AN AMUSING WRITE-UP.

We often see things in the paper that are extremely amusing. Especially is this so when we are in possession of the real facts of the case. We have reference to the article appearing in the daily "Item" in which it gives an account of the meeting held at Pythian Hall when the Fifth Precinct of this District met to organize a Behrman Democratic Club.

TWO SIDES TO A STORY.

In the recent re-arrest of Katie Fatsch, who was out on bond, is recalled the crime for which she was originally arrested, being the slaying of her betrayer. The case attracted widespread attention at the time and it was considered by the legal talent that it would be best that the case be nolle prosequere.

Precincts Organize

The seven precincts of this ward have completed their organizations and the results of the organization are very flattering to the Regular Democratic party. At all of the meetings there were record crowds present and a great amount of enthusiasm was shown by the members who are the voters of this ward.

The following is the list of officers of the various clubs:
First Precinct—G. G. Norris, president; E. J. LeBoeuf, secretary; Joseph Tallon, treasurer; H. N. Umbach, captain; George W. Foster, grand marshal; R. B. Maher, sergeant-at-arms; J. P. ANOTHER SIDE OF THE STORY.

Julius Sampson, 1523 Dante street, whose alleged relations with Katie Fetsch, formerly of this district, resulted in the latter being arrested and her bond raised, preliminary to a second trial for the murder of Frank Mischler, called at the office of the "States" Thursday afternoon and gave his version of the circumstances which brought about the estrangement between himself and his wife. Sampson, who is a striking Illinois Central employe, having been employed as a coal-hoisting engineer when the strike was declared, denied all improper relations with Katie Fetsch. He accounted for the Fetsch girl's presence in the house in Dante street by saying that he employed Katie Fetsch, who is Sampson's brother's niece by marriage, at \$12 a month to act as his housekeeper.

Life Left Him Three Times.

"My wife left me over eight months ago," said Sampson. "She's left me three times in all since we were married on December 15, 1909. Miss Fetsch, whom I considered a member of our family, was without a home where she could feel satisfied, and I consented to take her as a housekeeper, and I contracted with her to pay her \$12 a month and her board. She consented to this. That was about six weeks ago, since which time she has kept house for me. The statement that I was living in an immoral way with her, however, is absolutely false, and nothing but the purest motives prompted me in taking her into my home to act as my housekeeper.

Says Wife Drank.

"When I married my wife she had one child, two years of age. I tried to do everything that a husband could to make the home an ideal one, and as comfortable as possible, but our separation was the fault of my wife. She was anything but what she should have been. Often I would come home and find that my dinner was not prepared, and when I protested she simply told me to go to a restaurant for my meals. Besides, drink had much to do with it. From time to time, when I would reach home, I would find my wife under the influence of liquor. "I endeavored in every way to brighten up our home and to get my wife to let liquor alone, but matters went from bad to worse. "Even then I remained steadfast and did everything to keep peace, but my wife did not seem to appreciate my efforts, and continued her pace, finally leaving me altogether. Apparently her home life was not to her taste. My wife left me the first time three months after we were married, remaining away seven months. She returned and left again for a time, finally leaving me about eight months ago for good."

Sampson stated that Katie Fetsch's brother and sister visited him before Katie Fetsch took up her abode with him at 1523 Dante street, and that they were visitors off and on several times since then, and they were perfectly satisfied with her position. He repeated that there was nothing immoral or wrong in any way in having the young woman in his home.

MAY HELP OUR STATION.

Washington's New Idea of Various Yards As Bases of Supply or Emergency Repair Stations Has Possibilities of Good for the Port.

Washington, Nov. 14.—Although it has been the desire of the Navy Department to abolish the number of the smaller Southern navy yards, it now seems possible a new policy of specialization will result in the continuance of the active plants in active service. The idea would be to have each station cover some particular field of naval work or service as a training station or base of supplies.

Already, as a result of recent experiences, the department has decided that hereafter all torpedo boats and destroyers shall be re-tubed at the Charleston, S. C., yard. This means that the Charleston plant practically will be the "mother yard" of torpedo boats and consequently it will be a very busy place in the future. There are a great many of these little vessels in the service now and the plans of the naval strategists contemplate quadrupling the number in the course of a few years.

An illustration of what the Charleston yard can do was furnished recently when one of the torpedo boats bound for New York to participate in the naval rendezvous smashed a cylinder and put in there. The Charleston mechanics agreed to replace the cylinder in one-third the time and at one-sixth the cost demanded by the builders of the vessel.

