BUY PAINTS FROM THE MANUFACTURER.
Pay us 1/5 Less
Than to any other house in the World for first class, high grade, best quality Paints. Sold either ready for use or in paste form, to be thinned down.
Buy from the only paint manufacturing house in the country selling direct from mills to user. All other Paint makers depend on dealers for the sale of their paints.
That means one heavy expense and one profit that we cut out of our business.
We sell direct to the man that uses paint.
You may think that you can do as well as we could do for you, if you should try to buy a certain brand of paint that you thought well of, direct from the manufacturer. But you would make a mistake.
The manufacturer might take your money and sell you the paint, but he would take care to charge you as much for the paint as if you bought it from a dealer. He would put on that extra profit, to "protect the dealer".
We have no salesmen or agents to increase the cost of our paints to the consumer.
We quote to the man that uses the paint the lowest and best price, reserving no margin to protect agents.
We pay freight.
We gladly advise our customers about paints.
Write for sample cards and paint advice, and blanks showing how to measure houses to show the quantity of paint required.
Ask any first class business house or any bank in New Orleans, or the mercantile agencies if we are responsible.
