-proof vaults built, to say the least of it. In its present condition no security is afforded the vast amount of important papers and records contained within its walls, which if lost, would be a sad blow to thousands.

A little circumstance occurred, a few days ago, illustrating in a very forcible manner, how true to nature Mr. Snider's (sign and ornamental painter at W. L. Gardner & Co's.) work is. This gentleman has been painting and paper hanging at Maj. Jack Hale's saloon on Strawberry alley; the sides of the counter he has painted in landscapes, and among other things, there is a tree with a squirrel upon one of its branches, and Major hale was out on the sidewalk a few evenings ago, and the friend he had invited a friend in to see the great change, and improvement made, and as it happened this friend had with him at the time his celebrated squirrel dog, "Mingo," and as soon as the afore mentioned canine saw the squirrel, he forthwith "trod it," thereby showing, conclusively, that Mr. Snider is a master of art, and one that we may well afford to praise.

SOUTHERN LIFE INSURANCE COMPANY.—This is a Southern Company, located at Memphis, Tennessee, and is under the management of the best financial business men of the South. It is now entering its fourth year with bright prospects, having just closed its third with success and satisfaction to its friends. Its plans and tables are liberal. Messrs. L. B. Hatch and Geo. C. Thompson, General Agents for the State, are now in the city, with a view to establishing a local agency and securing business for this home institution, and will take pleasure in giving information concerning this reliable company.

NEW TOBACCO FIRM.—Messrs. Smith & Hutchings have dissolved partnership. Mr. A. F. Smith has taken Mr. J. L. Williamson as a partner, and the Tobacco business will be continued at the same house, under style of firm Smith & Williamson. Mr. Smith, although a young man, stands high in the estimation of the public and with the planters particularly as an upright and energetic man in business. From all we know of his partner, Mr. Williamson, we pronounce him an excellent gentleman.

BRASS BAND.—The denizens of the Charlotte Pike were honored with a delightful Serenade, on last Thursday night by the Mechanic's Brass Band of this city. It is composed of a noble set of gentlemen, who are quite proficient in music. We thank you, gentlemen, for the portion appropriated especially to us. Call again.

THE post-office at Tall's Station has been discontinued by the Department, and all mail matter for that point must now be sent to Guthrie City.

Those excellent barbers, Alf. First and F. Mayo, have bought out Darius White, and are running the Franchise Shaving Saloon with good and attentive barbers. Give them a call. CASH.—From and after the 1st inst., C. H. Morrison & Co. will sell for cash only. No tickets to any one.

1869.

Five Great Remedies PURIFY YOUR BLOOD! HURLEY'S SARSAPARILLA. WITH IOD. OF POTASH.

LOUISVILLE, April 4, 1869. Hurley's Sarsaparilla is what it is represented, and I believe it the most wonderful medicine ever prepared for the public. Nothing under the heavens could induce me to say so without proof of the strongest and most kind; therefore I speak willingly and positively on the subject.

My daughter has been afflicted with skin disease and stiffness of the joints for several years. I employed the principal physicians of the city and they could not cure her. I gave her your Sarsaparilla, and expecting it would do much good, and to my great astonishment she rapidly got well, and I believe it the most wonderful medicine I ever used. I would not give this certificate but your Sarsaparilla, the only remedy employed, leaves no doubt of its medicinal qualities, and that it alone cured her. Signed

LEIKE REYNOLDS. Any person requiring the truth and honesty of this statement, will find me at my residence, corner Ninth and Walnut streets Louisville.

For Sale by BYERS & BRO., LURTON, BRO'S & CO.