The Washington yard was turned into an ordnance factory some time ago and the satisfactory result of this experiment, combined with the experiences at Charleston, is expected to result in the policy to other small plants to be favorably considered.

Mayor Glad—Believes Policy Outlined Good in Practice.

"I should be very glad to see the government make a special yard of the Naval Station here," said Mayor Behrman, when show the Associated Press dispatch.

"There is no question," said the mayor, "that the station in Algiers is prepared to do the best of work and all they want is an opportunity to demonstrate it. There are excellent machinists and mechanics in Algiers and I do not believe there are any better in the entire country. If we had the same opportunity that Charleston had in repairing the torpedo boat I am sure we could have done the job just as quickly and cheaply.

"Algiers has been for many years a ship repairing and building center, and the Southern Pacific ships have been located there for a long time and the consequence is we have some of the best machinists and mechanics in the world."

WHAT IS YOUR FAMILY WORTH?

If your family is worth the best you can afford in house and food and clothes, is it not worth the best reading as well? And the best reading—best for boys and girls, best for men and women—is to be found in The Youth's Companion.

Of stories alone The Companion will print nearly 300 in 1912. With all the rest of the paper thrown in, and counting the glorious long serial stories, they the subscriber less than a cent apiece. Moreover, you will look long before you will find stories so varied and interesting—stories of coolness in the face of peril, strange adventures with creatures of the forest and the sea, moving stories of life's obscure heroisms, stories breezy with good-natured humor, quaint and curious character sketches.

Now is the time to subscribe, for you will receive free from the time your \$1.75 is received all the issues for the remaining weeks of 1911, containing the opening chapters of Ralph D. Paine's great serial story of the Boxer rebellion, "The Cross and the Dragon," And there is the gift of The Companion Calendar for 1912, "On the New England Coast," lithographed in ten colors and gold. Only \$1.75 now for the 52 weekly issues, but on January 1, 1912, the subscription price will be advanced to \$2.00.

ROBT. O'CONNOR'S PLATFORM.

The following letter is being sent to the democratic voters of the state through the O'Connor campaign management:

The undersigned has announced his candidacy for the nomination for attorney-general, state of Louisiana, and respectfully solicits your support and assistance.

Believing that the electorate of the state should be informed regarding the position of each candidate on the measures that may be connected directly, or indirectly, with the administration of the office to which he aspires, I favor, and will uphold to the best of my ability any progressive legislation, looking to a retrenchment of the expenses of government; the re-districting of the judicial districts of the state; the complete separation of the executive from the legislative department of the government; also any sensible and effective anti-lobby laws, and laws prohibiting the holding by one person of more than one office of any kind whatsoever.

I favor local option laws for the regulation and sale of intoxicants. If elected to this office, I will undertake to perform the legal services for all of the levee boards of the state, without any additional compensation from said boards.

Will at all times be pleased to advise regarding my position on any other subject discussed in this campaign.

With best wishes, I am, Yours very truly, ROBT. O'CONNOR.

CAPT. CASSIDY DROWNED.

Was One of the Oldest and Best-Known Pilots on the River.

Capt. John Cassidy, one of the oldest and best known pilots on the Mississippi river, was drowned from his boat, the Corozal, as it was making a landing with a load of cattle at the Crescent City Stock Yards in St. Bernard parish, shortly after noon Friday. Willing hands, including members of the crew, who held Capt. Cassidy in high esteem, and other friends on shore, immediately set to work, dragging the river for some distance about the point where he went down, but their efforts proved fruitless. News of the sudden death of Capt. Cassidy spread in the vicinity in a short time, as he was a familiar figure at Stock Landing and liked by all who knew him. The levee bank near the scene of the accident soon held a large crowd that eagerly watched the work of the men in skiffs searching for the body.

The Corozal, which operates between the wharves above Canal street and the Crescent City Stock Yards in St. Bernard, transferring cattle, upon their arrival by rail in New Orleans, to the slaughter house, had just arrived on one of its daily trips, it being about 12:30 o'clock. The nose of the Corozal had been made fast to the landing, while the stern was still projecting into the river. Capt. Cassidy left the pilot house and walked down the boiler deck to the rear end of the boat, where he climbed over the guard rail and stood close to the edge of the deck and held a support with one hand. His purpose in going to the back part of the boat was to see if his craft would clear a raft of piling tied nearby. Whether Capt. Cassidy made a mistake or was seized with an attack of vertigo never will be known, but he was seen suddenly to fall into the water between the boat and the landing. He never rose, and it is believed that his head either struck the piles, which rendered him unconscious, as he was reputed to be a good swimmer, or when he came up he was held under the piles and drowned.

