C. S. Carter moved his family to Bristol last week, where he has been elected president of Dominion National Bank. The people of the Gap regret very much to lose Mr. Carter and his most estimable family.

Ward's ORANGE-CRUSH and LEMON-CRUSH

—cloudiness

Have you ever noticed the cloudy appearance of Orange-Crush and Lemon-Crush while enjoying these rare-flavored drinks?

The reason for this cloudiness is also the reason for the unequalled deliciousness of Orange-Crush and Lemon-Crush—for it is caused by the uniform distribution throughout the drinks of thousands of minute particles of the actual fruit oil pressed from freshly picked oranges and lemons.

The interesting process which has made this possible was perfected five years ago by N. C. Ward, and is exclusive with Orange-Crush Company. It marks one of the greatest steps forward ever taken in the preparation of soft drinks, for it brings to you, without preservatives, the pure, delightful flavors which have made oranges and lemons the favorite fruits in every home. The cloudiness is your guarantee of genuineness, flavor and quality.

The booklet, "The Story of Ward's Orange-Crush and Lemon-Crush," gives full details regarding the making of these drinks. It shows how delicate flavors are obtained by combining the fruit oils with purest granulated sugar and citric acid—the natural acid of oranges and lemons.

Send for this free booklet today. You will better understand why Orange-Crush and Lemon-Crush enjoy the largest sale of any fruit-flavored drinks in the world.

Picture Players Here

Quite a number of picture players of the J. L. Laskie Picture Corporation arrived in the Gap Monday night from New York city to make a production of the play, "The Kentuckians," taken from John Fox's book.

The play will have an all star cast including some of the most famous players of the company, one among them being Bill Lytle, brother of the famous Bert Lytle, directed by Monte Blue.

There are about forty in number, including actors, camera men, etc., and they will be here for several weeks.

After More Harlan Mines

The sum of \$2,000,000 is reported to have been offered by the Henry Ford interests for the Creesh Coal Company's operations on Wallin's Creek, Harlan county.

This offer by the Ford interests is indicative that the millionaire is going more extensively into the coal business in Harlan county, whether or not he gets the Creesh mines. These mines are near the Banner Fork operations recently

purchased by Ford for \$1,500,000.

It is stated that the Fords are planning to make their own iron and steel and that these big coal mines are needed to furnish coal with which to run the five tremendous blast furnaces which are proposed and one of which has already been constructed. Many more millions of the auto manufacturer's millions may be expended in the Harlan fields to secure coal for the other five blast interests and the various factories controlled by the Detroit king.

The Banner Fork operation is said to produce only 20 per cent. of the coal required for the gigantic industries of Henry Ford, and it is said that in addition to the Creesh Coal Company's mines, other mines in this field are desired.—Harlan Enterprise.

Horse sense is a valuable asset to any community, provided its possession is not limited to horses.
