

THE MERIDIONAL.

PUBLISHED EVERY SATURDAY, BY
E. I. ADDISON.

\$2 50... PER YEAR... \$2 50

TERMS.

The MERIDIONAL is published weekly in English and French, at two dollars and fifty cents per annum payable in advance.

Advertisements will be inserted at \$1.00 per square of ten lines, or less, for each insertion.

Advertisements published in English and French will be charged for both languages.

No advertisement will be inserted for less than two dollars and fifty cents.

Payment of all advertisements is considered due immediately after their first publication.

Advertisements not marked with the number of insertions required, will be published until otherwise ordered, and charged accordingly.

Five dollars in advance is required for advertising candidates for office; and election tickets or other job-work must be paid for on delivery.

IMPORTANT NOTICE.

All advertisements and communications intended for the MERIDIONAL, must be handed in by 12 o'clock M. on Thursday to ensure publication. This is an important business rule, which should not be overlooked or neglected.

Important Notice.

All persons wishing to make publications of tableaux, etc., are hereby notified that from and after date said notices must be accompanied by the printer's fee, or some receipt from the Clerk of Court, otherwise, they will not be published. We cannot afford to work for glory, much less promises.

April 1st 1882.

The Sunday's cool angel must be an ice angel.

It is the poll-light candidate who does not run well.

The rainy weather has apparently laid up for repairs.

A Cincinnati barber uses Arabi Bey run.

To be faithful without loving is to have the patriotism of virtue.

Love comes when we expect it the least and when we dread it the most.

The Republicans of Calcasieu will support Beattie in the coming election and not Kellogg.

Out of three or four hundred Republican votes in this parish Kellogg will get about fifty and Beattie the balance.

At Yokohama, out of 775 cases of cholera within twenty days, 572 cases have proved fatal. At Tokio about eighty cases and fifty deaths occur daily.

Brooks's steam ginny will soon be in operation, and will bring more or less business to town. It is such enterprise as this which tend to build up a town and develop the surrounding country.

Our young friend Isaac Wise, returned on Monday last, after an absence of several months upon an extensive European tour. He is looking the very picture of health and has had a most enjoyable time of it.

During the progress of the Moore murder trial there was an immense throng in attendance and marked interest was manifested in the entire proceedings. The witnesses were in the custody of deputy sheriff Ellis, and held no communication with outsiders.

We are pained to learn of the recent death, from typhoid fever, of Mr. T. A. BABIN, of New Iberia. He was the former assessor of that parish, and his many good qualities had won for him a host of friends, who lament his removal in the prime of life.

Our compliments are due to Mr. W. B. Lindsay, Secretary, Lafayette Gun Club, for an invitation to attend the Grand Ball to be given by that body on Saturday next, at the magnificent La. Western Hotel, Vermilionville. Judging from the personnel of the club, it will be a recherche affair.

MOORE IS ACQUITTED AN EXCITING TRIAL ENDS

On Tuesday began one of the most important murder trials in the criminal annals of this parish. The mystery surrounding the affair and the cruel manner of Theo. Leblanc's taking off conspired to lend an unusual interest to the case. Theo. Leblanc was killed in Voochie Trahan's coffee house, on the night of January 1st 1877, and last March the Grand Jury indicted Felix Moore for the crime.

The entire morning was consumed in empanelling the jury. The evidence for the State occupied the remainder of the day and was resumed, Wednesday, Thursday evening about 3:45 the case was given to the jury who retired and after an absence of about 15 minutes returned with a verdict of not guilty.

The case was bitterly contested on both sides. The State was represented by Hon. J. A. Charbono who prosecuted with his usual vigor. Messrs. W. W. Edwards, Col. Wm. Patton and R. C. Smedes conducted the defense with marked tact and ability. The arguments of counsel, were replete with eloquence and erudition. Judge Clegg's charge to the jury was exceptionally brilliant and lucid.

One day last week a snag boat ascended the bayou above Abbeville, a piece, pulled out a few stumps and left the next day, and we see in the New Orleans Daily Democrat that \$5000 of the recent appropriation for the improvement of Vermilion Bayou has been expended. Now we wish to know how and where the work has been done. Five thousand dollars for a day's work at stump pulling is rather a fat job for some fellow who can easily contribute his little 60 per cent to Bill Kellogg's campaign fund and then realize a Dutchman's 500 per cent on the transaction! Will the Protectionist please explain this little matter?

FABLE OF THE BEAR AND FOX.—A Bear boasted of his love for man, saying that he never worried or disturbed him when dead. The Fox observed with a smile, "I should have thought more of your profession if you never ate him alive." Moral: Better save a man from dying, than save him when dead. How true of man is that maxim to this day. Men and women, here, there, everywhere, deplore and lament death-bed scenes, yet pay so little attention to each other's welfare during life. All tears after death, but no smiles before. The health of wives and daughters is shattered, and their lives imperilled by some chronic female complaint, which is permitted to continue until the whole constitution is broken down. Don't procrastinate until these poor creatures are dead, but go to work now and work continuously until they are cured. Dr. Dromgoole's ENGLISH FEMALE BITTERS is the remedy. It is a never-failing female regulator and iron tonic, acting promptly and pleasantly.

