

To BUSINESS MEN.—The CHRONICLE now circulates through all the adjacent counties which, in a commercial point of view, is sought after by our enterprising business men in every department of trade. As an advertising medium it presents all the advantages and facilities afforded by any publication that has the interest and welfare of our people at heart. Bear this fact in mind when you wish to advertise your wares and merchandise, and also remember that a business man cannot lose anything by constantly reminding the people that he has goods to sell. To inform buyers where they can obtain their supplies in an accommodation to them as well as beneficial to the seller. The benefits conferred are mutual. Persistent, judicious advertising all ways has and will continue to pay, as the experience of the best business men in the country fully verifies. Of course we seek to benefit the press in what we say, but selfishness alone does not prompt us, in carrying out this suggestion mutual benefit accrues to all.

YOUNG Walworth was found guilty of murder in the second degree on the 24 inst., for the murder of his father. The prisoner was remanded to the Tombs to await the verdict which will be rendered to-day.

FIFTY new and powerful locomotives, and one thousand freight cars, are to be added to the rolling-stock of the Chesapeake & Ohio Railroad.

THE Gallatin Examiner says the wheat crop of Sumner county will not exceed an average crop.

DURING July the Secretary of the Treasury will sell \$5,000,000 in bonds.

THE Elizabethtown (Ky.) News says: We are told that the wheat crop in this county, if it escapes the rust, will be the most promising for years. It has almost doubled itself and the farmers are jubilant.

The Ear, and How to Care For It.
The Popular Science Monthly says that probably the most frequent way in which the ear is impaired is by the attempt to clean it. It ought to be understood that the passage of the ear does not require cleaning by us. Nature undertakes that task, and in the healthy state fully performs it. Her means for cleaning the ear are simple. Perhaps the reader has wondered what becomes of the ear wax. I will tell him. It dries up into thin, white scales, and these peel off one by one, from the surface of the passage, and fall out imperceptibly, leaving behind them a perfectly clean, smooth surface. In health the passage of the ear is never dirty; but, if we attempt to clean it we infallibly make it so. Here—by a strange lack of justice, as it would seem, which, however, has no doubt, a deep justice at the bottom—the best people, those who love cleanliness, suffer most, and good and careful nurses do a mischief negligent ones avoid. Washing the ear with soap and water is bad; it keeps the wax moist, when it ought to become dry and scaly, increases its quantity unduly, and makes it more tenacious. The most hurtful thing is introducing the corner of the towel, screwed up, and twisting it round. This does more harm to the ear than all the other mistakes together. Let one who doubts this make a tube like the passage, especially with the curves which it possesses; let him put a thin membrane at one end, smear the surface with a substance like the ear-wax, and then try to get it out by a towel. But this plan does much more mischief than any other. Let him put a thin membrane at one end, smear the surface with a substance like the ear-wax, and then try to get it out by a towel. But this plan does much more mischief than any other. Let him put a thin membrane at one end, smear the surface with a substance like the ear-wax, and then try to get it out by a towel. But this plan does much more mischief than any other.

THE MARRIAGE VOW.
For better, for worse, for richer, for poorer, in sickness and in health, to love and to cherish, till death do us part, according to God's holy ordinance, and the laws thereof, which shall be in that behalf made, I, _____ do hereby plight thee my truth.—*Marriage Service of the Episcopal Church.*
Speak not lightly—"It is a holy thing. A betrothal is through lower distant years—When you're thin shade is hovering, Or when thine eyes are wet with bitter tears."—*Recorded by an Angel's pen on high, And must be questioned in eternity.*
Speak not lightly—though the young and gay, Are thronged round thee now, with tones Of love and joy, and with the moon have birth; Let not the holy promise of to-day, Fade like a cloud, or with the moon have birth; But ever bright and sacred may it be, Stored in the treasure hall of memory.

POSTAL NOTES.
The recent Congressional legislation provides that "All laws and parts of laws permitting the transmission by mail of any free matter whatever, be, and the same are hereby, repealed, from and after June 30, 1873." This cuts off the free exchange of newspapers between publishers, and the free circulation of papers within the counties of publication. No change in the rates of postage have been made.
Newspapers by mail must be prepaid by stamps, unless regularly named and sent to regular subscribers by publishers or news-dealers, when the following rates are charged, payable quarterly in advance, either at the mailing or delivery office:
Dailies, 35 Cents
Six times a week, 30
Tri-weekly, 25
Semi-weekly, 20
Weeklies, 15
Semi-monthly, not over four, 10
Monthly, not over four, 5
Quarterly, not over four, 2 1/2
Newspapers and circulars dropped into the office for delivery must be prepaid at the rate of 1 cent for two ounces, and an additional rate for every additional two ounces or fraction thereof; and periodicals weighing more than two ounces are subject to 2 cents, prepaid at the office-carriers office. The postage on regular papers, etc., must be prepaid in advance, either at the place of delivery, to the carrier, or at the office, otherwise they will be charged at transit rates.

BOOK MANUSCRIPT.
Book-manuscript passing between authors and publishers requires prepayment, at the rate of 1 cent for each two ounces, or fraction thereof. Manuscript intended for publication in newspapers, magazines, pamphlets, etc., is subject to letter rates of postage.

