NEW YORK'S  
Gas-Lit Life Illustrated.

The above is the title of a series of sketches of the shady side of life and character in the Great Metropolis, now being fully illustrated from authentic sketches in the National Police Gazette of New York, which are realistic and faithful portraits from real life. The illustrations are by the best artistic talent attainable, and the descriptions are from the pen of the most gifted journalist and brilliant writer in America, who it is conceded, has rivalled that master hand at word painting—Charles Dickens. It is sufficient to say that "New York's Gaslit Life" will present the most striking, vivid and truthful pictures of the under-current of life in New York City that have ever been presented to the public. The National Police Gazette of New York, is for sale by all newsdealers, price 10 cent per copy, or it can be ordered direct from the publisher.

Subscription price, \$4.00 per year. The National Police Gazette, of New York, has no connection with any other publication of its class, who for gain, as far as possible copy its title and appearance. CAUTION.—The public are cautioned against buying weak imitations of the National Police Gazette. In all cases see that the paper is dated from New York and has the publishers name printed on each copy. Remittances should be made by post office order, draft on New York, or by registered letter, to RICHARD K. FOX Publisher, Cor. Spruce and William Sts., New York City.

EXCELSIOR.

The Galveston News, on entering another year, makes no high-sounding promises, but simply refers to its early progress from year to year as its best commendation to the continued acceptance of an intelligent and appreciative reading public. It points to its record in the past as furnishing the most authentic and most telling prospect for the future. That it will hereafter, as heretofore, in its chosen field.

ECLIPSE COMPETITION, and use promptly and effectively every advantage presented in the way of increased material facilities for improving upon itself in all the features of a general newspaper for the people may be stated without presumption and accepted without misgiving upon the assurance of accomplished fact. Such a journal as the Galveston News may be regarded as one of the necessities of our contemporary civilization. It is in the nature of a kind of ubiquitous university for the people, while their local papers afford them the more special local information. No intelligent and substantial citizen should consider his household or his place of business adequately equipped without the regular presence of The Galveston News and a good local newspaper.

THE WHITE IS KING

THE EASIEST SELLING;  
THE BEST SATISFYING  
SEWING MACHINE

Its introduction and World reputation was the death blow to high priced machines.

THERE ARE NO SECOND-HAND WHITE MACHINES IN THE MARKET.

This is a very important matter, as it is a well-known and undisputed fact that many of the so-called first class machines which are offered so now a-days are those that have been repossessed (that is, taken back from customers after use.) and rebuilt and put upon the market as new.

The White is the peer of any sewing machine now upon the market. It is much larger than the family machines of the Singer, Howe, and Weed make.

It costs more to manufacture than either of the aforesaid machines. Its construction is simple, positive and durable.

Its workmanship is unsurpassed. Do not buy any other before trying

A WONDERFUL AND SCIENTIFIC DISCOVERY.

These Glasses are chemically treated in the process of manufacture, and possess the property of keeping your eyes in good condition, as when first you use them. They have been carefully examined and analyzed by American and European oculists, who claim that the MEDICATED GLASSES have no equal, and can in some cases restore the sight if used in time, but in no case can the eye become impaired by their use for the following reasons:  
1. The chemicals soften the light to the eye, completely doing away with that tiresome sensation that is usually experienced in using glasses after one or two hours' use.  
2. The chemicals make the glasses hard; they retain their polish, hence you will always see through them as bright and clear as at first.  
3. The chemicals keep the glasses cool, and the result is that the optic nerves are always cool, doing away with any feverish sensation to the eye.  
4. With these glasses you can read, write or sew all night, the light having no effect on the eye, with no distressing or tiresome sensation, which necessarily improves the eye.

BEWARE OF COUNTERFEITS.

The MEDICATED GLASSES are stamped on the frame: H. HOUSAH, Medicated. NONE GENUINE UNLESS STAMPED.