Cotton is opening rapidly owing to the present, warm dry weather, and the staple is in fine condition. Prices are anything but established and vary from \$25 to \$35 per thousand pounds for seed cotton, according to the whims and caprice of the purchaser. We believe twenty seven dollars and fifty cents per thousand is about the ruling price.

Quarantine was invented in Venice in the year 1127, all merchant and others from the Levant or Eastern ports being obliged to stop in the house of St. Lazarus or the Lazaretto forty days before they were allowed to enter the city. Various Southern States copied the example of Venice; the habit was soon spread into every European country, and was introduced by the Venetians into Syria and Egypt. At Gaza or Beyrout the guardian who formerly, with a long pole freely exercised, kept one denizen of the Lazaretto from communication with another, was a Venetian, while the sick were attended by an idiot of a medio hailing from some part of Italy, who looked at them from a safe distance through assafetida smoke.

A Huge Assessment.

New Orleans City Item.

We learn from the Times-Democrat that the Third Congressional District Republican sub-committee has begun a very vigorous campaign indeed, not against the opposing party, exactly, but its political friends in the first and second districts. The unprecedented assessment of sixty per cent upon the August salaries of all federal employees in the city has been levied in the usual polite phrase, and each one of whom the tribute is demanded is assured of the committee's conviction that he will esteem it both a privilege and a pleasure to pay the small amount. The committee expects to raise \$27,000 by this mean (provided all the assessed pay) but how they are going to spend such a sum of money in a sensible manner and for a useful purpose, does not appear. Nor have we seen in the paper that gives us these interesting facts, nor heard *alimunde*, whence the Third District committee derives its authority to cross the lines and impose such fearful assessment upon two neighboring friendly districts.

A movement is on foot in Philadelphia to celebrate the bi-centennial anniversary of the landing of Francis Daniel Pastorius, who brought over the first Germans who settled in Pennsylvania. A correspondent of the New York World says: "In 1682 Pastorius, who was an intimate friend of William Penn, founded a society at Frankfort-on-the-Main for the purchase of land in Pennsylvania. He came over soon afterward and secured 25,000 acres where Germantown now stands. On October 6, 1683, the first German immigrants, thirteen families, making fifty persons in all, arrived and settled upon 5700 acres of the land. Others soon followed, and in a short time the settlement became a flourishing community and Pastorius elected mayor. In 1730, Christopher Sauer, a member of the colony, established the first German newspaper in the United States. It was called the *Hochdeutscher Pennsylvaniaischer Gesichtsreiter*—in English, the 'Pennsylvania German Historian.' The first complete Bible in German in the colonies was printed at Germantown by Mr. Sauer in 1743. Pastorius was buried in Germantown, where a street is named in his honor.

Take care of your Liver. A great number of the diseases to which mankind are liable, arise from disordered condition of this organ. Keep it in a sound and healthy condition and you can defy disease. PRICKLY ASH BITTERS are especially adapted for this purpose, being composed of drugs which act on the Liver, giving it tone and strength to withstand malaria.

The health bulletins from Pensacola and Brownsville show the usual fluctuation in such cases. At one time a slight decrease in the number of deaths from fever raises the hope that it is on the decline, but an increase the next day brings disappointment. Those who are familiar with the scourge are not deceived by these temporary and trifling changes. They are incidental to a yellow fever epidemic, and are two irregular to be depended upon as signs. In nearly all cases, yellow fever will run its course in a place in from sixty to ninety days. It rarely culminates before sixty, when it begins rapidly to decrease, and usually disappears altogether within thirty more. A gradual increase may be expected, subject to occasional fluctuations, for the period first named, and the decrease is sometimes attended with the same phenomena. The afflicted citizens of the two places may as well make up their minds for at least a two months' siege.—City Item.

An eminent Irish divine says that England legislates concerning the rights of the Irish people upon the same charitable principle that cats do for mice.

WANTED AN INTRODUCTION.

On a recent trip of one of the up river steamer about twenty couples of ladies and gentlemen formed and excursion party, and the cabin presented quite a sociable and pleasing appearance. There were, too, several ladies who had but one escort. There was also a drummer on the boat, and not being acquainted he felt lonesome and couldn't bear the idea of not getting acquainted with some of the charming ladies. He was anxious to be introduced to the group who seemingly had but one escort, and went to Clerk Watt, asking him to do the introducing. The clerk said he was not acquainted himself, but nothing would give him more pleasure than to give the irrepressible commercial tourist an introduction to the escort of the attractive ladies. He made him acquainted with a man weighing 250 pounds, and after the two had gone through the formalities of an introduction, the fat man told the drummer that it was a mistake about his being the escort of the ladies. "But," said the fat man, "I will show you the man who is. Do you see that person sitting down there? He is the escort of the ladies. He's a little deaf, though, and you will have to talk loud to him."

