Few roads, if any, in this section have done the extensive advertising that has been done by the "Henderson Route," and from all reports, they are reaping the benefit that is sure to follow judicious advertising. Mr. L. J. Irwin, the general passenger agent, has done a great deal to make his road popular, and the enforced additional equipment and new heavy rail attest the success with which he is meeting.

A history of American journalism, compiled by R. M. McKenzie under the direction of Librarian Putnam of the Congressional Library, will soon be issued by the Government. The newspapers treated are arranged by states, and include those long since dead as well as the newest of the living. In every instance the name of the founder is given and such other facts as will answer the questions which naturally suggest themselves concerning a newspaper's history. The entire work will fill more than two thousand pages. It has taken some three years to prepare, and another six months will probably be consumed in putting it through the press. The compilation was a huge task, involving a search through state histories, county histories, biographies, gazetteers, directories, occasional addresses, pamphlets of all sorts, and the files of newspapers from the earliest American date down to the present time. A thousand papers die every year in this country, and there are now over 22,000 in existence. As early as 1830, with a population of only 13,000,000, the United States published more periodicals than all Europe with a population of 185,000,000 and the lead has been maintained every since.

Old newspapers for sale at 25 cents per hundred.

### Farm For Sale.

Farm of 60 acres two miles from Spoutspring and six miles from Clay City, nearest railroad point. This farm is an excellent fruit farm and has on it now about 100 bearing fruit trees and 50 young apple trees. There also are some grape vines on the place. All kinds of fruit do exceedingly well on this place.

I want to sell this farm with the growing crop of corn of 14 acres, 35 stands of bees, and the abundant peach crop. This place is specially adapted to bees, there being an abundance of poplar, lynn and other honey-producing trees. This farm is a bargain for one with small capital. For particulars call on or address A. H. MCINTOSH, Spoutspring, Ky.

### Public Sale!

At my residence at Spoutspring Saturday, August 24, 1901, I will offer at public sale the following personal property: Eight cows, six of them have calves; 10 stock hogs, two sows and pigs; Eight yearling steers and two heifers; various farming implements and household and kitchen furniture. Terms made known on day of sale. Benj. McKinney.

Mrs. Gertrude Saunders, the postmistress of Newcatle, Ky., whose office furnished the sole support for her ten children, has been removed on the reiterated demand of Senator Deboe, and the entire Henry County Republican Committee, who wanted the post for one of their number, J. P. Gray, a dentist, who proposes to administer it in the intervals of his work at his profession. The President has made a rule of permitting the Senator and local Republican Com-

mittee to name the postmasters in their county and could not well make an exception in this case, although he wished to do so. Mrs. Saunders has discharged her duties with entire satisfaction for about nine years. She is the widow of a Republican. The Henry County Committee is composed of eleven postmasters and four others, the eleven having obtained their offices by recommending each other. Yet, in the face of such things as this, Kentucky wonders that she is falling behind in the opinion of the country, and Kentucky Republicans wonder why they do not receive more sympathy from their party brethren in their political fights.

Sometimes the "know how" is as valuable to a person as the time it takes to put it into action. The person who understands his business does what he has to do quietly, and those who do not know how wonder how he succeeds in doing it. Skill is a good thing to have and a farmer needs it as much as any other person of whom I know.