Young Mechanics.
There is no class of the community upon whom the future welfare of the country more essentially depends than upon the rising generation of young mechanics. If they are intelligent, sober, industrious and consequently independent, able and accustomed to judge for themselves, and governed in their conduct by an enlightened view of their own best interests; if they are men of this sort, the mechanics, and especially the young mechanics, will form, in conjunction with the young farmers of the country, a bulwark against monopolies and corrupt politics, and save the Republic. If, on the other hand, they are ignorant, idle, dissolute, and consequently poor, and dependent upon those who are willing to trust them—if of mechanics should unhappily become such a class—of which, thank God, there is but little danger—they would soon be converted into the mere tools of a few rich and artful men, who having first stripped them of every sense of self respect, and every feeling proper to virtuous citizens, would use them as passive instruments for promoting their own ambitious objects, and for the enactment of laws which are beneficial to nobody but the artful few and base demagogues with whom they originate.
It is as true of the mechanical arts as of any other profession, that "knowledge is power."—*Whig and Tribune.*

Health Hints.
Warm bread "jacks" the stomach. The best and safest tooth-wash is tepid water.
Warmth, abstinence and repose are three excellent medicines.
In sleeping don't curl the body.
Sleep as straight as possible. Avoid high pillows.
Never sit or sleep with wet feet.
A mixture of castor oil and vegetable food is best. The vegetable should predominate.
Regularity of the time of eating has much to do with the preservation of health. Do not eat late suppers.
Wet or damp clothes should be instantly removed. Why? Because they rapidly chill the surface of the body—the best being carried off by evaporation.
The latest remedy for a cough and sore lungs is to wear a lump of cotton batting, saturated with tar, suspended on the breast. Among the gentler sex the plan is popular, though the tar is generally omitted.
"Hay fever" may be instantly relieved by bathing the nostrils and closed eyelids with spirits of camphor and warm water.

Fifteen Good Habits.
1. Abstinence from tobacco and intoxicants.
2. Temperance at meals.
3. Daily attention to all the conditions of health, as well as receiving.
4. Constant occupation.
5. Doing at once whatever is required.
6. Having a time and place for everything.
7. Fidelity to all appointments and duties.
8. Paying for everything in advance.
9. Giving as well as receiving.
10. Aiming at harmony in conversation.
11. Looking always on the bright side.
12. Associating with some favorite minister and society.
13. Talking on edifying subjects.
14. Seeking always the right spirit.
15. Realizing the presence of God at all times.

Coal! Coal!
We have appointed agents for the Diamond Coal and Mining Co., and will continue to deliver Coal here about the 15th of October. We intend to supply a good article of Coal, at a low figure as far as possible, and in quantities to suit the prompt and accommodating in every way, but we must have the Cash for Coal when delivered. Orders left at our office, accompanied by a check, will be promptly filled. All others will have the bill sent with them. We respectfully solicit a share of the public patronage.

HARDWARE
READ! READ!
A PLAIN PROPOSITION.
WANTED!
Everybody who knows that it will cost you nothing to have a Wheeler & Wilson Sewing Machine brought to your house and shown to you, and if you do not buy there will be no harm thought, but many thanks for giving me a chance to sell you, as I warn you it will be to your interest. I hope you will avail yourself of the opportunity. The qualities which recommend the Wheeler & Wilson are many, among the most important are the few I shall here state: It makes the lockstitch without a shuttle. It has but two soles and needle eye to adjust. It has but one tension to regulate. It has no oil above its cloth surface, hence it is impossible to get your work soiled. It feeds the goods from both sides of the needle avoiding the twisting of the work so troublesome with others.
There has been a standing challenge for three years of \$100 for any shuttle machine that does not contain at least half as many pieces as the New Wheeler & Wilson. \$100 for one that can sew as rapidly, \$100 for one that can do a greater variety of better work, \$100 for one that is as noiseless, \$100 for one that can change of needle, stitch, thread and tension can be made upon as quickly, \$100 for one with all the joints adjustable like the New Wheeler & Wilson; and \$100 reward for a Wheeler & Wilson Sewing Machine that is worn out.
I will make old machines (no exception of the 23 year kind) sew as well as when new for from \$25 to \$50. Parties at a distance can take their machines of the table and send them to me with their bobbins and bobbins and have them repaired. All machines sold delivered to your house, with full instructions in its use with all of the attachments furnished free of charge, which other companies charge extra for and machines guaranteed 2 years.
Address your order to
F. R. BURGIE, Agent,
Clarksville, Tenn., Box 28,
Office at G. W. Hillman's Furniture Store,
No. 38 Franklin Street.

no more use for them when you can do better.
WHITEFIELD, BATES & CO.,
Aug. 26, 72-73.

JOHN MIDDLETON
HAS risen, Phoenix like, from the debris of the late fire, and has taken a shop on Franklin street, above Pittman & Lewis' store, where he has a large and elegant stock of
Leather, ready to make the finest
BOOTS AND SHOES,
cut in the latest style, and a perfect fit guaranteed. Having had an experience of some years in the trade, he has secured former patrons by his skill and call, as a sign of the **JOHN MIDDLETON.**
April 21, 1870-71.

H. M. ACREE,
DENTIST.
Office at Residence,
Sixth Street of the Episcopal Church,
Clarksville, Tennessee.
Returns many thanks for the liberal patronage extended to him for thirteen years. Having had an experience of some years in the trade, he has secured former patrons by his skill and call, as a sign of the **JOHN MIDDLETON.**
April 21, 1870-71.

WANTED.
Two white servants—a cook and house girl—wanted. Living in 25 miles from the city. Wages liberal. Apply at this office for particulars.
July 7, 72-73.