The traveling man went over, and, after bowing to the supposed human being and stating his business with him, discovered that he was merely addressing a "dummy" and, of course those who watched the fun broke out in a loud laugh. The drummer wanted to fight somebody on the spot, but finally came to the conclusion that discretion was the better part of valor. He quietly withdrew to the hurricane deck, and wondered how he came to be so easily fooled.

For dyspepsia, biliousness, constipation, torpid liver, sour stomach, heartburn, sick headache, &c., there is nothing that equals Bailey's SALINE APERIENT. It is cheaper than pills, does not gripe nor sicken, is pleasant and speedy, is cooling and quieting, and can be used at all times with out interfering with any duties of life.

From our Exchanges.

St. Martins Observer: Cotton picking rapidly increasing—crops look fine—a big yield sure. Cane growing fast—weather propitious to its growth. Every one happy.

Lake Charles Echo: Nine true bills and nine not true were found by the grand jury for the present term of court. The district attorney filed three bills of information.

Washington Argus: The crops along the line of railroad between here and Alexandria, struck us as being below the average. The cotton was small, grassy and being eaten by the caterpillars.

St. Landry Democrat: Cotton is opening very fast and farmers are hard at work picking it out. As soon as sales justify it we will give the price of cotton and shipments up to date of going to press each week.

Opelousas Courier: The bridge across the bayou Tesson, above the college buildings, leading from the railroad to the Catholic Church, was finished yesterday. The structure is a good one, and travel can now go on over that route.

The rice crop of this parish which is larger than usual is reported as being very fine in quality. Hand cleaned rice is now selling at fifty cents a gallon which is somewhat an advance over ordinary prices.

The fine laddies were out with their new truck Sunday evening and went through the bucket drill. They handled themselves very well, and bid fair to do good work when the occasion demands. The truck is a perfect little beauty and the boys may well be proud of it.

NOTICE.

LAND OFFICE AT New Orleans, La. Sept. 11, 1882.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Judge or Clerk of Court, at Abbeville, La., on the 14th Oct. 1882, viz: Valery Boudreaux, Homestead No. 4395, for the SE. 1/4 of E. 1/2 of SW. 1/4 of Sec. 25, T. 13, S. 4 East, Louisiana Meridian.

He names the following witnesses to prove his continuous residence upon, and cultivation of said land, viz: Andrew Dubois, Edmond Boudreaux, Lessin Dubois and Alphé Boudreaux of Vermilion Parish, Louisiana.

Geo. BALDEY, Register.

Sept. 16/82.

COTTON PICKING OF COTTON!

Unusually early and fine cotton in the hands of the pickers. For particulars and prices, apply to the following:

DR. BUTTS' DISPENSARY

Established 1847 at 12 1/2 St. 8th Street, ST. LOUIS, MO.

THE Dispensary in charge of this old and well known institution are regular graduates in medicine and surgery. Years of experience in the treatment of Chronic Diseases have made them fully and completely conversant with the most reliable and successful methods of curing all the most difficult and dangerous diseases. They have acquired a national reputation through their treatment of complicated cases.

INDISCRETION OR EXPOSURE Produces all kinds of blood, skin or bone, treated with success, without using Mercury or Potassium Iodide.

YOUNG MEN suffering from the effects of a disease that under the influence of business or marriage, permanently curable, at moderate expense.

PATIENTS TREATED by Mail and Express, without cost, and where possible, by personal consultation is preferred, which is FREE and invited.

Last of questions to be answered by patients desiring treatment, send free in any case on application.

(Persons suffering from Rupture should send their address and name, and we will send them a full and complete description of the disease, and how to cure it.)

Communications strictly confidential, and should be addressed to DR. BUTTS, 12 North 8th St., St. Louis, Mo.

Put up in bottles of three sizes, 50¢, 1.00, and 2.00. (Bottles of 50¢ and 1.00 are guaranteed to cure, unless in severe cases.) 2.00 and 3.00 (bottles) are guaranteed to cure, unless in severe cases.)

Prepared and sold ONLY by HARRIS REMEDY CO., Chemists, MARKET AND 8TH STS., ST. LOUIS, MO.

THE LIVER AND ITS FUNCTIONS.

It has become a well established fact that the liver is the most important organ in the human system. It is the seat of the digestive process, and its health is essential to the health of the whole body. The liver is also the seat of the circulation of the blood, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health is essential to the health of the whole body. The liver is also the seat of the muscular process, and its health is essential to the health of the whole body. The liver is also the seat of the circulatory process, and its health is essential to the health of the whole body. The liver is also the seat of the respiratory process, and its health is essential to the health of the whole body. The liver is also the seat of the excretory process, and its health is essential to the health of the whole body. The liver is also the seat of the reproductive process, and its health is essential to the health of the whole body. The liver is also the seat of the nervous process, and its health