Capt. Cassidy's wife preceded him to the grave twenty-five years ago, and it was not long after that bereavement that he moved to Algiers, where he had resided since. He was one of the best-known residents of the Fifth District, and lived with his family at Pelican avenue and Vallette street. He leaves two daughters, Mrs. John A. Barrett, and Miss Birdie Cassidy, and a son, George L. Cassidy.

SUIT ENTERED ON WOODMAN POLICY.

Sovereign Camp Woodmen of the World was Monday made defendant by Thomas A. Houser. The petitioner avers that he is the nearest relative of the late Mrs. Anita Houser, widow by first marriage of Edward Bernier, who was his sister. He avers that his sister held a policy in Circle Grove No. 9, of Algiers, and that her husband was named as beneficiary in the policy, but that after his death she ordered that Mrs. Ellen Peterson be named as beneficiary. The petitioner avers that his sister died on Jan. 25, 1911, and left only this policy, worth \$1,000. He asserts that the by-laws of the Woodmen prohibit the issuance of a policy to any one not a relative, and asserts that though Mrs. Peterson is named as the aunt of his sister, that she was no relative, and he so notified the Woodmen when Mrs. Peterson sought to collect the policy. He avers that in spite of his protest the defendant paid the money, over to Mrs. Peterson, and he now claims that he should be given the amount of the policy, and he asked that Mrs. Peterson be also cited to answer his suit.

TINY BOY DROWNED IN LAMARQUE CANAL.

Charles Esnard, aged 6, was drowned in the Lamarque street canal, in front of his house, at 11 o'clock Saturday morning.

The barking of the boy's little dog, which had gone in the canal after him, attracted the attention of little Lillian Bellocq, aged 13, a playmate of his, and she informed Fritz Hunn, a Southern Pacific watchman, who picked the little dog out of the water, where it was clinging to a scantling, and later discovered the body of the boy floating half submerged nearby.

Charlie, as the bright little fellow was called, had been given permission by his mother to go out on the gallery and play with his dog.

Fritz Hunn, the watchman who took him from the canal later, saw him in the Southern Pacific yard at 10:30, sitting on the end of a plank and playing with the canine. Hunn told him that he had better go home, so Charlie laughed and calling his dog went. When last seen alive by the watchman he was crossing the bridge over the canal.

Five minutes later the dog was heard whining near the bridge. On investigation the animal was found floating on a scantling in the canal. Hunn and a Southern Pacific guard named Anderson got him out of the water and turned him over, still whining and barking, to little Lillian Bellocq, who had first called their attention to him.

At 11:20 Watchman Hunn, noticed the little girl looking around the place almost crying, and on asking what she was looking for, were told that she was looking for "Charlie." The watchman crossed over a foot-bridge across the canal and saw a dark object floating near the surface. Poking it with a scantling he found that it was the body of "Charlie."

With the assistance of J. C. Meade, a Boylan officer, the body was removed, and after an examination by Assistant Coroner Rupp was taken to the home of the parents.

Charlie was the son of Chas. Esnard and Dora Donewar. The funeral took place Sunday evening at 4 o'clock from his parents' residence, corner Verret avenue and Lamarque street. Interment was in McDonoughville cemetery.

LACOSTE BENEFIT GAME NOVEMBER 26

According to the announcement by Inspector Reynolds, the benefit tickets for the family of Patrolman Joseph Lacoste, who was shot and killed while performing his duty, are ready. The announcement sent to all precincts read as follows: "Tickets for the baseball game, November 26, for the benefit of the widow and children of ex-Patrolman Lacoste, killed in the performance of duty, are ready for distribution. "I would like to see every officer and man in the department take an active interest in this affair and do his utmost to dispose of as many tickets as possible. The family of the deceased officer is in urgent need and I think every man in the department should take pride in assisting such a worthy cause."

DOCK BOARD TO IMPROVE WALKS

In response to a letter from Peter Muntz, secretary of the Algiers Improvement Association, complaining of the condition of the walk between the ferry and the Louisville and Nashville street station, at the foot of Canal street, that in rainy weather it overflows, to the discomfort of the ferry passengers and many school children, the Dock Board agreed to remedy the condition. It is understood that a form of gutter will be placed along the sidewalk to catch the overflow, and that the sidewalk will not be raised.
