Persons wishing to invest in this parish can obtain any information they may desire by forwarding stamp for our new 8-page Descriptive Circular just published by the Vermilion Parish Immigration Association.

Notice the number at head of advertisement in writing letters of inquiry.

Arpent—Acre—An arpent is 4088 square yards. An acre is 4880 square yards.

No. 1 A plantation in this parish situated 1 1/2 mile from Jefferson's Orange Grove, (Lake Peigneur) 1 1/2 mil east of Vermilion Bayou, 4 miles from Royville and 6 miles from Abbeville, containing 466 arpents, besides an undivided tract of woodland 2 miles from plantation. A large and commodious dwelling house, kitchen, cistern, cotton house, carriage house, corn crib stable and blacksmith's shop. Two driven wells, mowing machine and press. Of the vast tract of land, 200 arpents are enclosed with good cypress fence. The soil is of the most fertile in the parish and its surface being slightly undulating, drains almost without trouble and will not wash. It is well adapted for cotton, sugar cane, corn, potatoes and all other produce of this climate. For stock raising it is of the very best. The dwelling and other improvements are beautifully shaded and enriched with a surrounding view of 43 arpents of a variety of useful trees, such as the china, peach, apple, fig, plum, orange, &c.

No. 2 This plantation situated on west bank of Vermilion bayou 2 miles below Perry's Bridge, contains 200 arpents of which 25 arpents are covered with timber and 14 arpents enclosed with cypress fence. One dwelling house, 18x15 with gallery, kitchen, farm implements, etc. The surface of this land is slightly hilly and the whole is well suited for cultivation. There is on each side of this place, north and south a good sugar house. About 200 arpents adjoining this place could be bought on reasonable terms.

No. 3 A valuable plantation in this parish 3 miles from Abbeville, containing 220 superficial arpents fronting on Vermilion bayou on the east, 75 acres are enclosed. More than one-half of the area of the farm is covered with best timber. Dwelling house, kitchen, 4 double cabins, corn house, cotton house. This place would be an excellent sugar, cotton or stock farm and would be sold at a bargain.

No. 4 This excellent farm contains 100 acres and the greater portion is covered with timber, a comfortable dwelling, good sugar house, blacksmith's shop, corn crib, stable, cabins, etc. A fine orchard and garden, new dwelling. All the land enclosed. Said farm is situated on Vermilion bayou 6 miles below Perry's Bridge. The soil is one of the most fertile in the parish and is well adapted for the sugar cane.

No. 5 This valuable plantation is located in the parish of Lafayette 3 miles northwest of the flourishing town of Vermilionville, 1/2 of a mile west of the Opelousas public road which runs nearly parallel with the Opelousas & Red River Railroad, also 1/2 of a mile north of Morgan's Louisiana & Texas Rail Road. It measures an area of 185 acres, all of the most fertile land in the State and well adapted for sugar cane, corn, cotton, potatoes, fruit trees, vegetables, etc.—There is a tract of fine timber land measuring 45 acres, situated on Vermilion bayou 3 1/2 miles from plantation. Said plantation is well improved with a large and well finished dwelling house, corn crib, stable, carriage house, kitchen, 5 out buildings, a great number of shade trees, besides a fine grove of pecan trees; 85 acres are at present enclosed and under cultivation. This property offers one of the most desirable positions for any person, whether agriculturist, dairy man, fruit or vegetable grower, physician or other calling. It is surrounded with a good industrious population. It is offered at a very low figure and will no doubt triple the amount when the railroad, which is due to reach Lafayette this fall be completed.

No. 6 This immense tract of land situated in the western portion of this parish, above the outlet of the Queve Tortue Bayou, said bayou being navigable and about 30 miles west of the town of Abbeville, contains 1015 acres of which 250 are woodland and swamp. This land would accommodate a small colony and various industries could be undertaken with sure profit. The manufacture of lumber besides the cultivation of the soil and stock raising could be carried on with profit. It is an excellent place for the culture of bees, fruit trees, especially the orange. A flock of sheep would given into the bargain. The whole tract can be enclosed with 1/2 the amount of fence required for any other tract of that area on account of its natural advantages of being bounded on two or three sides by swamps, bayous and lakes. Price, very cheap.

No. 7 This small desirable tract of good arable land is situated 3 miles west of Abbeville, bordering on Vermilion Bayou on the east and on Conlee Kinney on the west, and contains 60 acres of which 20 acres are woodland. The whole for a moderate price.

**THE WHITE IS KING**

**THE EASIEST SELLING; THE BEST SATISFYING SEWING MACHINE**

Its Introduction and World-wide circulation was the death blow to high-priced machines.

**THERE ARE NO SO-CALLED HAND-MADE CHINESE IN THE MARKET.**

This is a very important matter, as it is a well-known and undisputed fact that many of the so-called first class machines which are offered at now-a-days are those that have been repossessed (that is, taken back from customers after use,) and rebuilt and put upon the market as new.

The White is the peer of any sewing machine now upon the market. It is much larger than the Family machines of the Singer, Howe, and Weed make.

It costs more to manufacture than either of the aforesaid machines. Its construction is simple, plain and durable.

Its workmanship is unsurpassed. Do not buy any other before trying
