The Small-Pox Case.

This city was thrown into a fever of excitement last Monday by the report that a genuine case of small-pox had developed itself in one of the negro cabins in the old Keesee tobacco factory lot on Front street. Dr. C. W. Beaumont, Health officer, went down to investigate the report and found it to be true. Measures were immediately taken by the Board of Health, assisted by the Board of Mayor and Aldermen to have the patient and all who were living in the house with him quarantined, until arrangements could be made to remove him from the city and take all precautionary measures to prevent the spread of the disease.

During the night, however, the house was visited by some unknown parties, the patient and negro woman ordered to leave, under pain of death if they refused, and the cabin burned to the ground. This is the tale the man and woman tell, though by many it is thought that they fired the house themselves, as the man was very loth to be carried away from town.

The social meeting at the rooms of the Association on Friday evening of last week, was a delightful affair to those who attended. Some excellent music was furnished by Misses Vizer, Fox and Wilson. Miss Johnson rendered the 'Legend of Saint Christopher,' in excellent style. Prof. Collins read 'The Hat.' The Association will do well to continue in this line. Let us have more of such gatherings. By the way, isn't it most time for that reading room to be furnished and in use? Hurry up boys, it will soon be summer.

GODEY'S LADY'S BOOK for May is upon our table, and is, as usual, an exceedingly bright and interesting number of this popular magazine. It is filled with the very best original stories, poems and sketches and withal is entertaining and instructive.

Notes From Range. EDITOR CHRONICLE:—Perhaps a few notes from this part of the country will find a welcome place in the columns of the dear old CHRONICLE; therefore I write you briefly.

It seems that the U. S. Grand Jury had never had the charges brought before it, and had found no indictment against the gentlemen. When they went before the court at Nashville, the infamous informer Kramer, did not even put in an appearance and could not be found.

It turns out, as might have been expected, that the whole business was nothing more than the dirty work of an unprincipled informer who made them the victims of his perdition.

OUR Washington correspondent intimates that it is the policy of the Republican majority in Congress to oust the Democrats whose seats are contested by Republicans, in order that the unconstitutional tariff commission bill may be passed.

Our neighbor Frank Heathman had the misfortune to lose a good mare a few days ago. He had the animal turned into the yard for the purpose of grazing and she got on the eastern cover, which proved to be rotten, and let her into the cistern where she was drowned in a few minutes.

Dr. B. F. M., Jr., has just returned from a trip up in the "blue grass country," he claims to have been in business, but we are inclined to think it was of a matrimonial nature.

Boys are hard to keep up with now-a-days anyway; not long since Luther D. and Sam H. took a trip up in the neighborhood of Adams' Station and since then we have understood D. was a little sick and from the way H. is humming love songs we think he will be some what ailing after another trip has been made.

THE river, at this point is falling very slowly.
