Vitiated Blood.

About a year and a half ago I had blood poisoning. I was treated for the first three months by a doctor in the regular profession, and instead of getting well I grew worse all the time. The eruption, the sore mouth and throat, and the falling hair progressed right along. A friend advised me to take S. S. S. and I have blessed him ever since. By the time I had used the third bottle the disease began to disappear, and by the time I had taken ten bottles of the Specific I was perfectly well, and have not since that time seen any sign of the disease. A. W. CROZIER, 134 Thompson St. New York, February 1, 1886.

Malarial Poison.

For many long months I was a sufferer from malaria, and could get no relief. I eked out an existence in utter despair, having vertigo and numerous unpleasant symptoms of that insidious poison. I began taking S. S. S., and improved at once. My appetite returned and my strength came again. The vertigo left, and from 120 pounds I went up to 160 pounds, my present weight. It cured me perfectly and through me many others have been benefited and cured by Swift's Specific. J. C. BINGHAM, 112 E. 24th St. New York, January 23, 1886. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga. N. Y. 156 W. 23d St.

Clarksville Tobacco Market.

OFFICE OF THE CHRONICLE, CLARKSVILLE, TENN., June 12, 1886.

Our market continues on its high tide of prosperity, with very heavy receipts and sales to correspond. Our sales this week will probably be 1,000 or 1,700 hogheads. The activity continues, with full advances this week on leaf and lugs. The full planting seasons have had no effect upon the market. We quote:

Table with 2 columns: Tobacco type and Price. Includes Common Lugs, Medium Lugs, Good Leaf, Medium Leaf, Good Leaf, Fine Leaf, and Selections.

The report of tobacco receipts in the Western markets up to June 1st, 1886, made by W. G. Meter & Co., of Louisville, shows a most gratifying exhibit for Clarksville.

It will be observed in the table which we publish below that Clarksville now ranks second only to Louisville, and has gone considerably ahead of Cincinnati. At this time last year the receipts in Cincinnati were double those of Clarksville, but now this city is three thousand hogheads in the lead of the Ohio town.

Table with 5 columns: Year (1886, 1885, 1884, 1883, 1882) and various tobacco types (Louisville, Clarksville, Cincinnati, etc.).

The Sale of The Henry Property.

The sale of the city lots by T. F. and Patrick Henry, which took place Monday, gave gratifying evidence of Clarksville's property in as much as it indicated a decided boom in real estate. The prices paid were much better than could have been realized a short time ago.

The first lot offered was on the public square, south of the Oppenheimer hide house. It was bought by D. Kincannon for \$13.50 per foot front, realizing \$330.75.

The next lots were in Tobacco Exchange square, fronting Telegraph street. The first lot adjoining the Tobacco exchange and fronting 69 1/2 feet was sold to W. J. Ely for \$15 per foot front. Number 2 in the same block fronting 74 feet 2 inches, was then offered and knocked off to D. Kincannon at \$9 per foot. The two lots were then offered together and sold for \$1,655, to W. J. Ely.

Numbers 3 and 4 in the same block, each fronting 54 feet, were bought by D. Kincannon for \$8 and \$7 per foot each, aggregating \$310.

The next two, 54 feet front, were bought by Louis Michel for \$5.50 and \$5.10 per foot, aggregating \$572.40.

In the above plats lots 1, 3 and 5 and part of 2 were the property of the Drane estate.

The next lots offered were on College street, from Spring nearly to First, embracing 222 feet front and 212 feet deep. This property was first offered in lots of 58 feet 7 inches front each, and was bid in, by colored men mostly, for \$1,587. It was then offered as a whole, and was bought by Parish, Buckner & Co., for 1,600. This is one of the finest lots in the city for a tobacco warehouse—large, with street on front and side and slope enough to give side entrance to floors below the first fronting on College.

Six lots fronting Spring street, an aggregate of 217 feet, and running back 104 feet to the Central Warehouse, were next sold to different parties for \$934.

103 feet lying north of Messrs. M. H. Clark & Bros'. office and fronting on Street was sold for \$612.85, the purchaser being M. H. Clark.

The entire sale aggregated \$6,515. In the number were several lots of the original survey of the town of Clarksville that had been in the hands of the Henrys or their original ancestors since the town was laid off, and on which there had never been a building of any kind.

Owing to the lateness of the hour at which the sale of the above property was completed, the sale of the lots north of the city was postponed.

LAFAYETTE, KY.

To the Chronicle.

The present indications are that there will be an immense crop of wheat. Oats are scarce, but very good. Corn is late owing to its retardation by the cutworms and grass hoppers, of which there are millions. Many Farmers have been compelled to plant their corn and tobacco the third time. The progressive planters are dispensing with tobacco and substituting wheat and other cereals thereto. Business is getting active; it is attributable to the favorableness of wheat.
